ACCREDITATION

Vance-Granville Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award certificates, diplomas, and associate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia, 30033-4097 or call (404) 679-4500 for questions about the accreditation of Vance-Granville Community College. The Commission on Colleges should be contacted only if there is evidence that appears to support an institution's significant non-compliance with a requirement or standard.

APPROVAL

Vance-Granville Community College is approved by the:

- MAERB Medical Assisting Education Review Board Accreditation
- NAEYC Early Childhood Associate Degree Accreditation
- North Carolina Community College System
- North Carolina Board of Nursing
- Joint Review Committee on Education in Radiologic Technology
- Commission on Accreditation of Allied Health Education Programs
- North Carolina Division of Vocational Rehabilitation
- North Carolina State Approving Agency for Veterans and Military Education Programs
- North Carolina Board of Cosmetic Art Examiners
- North Carolina Department of Insurance
- North Carolina Office of Emergency Services
- North Carolina Real Estate Licensing Board
- North Carolina Division of Health Service Regulation
- North Carolina Sheriffs' Education and Training Standards Commission
- North Carolina Criminal Justice Education and Training Standards Commission
- Automotive Service Excellence - National Automotive Technicians Education Foundation

MEMBERSHIP

Vance-Granville Community College is a member of the following:

- American Association of Community Colleges
- North Carolina Community College System
- Southern Association of Colleges and Schools

CATALOG INFORMATION

Vance-Granville Community College has made every reasonable effort to determine that everything stated in this catalog is accurate at the time of printing. However, the N.C. General Assembly, the State Board of Community Colleges or the VGCC Board of Trustees may make changes in policy, graduation requirement, fees and other charges, curriculum course structure and content, and other such matters after the publication of this catalog. The N.C. General Assembly may make changes in tuition without notice. The official version of the college catalog can be found at www.vgcc.edu.

Vance-Granville Community College is an equal opportunity, affirmative action institution. The College serves all students regardless of race, creed, color, age, sex, national origin, or disabling conditions.

Vance-Granville Community College is a Tobacco-Free College.

The College is in compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1991 prohibiting discrimination with regard to disabilities.

MESSAGE FROM THE PRESIDENT

Thank you for your interest in the outstanding opportunities provided by Vance-Granville Community College. Our college is here to serve you through quality educational services on campus, online, and on-site at locations throughout the community.

As we seek to continuously improve how we serve the people of our region, we are guided by three fundamental values: student success, economic development and community engagement.

- *Student Success:* Our primary objective is to serve students so that they may achieve their personal goals and advance their professional lives. Our excellent faculty and staff are here to guide, support, inspire and challenge you.

- *Economic Development:* We understand our role in the economic progress of our four-county service area and the surrounding region. We work closely with businesses and industries to provide customized training and to prepare a globally competitive workforce.

- *Community Engagement:* We take the word “community” in our name seriously. Through our four campuses, other locations and distance education, we seek to make education accessible to all, and we serve as a cultural hub for our communities as well. We are proud of the strong support that we enjoy from local citizens and businesses.

In this informative catalog, you will learn about how we carry out our mission through academic programs, resources and services designed to help all students succeed. No matter what your educational interests are, we invite you to explore all your options for education and training at Vance-Granville. Whether you seek to improve your skills, to obtain a credential, or to develop your business, you will find VGCC to be your gateway to endless possibilities. We are delighted that you have chosen to join us as part of the VGCC community and we look forward to meeting your educational needs. I wish you much success in all your endeavors!

Dr. Stelfanie Williams

VANCE-GRANVILLE COMMUNITY COLLEGE 2012-2013 ACADEMIC CALENDAR

SEMESTER SYSTEM

Vance-Granville Community College operates on the semester system. The fall and spring semesters are 16 weeks (80 days) in length. The summer term is 10 weeks (48 days) in length. In addition, mini-terms are offered within these semesters of 12 week, 8 week, and 4 week durations. Each mini-term has a census date, add/drop period, and withdrawal dates that are published in the College registration bulletin (ARCHES).

Fall Semester 2012

August 20	Monday	Curriculum Classes Begin
August 22	Wednesday	Last Day To Add A Class*
August 29	Wednesday	Last Day For A Partial Refund/ Last Day To Drop with No Transcript Grade/Census Date
September 3	Monday	Labor Day Holiday
October 8,9	Monday, Tuesday	Fall Break
November 14	Wednesday	Last Day To Withdraw With "WP" Grade
November 22,23	Thursday, Friday	Thanksgiving Holidays
December 14	Friday	Curriculum Classes End

Spring Semester 2013

January 8	Tuesday	Curriculum Classes Begin
January 10	Thursday	Last Day To Add A Class*
January 17	Thursday	Last Day For A Partial Refund/ Last Day To Drop with No Transcript Grade/Census Date
January 21	Monday	Martin Luther King, Jr. Holiday
March 25-28	Monday-Thursday	Spring Break
March 29	Friday	Good Friday
April 8	Monday	Last Day To Withdraw With "WP" Grade
May 7	Tuesday	Curriculum Classes End
May 10	Friday	Graduation
May 11	Saturday	Graduation (Rain Date)

Summer Semester 2013

May 16	Thursday	Curriculum Classes Begin
May 17	Friday	Last Day To Add A Class*
May 22	Wednesday	Last Day For A Partial Refund/ Last Day To Drop with No Transcript Grade/Census Date
May 27	Monday	Memorial Day Holiday
July 1-5	Monday-Friday	Independence Day Holidays
July 12	Friday	Last Day To Withdraw With "WP" Grade
July 30	Tuesday	Curriculum Classes End

**Instructor permission is required to add a class beyond this date.*

See "Drop and Add" policy.

THE COLLEGE

The North Carolina General Assembly founded Vance-Granville Community College as Vance County Technical Institute in 1969. After offering classes in various community locations, VCTI officially moved into renovated quarters of the former Maria Parham Hospital building near downtown Henderson in January 1970 and began offering extension classes. By the fall of that year, eight vocational and technical courses were added to the curriculum.

During the ensuing year, VCTI experienced a phenomenal growth in enrollment, and the need for larger, more permanent facilities became increasingly evident. The Board of Trustees requested that the Vance County Board of Commissioners hold a \$2 million bond referendum for that purpose. Granville County representatives expressed interest in supporting a united effort between the counties to construct and maintain the new campus. A joint bond issue passed in 1972, and the name of the institution was changed to Vance-Granville Technical Institute.

Located midway between Henderson and Oxford alongside Interstate 85, the new campus consisting of four buildings opened in August 1976, just six weeks after the Legislature granted community college status, and its name was changed to Vance-Granville Community College.

The College experienced such rapid growth that a fifth building was added in 1978, while the College service area was expanded to include Franklin County and a major portion of Warren County (VGCC was assigned responsibility for all of Warren County by the North Carolina Board of Community Colleges in 2001).

In 1981, the General Assembly funded a special appropriation for much-needed equipment for training purposes. That same year, seven new programs were added to the general curricula, resulting in record-breaking enrollments and the eventual opening of the first South Campus, a facility in southern Granville County.

VGCC reactivated its Endowment Fund Corporation in 1982 to seek contributions from the community for its scholarship program and other support for the college. The fund at that time held approximately \$15,000, but since then has received gifts of more than \$6 million. Over 6,500 students have received scholarships through the Endowment Fund in recognition of their academic achievement.

In 1984, the College reached another plateau in its physical growth plan when it received \$1.1 million in construction funds from the General Assembly. These funds supported a new Student Admissions/Skills Training Center, built in 1985 on the Main Campus; a new, permanent South Campus complex in Granville County; and a new campus in Warren County. Both campuses were completed in 1988.

With the opening of new entrance and exit ramps off Interstate 85 in 1988, improved access to the Main Campus resulted in bringing the College closer to its students as well as enhancing its visibility.

VGCC met still another long-range goal in 1989 with the construction of a \$2 million Small Business/Civic Center on the Main Campus.

Significant growth in the 1980s underscored VGCC's ongoing efforts in the 1990s to serve area citizens with new and improved educational op-

continued...

portunities that included the opening of a new campus in Franklin County in 1991.

The year 1993 brought more good news for the College's growth plans, as North Carolina voters passed a \$200 million Community College Bond Referendum. VGCC's share of the monies, \$4.2 million, was earmarked for a variety of construction and renovation projects. Part of the funds supported the construction of a new classroom/day care building, completed in the summer of 1996 on Main Campus. Other funds helped with construction, renovation and expansion needs at the other three campuses.

In 2000, growth plans received a significant boost as North Carolina voters passed a Higher Education Facilities bond referendum, from which VGCC received \$17.1 million over a six-year period for new construction and renovations at all four campuses. The first money from these funds was used for the construction of a new three-story Technology, Occupational Extension and Basic Skills building, completed on VGCC's main campus in September 2003. The largest of all the College's facilities, the structure houses technology systems and labs for a number of programs, as well as classes for Public Services, the Small Business Center, Occupational Extension and Basic Skills. The Student Services Building was also expanded to provide better service to students and to provide space for a lab for the Bioprocess Technology program, which began in Fall Semester 2005.

This expansion of Vance-Granville's total physical plant and equipment has helped accommodate a larger student enrollment. During 2010-2011, the College served more than 16,000 curriculum and extension students. Consistent with the structural and enrollment growth of the College has been its increase in curriculum program offerings. Since 1997, several new areas of study – focusing mainly on technology and health-related subjects – have been added to its curricula. Meanwhile, the College has expanded both its use of technology to deliver “distance education” and partnerships that allow high school students to earn college credits. Between 2008 and 2010, VGCC opened four Early College high schools - one at each VGCC campus - in partnership with local public school systems.

CAMPUSES

The Main Campus of Vance-Granville Community College is located midway between Oxford and Henderson on an 83-acre tract of land off Interstate 85. The Main Campus consists of nine buildings, including a Civic Center, totaling 249,320 square feet.

The College also offers classes at three other campuses in the four-county service area: South Campus, between Butner and Creedmoor in southern Granville County; Warren County Campus, in downtown Warrenton; and Franklin County Campus, west of Louisburg.

Since their formal dedication in the fall of 1988, both South Campus and Warren County Campus have been renovated, enlarged and improved to accommodate a growing number of students.

South Campus consists of one building of 49,175 square feet, including a major two-story addition completed in January 2007.

Warren County Campus today includes four buildings totaling 29,505 square feet, the most recent addition being a classroom building that opened in January 2005.

continued...

Franklin County Campus, which first opened its doors to students in 1991, shared space in a local government building before moving in 1998 to its permanent new home outside Louisburg. The campus added two structures in 2001: the Biotechnology Lab/classroom building and a multipurpose facility. The completion of a two-story building in 2006 gave the campus five buildings, totaling 62,639 square feet.

CORE VALUES

- We value exemplary teaching and effective learning.
- We value our students, hold high expectations for them and are committed to helping them achieve their goals.
- We value access and opportunity while maintaining quality.
- We value honesty, integrity, excellence and the worth and dignity of all people.
- We value community partnerships.
- We value open communication at all levels.
- We value continuous growth and improvement for personal and professional development.
- We value the earth and the conservation of its resources.

VISION

Vance-Granville Community College is a leader in educational services that support the local economy by preparing a globally competitive workforce and developing students' academic and life skills.

MISSION

The mission of Vance-Granville Community College is to provide excellent, outcomes-based education and training programs that promote and sustain the global competitiveness and the intellectual, economic, social and cultural development of our students and communities.

GOALS

1. Maximize *student success* in courses, programs, graduation and the workforce, insuring that graduates are proficient in communication skills, technological skills, critical thinking, quantitative reasoning, global and cultural awareness, and occupational skills.
2. Promote excellence and innovation in teaching and educational programs designed to help students, faculty and staff achieve personal, academic and career goals.

continued...

3. Promote and support economic development through strong academic, technical, workforce development, and training programs that meet business/industry needs.
4. Develop and maintain partnerships with community groups, local schools, and higher education.
5. Ensure fiscal and academic accountability through an effective planning process.
6. Build and maintain safe, secure and sustainable facilities that support the mission of the college.

OPEN DOOR PHILOSOPHY

Vance-Granville Community College, through its open door philosophy, is committed to serving all individuals who seek knowledge or new skills to improve their quality of life. This open door philosophy was described by W. Dallas Herring, the “father” of the North Carolina Community College System, in 1964.

The only valid philosophy for North Carolina is the philosophy of total education, a belief in the incomparable worth of all human beings, whose claims upon the state are equal before the law and equal before the bar of public opinion; whose talents (however great or however limited or however different from the traditional), the State needs and must develop to the fullest possible degree. That is why the doors to the institutions in North Carolina’s System of Community Colleges must never be closed to anyone of suitable age who can learn what they teach. We must take the people where they are and carry them as far as they can go within the assigned function of the system. If they cannot read, then we will simply teach them to read and make them proud of their achievement. If they did not finish high school but have a mind to do it, then we will offer them a high school education at a time and in a place convenient to them and at a price within their reach. If their talent is technical or vocational, then we will simply offer them instruction, whatever the field, however complex or however simple, that will provide them with the knowledge and the skill they can sell in the marketplaces of our State, and thereby contribute to its scientific and industrial growth. If their needs are in the great tradition of liberal education, then we will simply provide them the instruction, extending through two years of standard college work, which will enable them to go to the University or to senior college and on into life in numbers unheard of before in North Carolina. If their needs are for cultural advancement, intellectual growth or civic understanding, then we will simply make available to them the wisdom of the ages and the enlightenment of our times and help them to maturity.

-W.D. Herring, 1964

Performance Measures and Standards

Since 1999, the North Carolina Board of Community Colleges has adopted performance measures for accountability. The list of performance measures focuses primarily on student success and serves as one of the college’s accountability tools.

Each performance measure includes a description, the standard that must be achieved, and the college’s performance for that measure. The information listed is the most recent data available. It is updated as soon as new information is received. Additional information on performance measures and other accountability factors are available in Vance-Granville Community College’s Office of Planning and Research.

NCCCS PERFORMANCE MEASURES 2009-2010

Performance Measures	Performance Standard	System Average	VGCC Achievement
A-*Progress of Basic Skills Students	75%	81%	78%
B-*Aggregate Institutional passing rate:	80%	86%	87%
Passing Rates on Licensure & Certification Examinations: Two Standards must be met for this measure:

VISITORS

Visitors are always welcome at Vance-Granville Community College. Members of the Counseling Services Division or campus deans will conduct campus tours for individuals or groups as desired. Please call the Director of Counseling for an appointment.

Inquiries about the College and its programs should be directed to the Vice President of Student Affairs or the Vice President of Community and Economic Development.

Visitors are not permitted to attend classes or contact students on campus without permission from the Vice President of Student Affairs, or the campus deans at the Franklin, South, and Warren county campuses.

PUBLIC COMPLAINT PROCEDURES

Members of the public may register complaints by forwarding a signed, written statement to the Office of the President, Vance-Granville Community College, PO Box 917, Henderson, North Carolina 27536. Vance-Granville Community College will consider complaints that are in writing.

continued...

However, complaints that are anonymous, or sent electronically or through facsimile transmission may not be considered. The President, or the President's designee, shall investigate the complaint. The investigating individual may require further information from the complainant and may seek information from appropriate college offices, as needed, to respond to the complaint. The investigating individual, if not the President, shall make a written report to the President of his/her findings, and the President shall respond to the complaint. A log of all written complaints along with all materials and reports shall be maintained on file in the Office of the President for an indefinite period of time.

DISCLOSURE AND CONSUMER INFORMATION

The Higher Education Opportunity Act of 2008 (HEOA) contains numerous federal reporting and disclosure requirements for information from various administrative areas of higher education institutions. In order to make this information readily available, Vance-Granville Community College has created an information page on our Website which is designed to provide quick access to this data. Questions may be directed to the Vice President of Student Affairs. The information can be found at www.vgcc.edu.

EMERGENCY INFORMATION

If an emergency arises, students should inform the nearest college employee. First aid equipment is located in key locations and shops throughout the Main Campus and satellite campuses. When an emergency exists that requires treatment beyond simple first aid, the nearest rescue unit will be notified. All emergency cases will be referred to the nearest hospital for treatment. Any expense for medical assistance will be the responsibility of the injured individual and his/her family.

The right to call for outside medical assistance in medical emergencies will be left to the judgment of the College staff member present at the scene of the emergency.

ID CARDS

All students enrolled in curriculum classes will be issued ID cards at the beginning of his or her initial enrollment. A semester validation sticker will be required each additional semester.

Curriculum students should have their valid student ID at all times while on campus and be able to provide their ID when requested by VGCC staff or security personnel. There is a replacement cost to reissue lost or damaged ID cards.

INCLEMENT WEATHER

Should it appear that adverse weather or other factors would necessitate closing of Vance-Granville Community College, the President, or his representative, shall make the final decision. Classes missed as the result of the closing of the College due to adverse weather or other factors shall be made up using a method to be determined by the President of the College.

Notice of the College closing will be made on local television and radio stations and on a taped message at (252) 492-2061 and on the VGCC web page at www.vgcc.edu.

PHOTO USAGE STATEMENT

Vance-Granville Community College reserves the right to make photographs, video, motion pictures, and electronic images of students and others on the college's campuses and to use those images for news, marketing/advertising and promotional purposes.

All photographs are the exclusive property of Vance-Granville Community College and may be edited. Images may also be shared with the North Carolina Community College System Office and others. Objection to the use of an individual's image in the manner stated above must be made in writing to the Director of Marketing.

**ADMISSIONS,
REGISTRATION
& RECORDS**

Vance-Granville Community College maintains an “open door” admissions policy. Placement of students in certain academic curriculum programs of instruction is selective and all students are required to be high school or GED graduates. The College serves all individuals who can benefit from instruction, regardless of race, creed, sex, age, religion, national origin, disability or other non-relevant factors.

Admission to a specific program of study is based upon guidelines developed to help the student determine his/her chances of success in that career field. Before the student is admitted to any curriculum degree, diploma, or certificate program, placement testing and academic advising are required. Students who are uncertain about a program of study are referred to the Career Center for assistance. When placement test scores or other evidence indicate a lack of readiness to pursue a specific curriculum, the student will be placed in developmental courses or may be encouraged to reevaluate occupational and/or educational goals.

Students entering all programs are required to be high school or GED graduates. Exceptions to this rule require review by the appropriate department and division dean with a recommendation for approval/disapproval to the Vice President of Instruction.

General Admissions Procedures

1. Submit a completed admissions application.
2. Submit official transcripts of secondary education (high school).
Students entering a program of study have up to one semester of attendance to submit their official secondary transcript. No financial aid will be awarded until all admissions requirements are met, including receipt of all secondary education transcripts.
3. Submit official post-secondary (college) transcripts if:
 - a. You desire to have your post-secondary transcript(s) evaluated for possible transfer credit. (See Transfer Admissions, page 21);
 - b. You plan to use Veteran's Educational benefits. The Veteran's Administration requires that an official copy of all post-secondary transcripts be on file with the College;
 - c. You are seeking admission into one of the selective Health Science Programs;
 - d. You plan to participate in Athletics at the College.
4. Students who have graduated from institutions outside the United States must document completion of a nationally recognized secondary school diploma.
5. Take placement test unless exempt by college credit or standardized test scores. (See page 25).
6. Document NC State residency if requested by the Admissions Office.

The College reserves the right to evaluate special cases and to refuse admission to applicants when considered advisable in the best interest of the applicant and the College.

Note: *Students who have an associate degree or higher from an accredited college or university are not required to submit high school transcripts. An official College or University transcript is required to document the degree earned. (Exception: Students entering Health Sciences programs, students who plan to use Veteran's Educational benefits, and students who plan to participate in Athletics at the College must submit high school transcripts.)*

continued...

Selective Admissions

Selective admissions are used for programs of study that have limited openings. In addition to the standard procedures required of all applicants, students seeking enrollment in Associate Degree Nursing, Basic Law Enforcement Training (BLET), Cosmetology Instructor, Medical Assisting, Pharmacy Technology, Practical Nursing, and Radiography must meet specific departmental requirements. For selection to specific programs of study, students should direct inquiries to the Admissions/Records Office.

Selective Admissions Procedures

1. Applicants must qualify on placement examinations as prescribed by the program of study.
2. Applicants must meet secondary school or post-secondary course requirements as established for specific programs of study.
3. After all admissions requirements have been met by the applicant, official admission is contingent upon proof of satisfactory physical health as required by regulatory agencies.
4. Final selection will be determined by the number of openings in the program of study and by the applicant's evaluation and ranking.
5. Successful clinical placement requires a "clean" criminal background check conducted and reviewed by the clinical site.

Transfer Admissions

The student who has successfully completed courses at other post-secondary institutions must adhere to the same procedures as an incoming freshman. The student is responsible for submitting an application for admission and official transcripts of all previous educational experience. (An official transcript is one that is mailed directly from the previous high school, college or university to Vance-Granville Community College, or is submitted by the applicant in an officially sealed envelope from the educational institution.)

Upon receipt, all official transcripts from accredited, post-secondary institutions will be evaluated by the Registrar in accordance with the following statements:

1. Transfer credit may not exceed 75 percent of the total credit hours required to complete the desired program of study.
2. All credit to be transferred must be equivalent to course offerings in the applicant's chosen major or program of study as stated on the Application for Admission.
3. No grade lower than a "C" will be transferred.
4. Eligible college credit which was completed over 10 years prior to the semester in which the student is admitted to VGCC will not be transferable unless the applicant has completed that coursework as part of a completed associate degree or higher. Additionally, applicants to the selective admissions Health Science programs must have completed BIO-prefix classes within **10 years** prior to the most recent application to the College, and NUR-prefix classes within three years to be considered transferable. Finally, the transferability of all computer information systems or any software-related coursework is subject to approval by the Academic Dean due to the rapid technological changes in this area of study.
5. Transfer credit will not influence the student's quality point average or grade point average, and will not be evaluated in graduation honors or awards. Transfer credit is recorded on the VGCC transcript with a grade of "TR."

continued...

6. Students with questions regarding transfer credit should contact the Registrar. Students have a right to appeal transfer credit decisions to the appropriate Academic Dean by submitting a transfer credit appeal request form to the Registrar's office.

Readmission Procedures

A student who previously attended VGCC but was not enrolled during the previous three years must submit a new application for admission to the Admissions/Records Office. If the applicant was enrolled in another college during the interval, he/she must request that college to send an official transcript to the Admissions/Records Office.

A former student will not be readmitted until all former and current indebted obligations to any program or activity under the administrative jurisdiction of the College have been satisfied.

Students seeking readmission into Health Sciences programs must meet additional requirements. Students may contact a counselor for details concerning these requirements.

ADMISSIONS UNDER SPECIAL CONDITIONS

Admission of Undocumented Aliens: As of July 2010, undocumented immigrant students are admissible to North Carolina Community Colleges with the following limitations: 1) Community Colleges shall only admit an undocumented immigrant if he or she attended and graduated from a United States public high school, private high school or home school that operates in compliance with State or local law. 2) Any undocumented immigrant student is required to pay the out-of-state tuition rate regardless of the number of years he or she has resided in the state. 3) Additionally, undocumented immigrant students are not permitted to have registration priority over students who are lawfully present in the United States. Consequently, undocumented immigrant students are not permitted to register until the conclusion of the last published registration period.

In order to comply with these regulations, undocumented immigrant students should follow the same admission and residency classification procedures as all other students, but will not be allowed to register for classes through WebAdvisor or during any early registration period. Instead all students classified as undocumented immigrants should bring their completed registration forms to the Registrar to be held until the end of registration. After the close of registration, undocumented immigrant students will be registered into any available classes. This procedure is in keeping with the North Carolina Administrative Code 23 NCAC 02C.0301.

Special Credit Students: Students not seeking a certificate, diploma, or associate degree may enroll as a special credit student for a maximum of twelve (12) semester hours of credit. Students enrolled in this status are not required to take the placement test for enrollment into curriculum courses that do not have prerequisites and do not have to meet the transcript requirements for curriculum programs. Special students must take the placement test in order to enroll into courses which have prerequisite requirements.

Students classified as "special credit students" are ineligible to receive most types of financial aid. Students who plan to take more than twelve (12) semester hours of credit must take the placement test, complete the regular admission requirements, and declare an academic program of study.

continued...

Career and College Promise (CCP): Career and College Promise Programs offer structured opportunities for qualified high school students to pursue one of three pathways. A brief description of each pathway is listed below. For more detailed information and application procedures please visit the Early College High School Students website at <http://www.vgcc.edu/EarlyCollege/index.cfm> or the High School Students website at <http://www.vgcc.edu/HighSchoolStudents/index.cfm>.

1. **Core 44 College Transfer (CT) Pathway.** The Core 44 College Transfer Pathway is designed for high school juniors and seniors who wish to begin the pathway towards a baccalaureate degree. Students can choose one of four areas of study in which they can pursue general education courses that can transfer to a North Carolina public university upon the student's acceptance. These courses may also count as high school credit at the discretion of the high school administration.

2. **Career Technical Education (CTE) Pathway.** The Career Technical Education Pathway is designed for high school juniors and seniors who wish to begin the pathway towards completion of a credential prior to graduating high school. Students can choose one of many approved areas of study in which they can pursue courses that can lead to certification or licensure, and increased employment opportunities. These courses may also count as high school credit at the discretion of the high school administration.

3. **Cooperative Innovative High School Program.** VGCC Cooperative Innovative High School Programs take the form of Early College High Schools and are located on the college's campuses. Students enrolled in these programs can concurrently obtain a high school diploma and begin or complete an associate degree program or earn up to two years of college credit within five years. The application process to apply to one of these schools begins in middle school and is conducted by the Local Education Authority (LEA). To obtain additional information about our early college high school partnerships please visit our website. Application information and procedures can be obtained through your servicing LEA.

INTERNATIONAL STUDENT ADMISSIONS

International students are admitted in accordance with federal US Immigration and Customs Enforcement (USICE) regulations that govern non-immigrant student visa (F-1) status. Vance-Granville Community College is authorized by the USCIS to issue I-20 Forms to qualified international applicants for associate degree programs. In summary, before being admitted, an international student must:

1. Submit an Application for Admission with the applicant's original signature;
2. Present official TOEFL, SAT or ACT scores that document academic English ability, or acceptable scores in English, Reading and Mathematics on the college placement test battery. (This option is only available to international applicants who are already in the U.S. on another valid non-immigrant visa type);
3. Submit official secondary and/or high school and college or university transcripts (if applicable). Transcripts must be submitted with the application for admission in sealed envelopes or mailed directly to VGCC from the overseas institution, and must be translated to English if necessary;

continued...

4. Submit an Affidavit of Support completed by the applicant's sponsor and accompanied by an original bank letter or statement that certifies the availability of sufficient funds to cover all expenses, food, housing, and transportation.
5. Submit a one semester tuition deposit (approximately \$3,500 to \$4,000.)

All admissions requirements must be met before the College can issue an I-20 Form to an international applicant.

International students are considered out-of-state for tuition purposes as long as they hold a non-immigrant visa, and are not eligible for state or federal financial aid. International students are required to study on a full-time basis (at least 12 hours) every fall and spring semester, and are not eligible for employment except under limited circumstances. All necessary forms and additional details regarding the application process for international applicants are available on the VGCC web site at: www.vgcc.edu/Admissions/international-students.cfm.

STUDENT ASSESSMENT AND PLACEMENT TESTING

The purpose of placement testing is to match the academic readiness of the incoming student with the academic requirements of the curriculum. Any new applicant to a certificate, diploma, or degree program is required to take a placement test prior to the initial registration. Special credit students may be exempt from placement testing in some instances based on exemptions listed on page 22, *Admissions under Special Conditions*. A returning student who has not been at VGCC during the past five calendar years and who has not successfully completed any General Education course numbered 111 or higher must retake the placement test and enroll in courses as indicated by his or her scores.

Placement scores will be used for the purpose of academic advising and appropriate course placement, including remediation if needed, as indicated by the placement test results. Prior preparation is strongly advised before taking the placement test. Study guides are available in Student Affairs at the main campus, at each satellite campus, and online at <http://www.vgcc.edu/TestingCenter/testing-studyguides.cfm>. Students who lack basic academic skills necessary to be successful in college course work as indicated by the results of the placement test will be given an opportunity to remediate academic deficiencies through developmental courses. Students who place at the Adult Basic Skills level in reading and/or writing will not be allowed to enroll in any curriculum program, including developmental courses until additional assessment and remediation has been completed.

Students may test and retest once prior to the semester in which they are enrolling. Retesting must be scheduled prior to the first day of the semester. The higher score will be used for placement. There is a minimum wait of ten days between the first and second administration of the test to ensure time for review.

Students who have not enrolled in a developmental English, reading, or math class within twelve months of testing may test and retest prior to the semester in which they are enrolling. The most recent scores (or the higher of the most recent test-retest scores) will be used for placement. Any additional testing beyond the initial test-retest will require special approval from the Dean of Student Learning and Success and/or the Vice President of Instruction. Placement test scores are valid for five years.

Once a student has enrolled in developmental classes, retesting will only be allowed during the drop/add period of the term. Diagnostic test may be administered by the instructor to ensure correct placement. If scores

continued...

on the diagnostic tests are sufficient to warrant retesting, then eligible candidates will be referred to Student Affairs for retesting using the College's official placement test. Students scoring high enough on the College placement test will be given an opportunity to advance to an appropriate course depending upon meeting patterns and availability. (*Effective: 01/01/12*)

WAIVER OF PLACEMENT TESTING

The placement test may be waived under the following circumstances:

1. Transfer students who have successfully completed transferable college or university-level courses in English and/or mathematics from an accredited post-secondary institution.
2. Applicants who met the cut-off scores listed below on the following placement tests:

Test	ASSET	COMPASS	ACT	SAT
English	41	70	18	500
Reading	41	81	21	500
Mathematics	41-Num Skills 41-Inter Alg	47-PreAlg 66-Alg	22	500

3. Applicants who have taken placement tests within five years at another NC Community College may transfer those scores to VGCC.

TESTING SCHEDULE

The placement test is periodically scheduled throughout each academic term. Testing sessions are scheduled at all campuses during a variety of times to accommodate students. Students are scheduled for placement testing once their Application for Admission is received by the College. Applicants who may need special accommodations should contact the Director of Counseling prior to their scheduled test date.

Note: *Applicants should not bring children to testing sessions.*

RESIDENCE STATUS FOR TUITION PURPOSES

The tuition charge for persons who have been legal residents of North Carolina for at least 12 months is less than for non-residents. G.S.116-143.1 of N.C. State Statutes covers the requirements for determining resident status for tuition purposes. A portion of G.S.116-143.1 is quoted as follows:

To qualify as a resident for tuition purposes, a person must have established legal residence (domicile) in North Carolina and maintained that legal residence for at least 12 months immediately prior to his/her classification as a resident for tuition purposes. Every applicant for admission shall be required to make a statement as to his/her length of residence in the State. To be eligible for classification as a resident for tuition purposes, a person must establish that his/her presence in the State currently is, and during the requisite 12-month qualifying period was, for purposes of maintaining a bona fide domicile rather than of maintaining a mere temporary residence or abode incident to enrollment in an institution of higher education.

An individual shall not be classified as a resident for tuition purposes "... until he or she has provided such evidence related to legal residence and its duration as may be required by officials of the institution..."

Information relating to claimed North Carolina residence for tuition purposes shall be required from all applicants claiming to be North Caro-

continued...

lina residents, and a determination shall be made by the Registrar as to whether or not the applicant qualifies for in-state tuition rates. Should the ruling be contrary to the applicant's expectation, it may be appealed to the Student Affairs Committee of the College. Should the Student Affairs Committee's ruling be contrary to the applicant's expectation, it may be appealed to the State Residence Committee. In the event that an appeal is deemed necessary, full information on procedures shall be provided by the Vice President of Student Affairs.

The burden of establishing facts that justify classification of a student as a resident entitled to in-state tuition rates is on the applicant for such classification.

Decisions by the College will be based on the requirements of the General Statutes of North Carolina and regulations specified in "A Manual to Assist the Public Higher Education Institutions of North Carolina in the Matter of Student Residence Classification for Tuition Purposes." Applicants with questions not covered by this section should contact the Registrar.

REGISTRATION

Registration is the process of enrolling in a schedule of courses or a program at the beginning of each term or at other specified times. Enrollment in a course is determined by proper registration and subsequent payment for that course.

New Students

For registration purposes, "new students" are defined as those students who are enrolling at VGCC for the first time. New students should:

1. Complete an Application for Admission and apply for financial aid as early as possible (2 to 3 months before the start of classes);
2. Attend orientation;
3. Schedule an appointment to meet with their academic advisor;
4. Register on the designated registration dates;
5. Obtain a student I.D. and parking permit; and
6. Complete the registration process by paying tuition and fees.

Returning Students

For registration purposes "returning students" are defined as those students who are currently enrolled or who have been previously enrolled during the last year in the same academic program. Returning students may be eligible for priority registration and are encouraged to preregister with their academic advisor for the following term as soon as notification is given. Returning students need to follow steps 3 through 6 listed above (under New Students section.) Students must reapply for financial aid every year by March or April to ensure that funding is in place in time for registration.

Change of Academic Program

There are times when a student's aptitude and interests may be better served by a change of major. A student who is considering a change from one program to another must meet with a member of the Counseling Services staff to explore the possibilities and implications of such a change, and complete a Student Reapplication Update form. Students should consider carefully before changing their academic program, and are discouraged from changing more than once per year.

Students who change their academic program will have their transcript(s) re-evaluated for possible transfer credit. Previously granted

continued...

transfer credit from other colleges or universities may be revised as a result of a change of academic program.

Veterans should consult with the Veterans' Officer before making a change; the Department of Veterans Affairs will not pay for some types of training.

Note: Federal financial aid regulations require that all hours taken in all majors will be counted toward the maximum allowed for payment. (See Financial Information, beginning on page 43, for a complete explanation.)

Readmission of Students

A student who previously attended Vance-Granville Community College but was not enrolled during the previous three years must reactivate an application with the Admissions/Records Office. If the applicant was enrolled in another college during the interval, he/she must request that college to send an official transcript of academic work to the Admissions/Records Office. Students need to complete a new application for admission and follow steps 3 through 6 listed on page 26 (under New Students section).

Drop and Add

Courses may be added during the registration dates and published drop/add dates at the beginning of each term. To add or drop classes, a student must follow the steps below or complete the procedure through WebAdvisor:

1. Obtain a Change of Registration (Drop/Add) form from the Admissions/Records Office or satellite campus office and fill it out completely;
2. Have academic advisor or counselor approve the change and sign the form;
3. Sign the form and return it to the Admissions/Records Office or satellite campus office for updating registration;
4. If adding, take the form to the Business Office/Cashier for tuition payment, or pay through WebAdvisor.
5. If adding, attend next scheduled class meeting. Due to varied departmental attendance requirements, classes missed prior to registration may count as absences.

Note: Adding or dropping a class may affect the financial aid award.

Request for WP Grade after the 75% Point

A student can petition in writing for a WP Grade to the Vice President of Student Affairs after the 75-percent point of a term, if mitigating circumstances warrant. Approval can only be granted with permission of the instructor, academic dean, Vice President of Instruction and Vice President of Student Affairs. The burden of explanation and documentation of mitigating circumstances lies with the student. Students should obtain "WP" forms from the Vice President of Student Affairs or Campus Deans.

Class Cancellation Policy

Vance-Granville Community College reserves the right to cancel any class due to low registration and/or attendance.

Drop and Withdrawal from a Course(s)

Official withdrawal from a course(s) is permissible at any point during the term with certain restrictions. No grade will be recorded for dropping

continued...

a class during the refund period of each term (see note below). Official withdrawals after the refund period of the term and on or before the 75-percent point of the term will be recorded as a "WP" grade if the student initiates and properly completes the official withdrawal process. If the student stops attending without officially withdrawing from a course before or after the 75-percent point of the term, the student may receive a "WF" grade for the course. After the 75-percent point in the term, a "WF" grade may be assigned by the instructor for excessive absences or a student may elect to receive a "WF" grade prior to the beginning of the exam period.

There is no academic penalty for a "WP" or "WF" grade; however, for federal financial aid purposes, the course(s) given "WP" and "WF" grades may count as hours attempted but not earned. Any student who is receiving Veterans' benefits needs to check with the Veterans' Officer prior to withdrawing from any course since benefits will not be paid for a "WP" or "WF" grade.

Note #1: *Curriculum students who officially withdraw from the College prior to the first day of the semester are eligible for a 100-percent refund of tuition. Students who withdraw after the beginning of the term but by the 10-percent point are eligible for a 75-percent refund.*

Note #2: *Students are advised that all signatures required to complete a Change of Registration form must be obtained by the student. Students must realize that instructors are not available at all times and gathering signatures on the final day of the withdrawal process may not be possible. Deadlines are enforced.*

Auditing Courses

A student may elect to audit a course or courses by checking the appropriate column on the Registration form. This option may only be selected during the official registration or drop/add period of each term. Those students who audit receive no credit and do not have to take any examinations; otherwise, participation in class is on the same basis as a credit student. The fee for auditing is the same as the fee for credit.

Note: *No federal or state financial aid or veterans' benefits are payable for audit courses.*

Collection of Social Security Numbers

Vance-Granville Community College is legally authorized to collect student social security numbers in order to comply with certain federal and state reporting requirements, and to meet the business imperatives of the College. Effective fall semester 2007, the college no longer uses student social security numbers as the primary method for student identification, but rather uses a unique computer generated ID number. Questions concerning the use of social security numbers should be directed to the Vice President of Student Affairs or the Registrar.

Course Load

A student's normal load will be from 12 to 16 credit hours per term. Students enrolled for 12 or more credit hours will be considered full-time students. Students who wish to carry credit hour loads of more than 21 hours per term must obtain the written approval of their academic advisor and academic Dean.

Course Substitution

Under extenuating circumstances, a student may apply to his/her advisor for approval of a course substitution. A course substitution requires final approval by the appropriate academic Dean and the Vice President

continued...

of Instruction, and the completed Course Substitution form must be on file in the Registrar's office. A student in technical or vocational programs may take higher level courses than those required for graduation in his/her curriculum in the following areas: math, English, humanities, science, or social sciences, if prerequisites have been met.

Release of Information

Written approval of the student is required before a transcript or any information from his/her official record may be released. Exceptions to the above include:

1. The Admissions/Records Office may release information from official records to faculty and staff members of Vance-Granville Community College whose responsibilities require this information.
2. The Admissions/Records Office may honor appropriate requests for directory-type information from student records. VGCC defines the following as directory:
 - Name
 - Address
 - Dates of Enrollment
 - Participation in sanctioned campus activities or athletics
 - Program of Study
 - Degrees and awards received
 - E-mail addresses
3. The Solomon Amendment requires by federal law that the college release the following information, in addition to directory information, to military recruiters when requested:
 - Date of Birth
 - Telephone Number

Each student has the right to inspect or review the educational records maintained by the college that are directly related to that student. Educational records include admission documents, registration documents, grades, and other supporting documents maintained by the College. Educational records also include tests, assignments, and grade calculations maintained by faculty.

All requests to inspect and review educational records shall be made by the student in writing to the Registrar with the exception of requests for tests, assignments, and grade calculations for specific courses. Those requests shall be made to the appropriate academic or campus dean. The college will comply within a reasonable time period not to exceed forty-five days after the request is made. It should be noted that some records such as tests, assignments, and grade calculations maintained by the faculty are only kept for a limited time and are not maintained permanently. Students may also request in writing to the Registrar to amend their educational record if they feel the record is in error. Such request will be reviewed by the Registrar and Vice President of Student Affairs, who will render a decision.

Students may file a written complaint with the Family Policy Compliance Office regarding an alleged violation by the College to comply with requirements of FERPA. The Office's address is Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave., S.W., Washington, DC 20202.

Release of Information: Family Educational Rights & Privacy Act (FERPA)

Vance-Granville Community College, in compliance with the Family Educational Rights and Privacy Act of 1974, releases no personal, identifiable information about students without the written approval from the student. Exceptions to this practice are those types of information defined by law as "directory information."

continued...

The directory information may be published or made available without the consent of the student. However, any student not wishing any of these types of information released may request in writing to the Vice President of Student Affairs that it not be released.

Student Records

An official record of all the student's courses, credits, grades, official transcripts, and other relevant documentation is kept in the Admissions/Records Office. Each student should maintain a record of courses, credits, and grades each term and periodically check to see that his/her records agree with that of the College.

Transcript Request

When an official request is made by the student in writing or through WebAdvisor, transcripts of the student's record will be sent to other colleges, universities, employers, and to the student. A Transcript Request form should be submitted to the Admissions/Records Office a minimum of three business days prior to the time a student wants his/her transcript mailed. *A fee of \$5.00 will be charged for each official transcript requested by the student.*

In order to assure that transcripts will not be mailed until a student has discharged all obligations to the College, the student must complete a Transcript Request form (available in the Admissions/Records Office or at <http://www.vgcc.edu/Registration-Records/Forms/transcript-request.pdf>). Transcripts received by VGCC from other secondary or post-secondary institutions cannot be released to the student.

**ACADEMIC
INFORMATION**

DEGREES, DIPLOMAS, AND CERTIFICATES

The College offers the following degrees, diplomas or certificates for students who successfully complete approved programs of instruction:

1. The Associate in Arts and Associate in Science degrees are awarded to students majoring in college transfer programs and who may plan to transfer to four-year colleges or universities after completing their community college program.
2. The Associate in Applied Science Degree is awarded to students majoring in one of the technical curricula and who plan to obtain full-time employment upon graduation from the College.
3. The Associate in General Education Degree is awarded to students majoring in courses designed for personal growth and development leading to variable employment opportunities.
4. A Diploma is awarded to students who complete the minimum of 36 credit hours.
5. A Certificate is awarded to students who complete approved programs less than one year in length with a minimum of 12 credit hours. Certificates are only awarded from core, major, or elective courses offered in the diploma or AAS programs.

STUDENT CLASSIFICATION

FRESHMAN: A student who has earned fewer than 36 semester hours of credit.

SOPHOMORE: A student who has earned 36 or more semester hours of credit.

FULL-TIME OR REGULAR STUDENT: A student who is registered for 12 or more credit hours.

PART-TIME STUDENT: A student who is taking fewer than 12 credit hours.

SPECIAL CREDIT STUDENT: A student who is not seeking a degree or who is auditing a course and has earned fewer than 12 credit hours.

ADVANCED PLACEMENT

Advanced placement is offered to students who, because of their demonstrated abilities, are qualified to accelerate their studies. Advanced credit may be awarded in the following ways:

1. Credit by Examination (see following section for details);
2. Successful completion of the general or subject examination of the College Level Examination Program (CLEP);
3. Successful completion of Advanced Placement Exam as administered by the College Entrance Examination Board (CEEB);
4. Successful completion of subject standardized tests (DSST) of the Defense Activity for Nontraditional Education Support (DANTES); and
5. Transfer credit from accredited, post-secondary institutions as outlined in the Admissions section. In cases of all standardized examinations, official score reports must be submitted to the Registrar for evaluation of possible transfer credit.

continued...

CREDIT BY EXAMINATION

Regularly enrolled students who have reason to believe that previous educational studies, training programs, or work experiences may entitle them to course credit may request credit by examination.

They must first register and pay the standard tuition fee per credit hour for the course and then notify the instructor during the first class meeting that they wish to challenge the course.

The examination will be administered by the appropriate department and successful completion will result in a grade of "CE." The credit hours of the class will count toward graduation. Please note that most colleges do not accept a "CE" grade as transfer credit.

The Credit by Examination form may be obtained from the office of the Registrar.

Note: No federal financial aid or veterans' benefits are payable for Credit by Examination (CE) courses.

The College does not award credit for experiential learning or CEU's.

CONTACT HOURS AND CREDIT HOURS*

***Semester credit hours are awarded for classes as follows:**

Classroom:.....16 contact hours = 1 semester hour of credit
Laboratory:.....32 or 48 contact hours = 1 semester hour of credit
Clinical:.....48 contact hours = 1 semester hour of credit
Cooperative Work Experience:..160 contact hours = 1 semester hour of credit

* Students should review specific courses in the course description section of this catalog to determine the exact hours of each course as assigned by the NC Community College System and described in the North Carolina Administrative Code 23 NCAC 1A.0101.

PREREQUISITES

Prerequisites are required for many courses offered at Vance-Granville Community College. These are intended to give the student some measure of the proficiency expected for those beginning a given course. The student, with assistance from his or her academic advisor, is responsible for checking prerequisites at the time of registration. Students failing to meet the required prerequisite(s) for a course(s) may be dropped or withdrawn at any time the deficiency is discovered. Under certain circumstances, local prerequisites or co-requisites may be waived by submitting a *Request to Waive Prerequisite and Co-requisite* form to the instructor of the class in question. Approval is also required from the appropriate academic program/department head and academic dean.

ACADEMIC ADVISING

Academic advising assists students in the planning and development of their educational and career goals.

Courses selected by students must be approved by their advisor prior to registration. The advisor or instructor must also approve all registration changes, such as dropping and adding courses.

Students are encouraged to meet with their advisor throughout each term and discuss their academic progress. Although advisors are available to assist students in a variety of ways, the final responsibility for meeting all academic requirements for graduation rests with the students.

continued...

ATTENDANCE POLICY

Students are expected to attend all classes, laboratories, clinical, and shop sessions to attain the student learning outcomes of the courses for which they are registered. Attendance is counted from the first scheduled day of class. Although special circumstances may cause a student to be absent occasionally, regular attendance is essential to the learning process.

To receive credit for a course, the student must meet at least eighty-five percent (85%) of class hours and at least eighty-five percent (85%) of lab, clinical, and/or shop hours. When a student's absences total more than fifteen percent (15%) of the total contact hours for a course, the student must be administratively withdrawn from the class. When a student is withdrawn from a class for excessive absences, a "WF" grade will be awarded to the student. Individual programs and instructors may have more stringent attendance policies, and in this case, the program/course policy shall be followed.

The attendance policy for each course is published by the instructor on the course syllabus. (For courses designated as having an online component, the definitions of "attendance" and "absence" should be set forth clearly by the instructor in the syllabus.) It is the student's responsibility to read and abide by the policies outlined in the syllabus for each course in which he or she is enrolled. Students are responsible for all material (lecture notes, assignments, etc.) missed when absences are taken. The availability of make-up tests or other graded assignments is at the discretion of the instructor. All extenuating circumstances must be approved by Academic Dean and/or VP of Instruction.

GRADING SYSTEM AND QUALITY POINTS

A grading system is a method of recording faculty evaluations of student progress and the fulfillment of class objectives. All students officially enrolled in courses must be awarded a grade in accordance with College policies.

Grade	Explanation	Quality Points Per Credit Hour
A	Excellent Quality	4
B	High Quality	3
C	Average Quality	2
D	Minimum Satisfactory Quality	1
F	Unacceptable Quality	0
AU	Audit	*
CE	Credit by Examination	*
G#	Grade Forgiven	*
I	Incomplete Grades	*
NS	No Show	*
PA, PB, PC	Passing Grade - Developmental	*
RF	Reschedule - Developmental	*
TR	Transfer Credit	*
WF	Instructor Initiated Withdrawal	*
WP	Student Initiated Withdrawal	*

*Not computed in Grade Point Average.

continued...

'AU' Grade (Audit)

(No Credit) The audit grade indicates the student is enrolled for non-credit. This is not counted in computing grade point averages. Neither federal financial aid nor veterans' benefits are payable for audited classes.

'CE' Grade (Credit by Examination)

The credit by examination grade indicates that the student has received credit by examination for a course. Details of this procedure appear in the chapter on Academic Information in the College catalog. "CE" grades are not payable by financial aid or veterans' benefits.

'G#' Grade (Grade Forgiven)

(No Credit) The "G#" grade replaces a forgiven grade on the academic transcript. Starting with the 2009-2010 College catalog students may apply for forgiveness of "D" or "F" grades on their transcript under specific conditions. See Academic Forgiveness for additional information, page 38.

'I' Grade (Incomplete)

(No Credit) The incomplete grade is assigned in place of a grade when students who are making satisfactory progress are unable to complete all class assignments by the end of the semester.

The requirements for satisfactory completion of a course will be established by the instructor in accordance with course objectives. The incomplete "I" is temporary and must be changed to a grade within the time period designated by the instructor, not to exceed eight weeks from the beginning of the term following the one in which the course was taken. At the end of the specified time period, unresolved "I" grades will be converted to "F" grades. The "I" is used for verifiable, unavoidable reasons and extends enrollment without requiring rescheduling of the course.

Note: An extension to the eight weeks may be granted under certain circumstances to Cooperative Education students. All extensions must be approved by the Vice President of Student Affairs and will be evaluated on a case-by-case basis.

The instructor will award a permanent grade based upon course objectives successfully completed, and it is the responsibility of the student to ensure satisfactory completion.

Incomplete grades are not payable by veterans' benefits and may also affect Federal Financial Aid Standards of Progress.

'NS' Grade (No Show)

(No Credit) The no show grade is a non-punitive grade that indicates a student registered for, but never attended class.

'PA,' 'PB,' and 'PC' Grades (Passing - Developmental)

(No Credit) The passing grades are awarded in developmental courses below the 100 level. The "PA", "PB", or "PC" indicates the student passed the developmental class with an "A", "B", or "C" average. "P" grades are not computed in grade point averages.

'RF' Grade (Reschedule - Developmental)

(No Credit) The reschedule grades are awarded in developmental courses below the 100 level. The "RF" indicates the student is making progress but has not met minimum course objectives. The student should

continued...

reschedule the course during the next registration. The "RF" will not be computed in grade point averages and no credit is awarded. (For financial aid and/or veterans' benefits, the "RF" grade is classified as non-punitive for GPA purposes; however, it will affect Federal Financial Aid Standards of Progress.)

'TR' Grade (Transfer Credit)

The transfer credit grade is awarded based on review of an official transcript received from an accredited post-secondary institution. The "TR" grade is not computed in Grade Point Average, but credit toward graduation is earned.

'WF' Grade (Instructor initiated withdrawal)

(No Credit) "WF" indicates that the student officially withdrew after the 75% point of the semester, or the faculty initiated the student's withdrawal due to excessive absences before or after the 75% point of the semester. Courses with "WF" grades are not payable by veterans' benefits, and "WF" grades will affect Federal Financial Aid Standards of Progress.

'WP' Grade (Student initiated withdrawal)

(No Credit) "WP" indicates the student officially withdrew by the 75% point of the semester. In cases of mitigating circumstances (health or emergency reasons with documentation) after the 75% point of the semester, the student may withdraw passing with approval of the instructor, Academic Dean, Vice President of Instruction, and Vice President of Student Affairs. Courses with "WP" grades are not payable by veterans' benefits, and "WP" grades will affect Federal Financial Aid Standards of Progress.

COMPUTING GRADE POINT AVERAGE

The grades for each subject will be converted to quality points. A grade point average indicates an individual's academic standing, which determines whether he or she is meeting standards of progress, and whether he or she is eligible for awards. The grade for each subject taken under the current major will be converted to grade points by

1. Multiplying the semester hour credits times the quality points awarded, and
2. Dividing the total grade points by the total semester hour credits of courses attempted.

CHANGE OF GRADE

Awarding grades to students is the responsibility of the instructor. Once awarded, a grade may only be changed with authorization of the instructor and Academic Dean, using the Change of Grade form. A student who wishes to contest a grade must follow the Academic Grievance/Grade Appeals Procedure outlined later in this chapter. Grade corrections may be made by contacting the Registrar's office in writing during the official WebAdvisor grading period.

REPEATING COURSES

A course taken at Vance-Granville Community College may be repeated up to two times (three attempts total) in order to raise the grade if the previous grade was below a "C." For each repeated course, only the highest grade will be used to determine the student's GPA, eligibility for graduation, and eligibility for academic honors. Under extraordinary circumstances, students who earn a "C" or higher may submit a written request for permission to take the class one more time to fulfill specific

continued...

program requirements. This request may be submitted, at the time of registration, to the Academic Dean of the division which offers the course.

No course may be repeated more than twice (three attempts total) regardless of previous grades, including "WP," "WF," or "RF" grades without approval of the Vice President of Instruction.

Developmental classes completed more than five years ago no longer meet the prerequisite(s) for subsequent classes and must be repeated.

Note: *Veterans' benefits are not payable to students who repeat any course in which they made a grade of "D" or higher, except for Health Science core courses. Federal financial aid regulations require that both courses count toward the maximum number of hours that may be attempted.*

Note: *In the case of a transfer student, some colleges compute the QPA from all previous credit hours attempted.*

STANDARDS OF PROGRESS

Each student at Vance-Granville Community College is expected to maintain satisfactory academic progress toward completing requirements of a degree, diploma, or certificate. At the end of each term, a student's quality point average for that term and his/her cumulative Quality Point Average are examined. The College seeks to provide students with a warning when they fail to meet minimum academic performance standards, and to provide a means of preventing and/or terminating prolonged failure. This policy applies to all students regardless of their academic program.

Students whose semester grade point average (GPA) falls below 2.0 are subject to academic warning, which may be followed by probation and suspension. GPA will be calculated at the end of each term using the official grade for each course taken that semester at Vance-Granville Community College.

Academic Warning

Students failing to meet the minimum GPA of 2.0 during any semester will receive written notification of academic warning from the Counseling Services office. This warning advises students of their academic status and encourages them to meet with their advisor immediately to examine present academic plans.

Probation

Students whose semester GPA falls below 2.0 for two successive semesters will be placed on probation, which means the student will have restricted scheduling and must meet with his or her advisor or a counselor to do one or more of the following:

- Limit the number of hours attempted
- Schedule preparatory or remedial courses as needed
- Schedule repeat of courses
- Reconsider academic program and/or receive career counseling

Students will be notified in writing of their status by Counseling Services.

Suspension

Students whose semester GPA falls below 2.0 for three successive semesters will be placed on academic suspension for one semester, which means the students will not be allowed to register for curriculum courses. Continuing Education courses may still be taken. Students will be notified in writing of their status by Counseling Services.

continued...

Appeals

Academic issues related to probation and suspension may be appealed through the appropriate Academic Division Dean. Students should follow the academic appeals process as outlined in the College catalog.

Enrollment after Suspension

Readmission decisions are based on the Academic Division Dean or Campus Dean's judgment that the student has made sufficient changes in his or her commitment to college. The student should schedule an appointment to meet a counselor for academic/career advisement, and to complete a *Special Permission Registration* form. The form will be submitted to the appropriate Dean for final approval. The student will remain in academic probationary status until she or he achieves a semester GPA of 2.0 or higher.

Note: *The Standards of Progress as defined for financial aid and veterans' benefits are different from academic standards as stated above. The student needs to contact the Financial Aid Office for specific differences in Standards of Progress.*

ACADEMIC FORGIVENESS

Students may request in writing to have previous grades of "D" or "F" excluded from calculation in their cumulative GPA under the following conditions: The coursework to be forgiven must be at least 5 years old, and consist of "D" or "F" grades. The student must have completed at least 12 credit hours of coursework since that time at an accredited college or university and earned a cumulative GPA of 2.5 or higher. A student may be granted academic forgiveness only one time, and a maximum of 16 semester credit hours total may be forgiven. Former BLET students may request forgiveness of all the credit hours included in the CJC 100 class, up to 19 credit hours.

Requests for academic forgiveness will be submitted to the Registrar's Office on the appropriate form and reviewed by a sub-committee of the Academic Affairs committee. All forgiven grades will be replaced on the transcript with a grade of "G#" to mark them as forgiven. A copy of the transcript reflecting the original grades will be kept in the student's permanent file with documentation of the forgiveness process.

Note: *Grades that are forgiven may not be exempt from academic progress relating to Financial Aid and Veterans benefits. Students should contact the Financial Aid office for more information. Students who plan to transfer to another college or university should contact that institution regarding the impact of forgiven grades on transferability.*

Health Science Students Standards of Progress

A student will not be allowed to continue in specified health science programs with a grade of "C" in certain courses. Refer to the handbook of the specific Health Science program. A grade of "C" or better is required for the general education classes and Radiography classes.

ACADEMIC GRIEVANCE/GRADE APPEALS PROCEDURE

Academic issues include, but are not limited to, the application of attendance policies, grades, classroom/lab or clinical/shop conduct, and admission to or dismissal from a class or program. Students should initiate the grievance/appeals process as soon as a concern develops rather than waiting until the end of the term, as some relevant faculty or staff may not be available between terms. Grade appeals must be on file no later than 20 working days (working days exclude weekends and holidays) after

continued...

the end of the term in which the grade was awarded. Appeals related to dismissal from a course or program must be on file no later than 5 working days from the dismissal date. A student having an academic issue must discuss the problem in a calm and sincere manner. Most problems are resolved at the instructor level; however, the Appeals Procedure may involve the following levels of college faculty/staff in this order:

1. Instructor
2. Program/Department Head/Coordinator
3. Academic Dean/Director
4. Vice President of Instruction or Vice President of Community and Economic Development

The procedure will occur in the following order:

1. The student will arrange a meeting with the instructor to discuss the problem as soon as it develops, preferably before the end of the course/term.

2. If the problem is not resolved with the instructor, the student will contact the Coordinator or Program/Department Head, who will arrange to meet with the student or the student and instructor.

3. If the problem is not resolved with the Coordinator/Program/Department Head, the student will obtain an Academic Appeals Procedure Form from the Academic Dean, the Vice President of Instruction, Vice President of Community and Economic Development, or Student Affairs. The student will complete the form and *personally* deliver the form to the Academic Dean detailing his/her academic concerns.

4. For grievances related to Curriculum Programs, the Academic Dean will meet with the instructor and program head to discuss the concern. For grievances related to continuing education courses, the Director of the division will meet with all the parties involved in the conflict.

5. A written response from the Academic Dean (for CU Programs) and the Director (for CE Programs) will be delivered to the student within 10 working days of receipt of the student's form. Students must keep a copy of the Dean's or Director's response if they plan to pursue the procedure to the next level.

6. If not satisfied with the Dean's or Director's response, the student will have 5 working days to appeal to the Vice President of Instruction for Curriculum Programs or the Vice President of Community and Economic Development for Continuing Education courses. If the concerns are not resolved, the student may request a hearing of the Academic Affairs Committee. The Vice President of Instruction may summon the Academic Affairs Committee for a hearing within 10 working days from the receipt of the appeals request.

7. The Academic Affairs Committee will provide written recommendation of their decision to the President of the College within 5 working days. The President will make a decision and notify the student within five working days of receipt of the committee's recommendation. *The decision of the President is final.*

continued...

CATALOG OF RECORD

Beginning with the implementation of the semester system in the fall of 1997, the catalog that is current when the student enrolls at the institution is the “catalog of record.” A student who is in continuous enrollment (except Summer Term or a break of less than one year) may graduate under the provision of his/her catalog of record or a subsequent issue. A student who is not in continuous enrollment or has a break in enrollment of one year or more must graduate under the provisions of the catalog in effect on his/her last re-entry date or a subsequent issue. Students may appeal to the academic dean to graduate from a previous catalog under extenuating circumstances.

STUDENT RESPONSIBILITIES

All students are responsible for the proper completion of their academic program, for familiarity with all requirements of the Vance-Granville Community College catalog under which they intend to graduate, for maintaining the Grade Point Average required and knowing their academic standing, and for meeting all other degree requirements. Advisors and counselors are available to all students, but final responsibility for meeting program and graduation requirements remains with the students.

GRADUATION REQUIREMENTS

To be eligible for graduation, a student must:

1. Have all official high school **and any required post-secondary transcripts** on file with the Admissions/Records Office at VGCC. (See page 20 for details)

2. Successfully complete his/her course of study.

3. Earn a cumulative quality point average of 2.0 on all work attempted that is applicable toward graduation.

The Associate Degree Nursing, Practical Nursing, Medical Assisting, and Radiography Programs have additional grade point average requirements for graduation.

4. Have no outstanding balance due to the Business Office. (No degree, diploma, certificate, or transcript of a record will be issued to a student who has not made satisfactory settlement with the Business Office for all indebtedness to the College.)

5. Complete WorkKeys Assessment. (See note 2 below)

6. Have submitted an Application for Graduation form, signed by his or her academic advisor, to the Registrar’s Office.

7. Pay a graduation fee at the Business Office.

Note 1: *Transfer students must complete a minimum of 25 percent of the course credit hours as required in their program of study at Vance-Granville Community College.*

Note 2: *Beginning May 2013, all students will be **encouraged** to take this assessment before graduating from Vance-Granville Community College. WorkKeys is an assessment system used to measure job skills that are believed to be critical to success in the workplace. It provides students with a portable credential that is nationally recognized by business and industry, provides valuable feedback to curriculum programs, determines skills in need of improvement and offers participants opportunities for career exploration. Recipients can be awarded Career Readiness Certificates (CRC) of Gold, Silver or Bronze based on their skill levels in Applied Mathematics, Reading for Information and Locating Information. The cost of the assessment will be funded from a combination of grants, fees and institutional money. Please note that the required assessment results will not impact a student’s GPA or program completion. (See page 87 for additional information regarding WorkKeys and CRC).*

continued...

APPLICATION FOR GRADUATION

Graduation exercises to award degrees and diplomas are held once a year in May for students who have met or will meet graduation requirements by the end of summer semester.

It is the responsibility of the student to complete the application for graduation by established due dates (approximately two months prior to the ceremony). See "Student Calendar" or website for dates to apply. The student should first see his/her academic advisor to determine completion status of academic requirements, and obtain an Application for Graduation.

When this form has been completed by the student and signed by the advisor, the student will meet with a counselor, who will certify the student for graduation. This process can be completed at any of the VGCC campuses. Final graduation checks are completed by the Registrar's Office once all final grades are received.

AWARDING OF CURRICULUM CERTIFICATES

A certificate may be awarded with the approval of the Program/Department Head and Academic Dean for completing 12 or more credit hours within an approved program of study. The Academic Dean must submit an *Application for Curriculum Certificate* to the Registrar's Office so that it can be recorded on the student's transcript. If the student requests a printed copy of the certificate, there is a \$5.00 processing fee which will be charged to the student's College account. There is no fee to record the certificate on the student's official transcript. To be eligible to earn a certificate the following graduation requirements must be met: all official high school and post-secondary transcripts that are relevant to the certificate must be on file with the Admissions/Records Office, the student must have a cumulative quality point average of at least 2.0 in all courses in the program, and the student must have no outstanding balance due to the College.

High School students, upon completion of the certificate program requirements are eligible to be awarded the certificate credential, prior to graduation from high school after review by the appropriate program head, division dean and approval of the Vice President of Instruction.

DEAN'S LIST

At the close of each term, students who are carrying a full load (12 hours or more) in 100-level or higher courses leading to a diploma or degree will be included on the Academic Dean's List, provided they have no grade of "I" and no grade lower than a "B" and provided that the quality point average of all their grades for that term is 3.5 or better.

DISTANCE EDUCATION

Curriculum distance education courses are a way for students to take courses for college credit away from the college campus. Web, hybrid, web-enhanced, and VNET courses are all part of Vance-Granville's curriculum distance education program.

Web courses reach the student over the Internet. Reading assignments, research, study sessions, discussion groups, and tests take place via the computer. Web courses are ideal for working parents, people on swing shifts, and others who find it difficult to come to campus regularly to take courses. Successful students in Internet courses typically have done well in other college courses and are self-motivated individuals who can learn on their own and do not require a great deal of help from others.

continued...

Hybrid and web-enhanced courses meet part of their credit/contact hour requirements in face-to-face meetings between students and instructor, and complete the remaining requirements via the Internet. In hybrid classes, students complete most of their coursework online, but also have required meetings with their instructor and class throughout the semester. In web-enhanced classes, students complete most of their coursework in a traditional classroom, but satisfy some of their required hours and assignments online. Students in these classes get the benefit of meeting with their instructors regularly, while also having the convenience of completing some of their course hours and requirements at home.

VNET courses are broadcast from/to Vance-Granville's television studio/classroom on Main Campus, Franklin Campus, South Campus, or Warren Campus. These courses meet at regularly scheduled times. Students attending classes see their instructor on a television monitor and are able to converse with the instructor during class time using desktop microphones and after class via the telephone or the Internet. VNET allows the College to offer a broad range of courses that might otherwise not be offered at all campuses.

Note: *Students who wish to take a Distance Learning course using veterans' benefits should check with the Veterans' Officer concerning restrictions.*

FINANCIAL INFORMATION

BUSINESS OFFICE

The Business Office responsibilities include receipt of tuition and fees, refund of payments, disbursement of financial aid funds, distribution of parking permits and collection of parking fines. The Business Office is open to students between 8 a.m. and 5 p.m. Monday through Thursday and 8 a.m. to 3 p.m. Friday.

The Business Office accepts cash and checks. MasterCard and VISA card payments are accepted on-line through WebAdvisor.

TUITION/FEES

Tuition rates and fees are set by the N.C. Legislature and are subject to change without notice. The tuition rates for 2012-2013 are shown below. Cost of textbooks, laboratory fees, malpractice insurance and supplies are additional expenses that vary according to the program of study. The payment of all fees is required at the time of registration, and no student is officially registered until all fees are paid. There is no fee for registration for distance education courses.

CURRICULUM TUITION:*

COSTS PER TERM

Certificate, Diploma & Degree Programs	In-State*	Out-of-State*
16 or more credit hours	\$1,104.00	\$4,176.00
1-15 hours (per credit hour)	\$69.00	\$261.00

Note: For financial aid and registration purposes, 12 credit hours or more is considered full time.

CURRICULUM STUDENT ACTIVITY FEE:**

COSTS PER TERM

Fall and Spring Terms	In-State	Out-of-State
12 or more credit hours	\$25.00	\$25.00
1-11 credit hours	\$20.00	\$20.00
Summer Term	No Charge	No Charge

TECHNOLOGY FEE:**

COSTS PER TERM

Fall, Spring & Summer Terms	In-State	Out-of-State
12 or more credit hours	\$12.00	\$12.00
1-11 credit hours	\$ 6.00	\$ 6.00

CAMPUS ACCESS/SECURITY FEE:**

COSTS PER TERM

Fall, Spring & Summer Terms	In-State	Out-of-State
Per credit hour	\$1.00	\$1.00

*Tuition Rates for 2012-2013 are shown above.

*Subject to change by the N.C. Legislature

**Subject to change by the VGCC Board of Trustees

(Check for updates on VGCC web page at <http://www.vgcc.edu>)

SENIOR CITIZENS

North Carolina residents 65 years of age and older shall be exempt from the payment of tuition for up to 6 credit hours of credit instruction per semester. If taking more than 6 credit hours, they will be charged the regular rate up to a max of 10 credit hours. This exemption does not apply to "self-supporting" classes.

continued...

BOOKSTORE

The College operates a Bookstore at each college location where students may purchase books, supplies, and gift items. The regular operating hours vary for each location. The operating hours can be found on the bookstore website at <http://www.vgcc.edu/Bookstore/locations-hours.cfm>.

The Bookstore accepts cash, checks, MasterCard, VISA, financial aid, and third party billings.

BOOKSTORE REFUND POLICY

Refunds on books are only allowed during designated time periods for each semester. These time periods and the complete refund policy are posted on the VGCC bookstore website and in the bookstore. To obtain a refund the student must have the original cash register receipt and the return book(s) must be in the exact condition purchased and/or in the sealed shrink wrapped package. Please visit the bookstore refund policy online at <http://www.vgcc.edu/Bookstore/refund-policy.cfm>.

TEXTBOOKS AND SUPPLIES

The costs of textbooks and supplies are additional expenses for which students should plan. These expenses vary according to the program of study.

USED BOOK BUY-BACK

The Bookstore will buy most used books **if they will be used the following term and if additional books are needed to meet estimated course enrollment**. Fifty percent (50%) of the original book price may be paid for books meeting these and other criteria. If the book is not needed, a wholesale price from a private vendor (if available) will be quoted. Used study guides and workbooks are generally not purchased.

Check the website at <http://www.vgcc.edu/Bookstore/bkst-buyback.cfm> for a complete explanation of the buy-back policy. A buy-back will be held at the end of each term. Dates will be posted on the website at <http://www.vgcc.edu/Bookstore/bkst-buybackdates.cfm>.

STUDENT ACTIVITY FEES

Student fees are assessed according to the chart on page 44. The proceeds from student activity fees are used to cover non-curricular costs, such as student I.D. cards, student accident insurance and student activities.

CAMPUS ACCESS/SECURITY FEE

These fees are used to support the cost of campus access activities, parking, and security. This fee is approved annually by the Vance-Granville Community College Board of Trustees.

TECHNOLOGY FEE

All curriculum students will be assessed a technology fee. Technology fees are approved annually by the VGCC Board of Trustees. The proceeds from technology fees are used to cover the costs that accompany the use of instructional and student related technology.

GRADUATION FEE

A graduation fee of \$15.00 per degree or diploma will be due and payable to the Business Office once a curriculum student applies for a degree or diploma and is approved by the Registrar's Office for graduation. The fee covers the cost of the diploma and other graduation expenses not paid for by the College or the State. If participating in the graduation ceremony, an additional fee is paid to the Bookstore for cap and gown and invitations.

ACCIDENT INSURANCE

Students who register for curriculum classes and who pay a student fee receive (at no additional cost) accident insurance covering the student while on campus. In addition, and depending on course requirements, some Occupational Extension students will be required to purchase student accident insurance. Accident insurance is secondary to the student's personal medical insurance.

STUDENT HEALTH INSURANCE

This coverage is required for certain Health Sciences programs in order to participate in clinical activities.

MALPRACTICE INSURANCE

Some curriculum programs and occupational extension courses require that students obtain liability (malpractice) insurance (e.g., Cosmetology, Radiography, Associate Degree Nursing, Practical Nursing, Pharmacy Technology, Medical Assisting, Emergency Medical Technician, Paramedic, Certified Nursing Assistant, etc.). The cost of this insurance may vary and is due at the time of registration.

INDEBTEDNESS TO COLLEGE

No student will be permitted to register or remain enrolled in College-sponsored activities if he/she has an indebtedness to the College. Examples of indebtedness include unpaid tuition, fees, loans, parking fines, Day Care fees, and returned checks. Diplomas and/or Academic transcripts will be withheld when financial obligations to the College are not met.

TUITION REFUND POLICY

Eligibility for tuition refunds are determined by the state policy in effect during the specified term, which will be published prior to the beginning of each term. Currently, curriculum students who officially withdraw from the College prior to the first day of the semester are eligible for a 100-percent refund of tuition. Students who withdraw after the beginning of the term but by the 10-percent point are eligible for a 75-percent refund of tuition. The student activity fee, campus access/security fee, technology fee, and malpractice insurance fee (if applicable) will be 100% refunded when a student officially withdraws from all curriculum classes prior to the first day of the semester. These fees are not refundable once the semester begins. Official withdrawal forms may be obtained from the Main Campus Admissions/Records Office or from the Campus Director.

Note: *The Refund policy is subject to change as directed by the N.C. Legislature and the N.C. Board of Community Colleges. Federal policy on Refund of Tuition for Title IV Funds will supersede the State policy on Refund of Tuition.*

continued...

STUDENT AID

Vance-Granville Community College makes every effort within the limitations of its available financial resources to assure that no qualified/eligible student will be denied the opportunity to attend the College because of the lack of adequate funds to meet expenses. Financial aid assistance is available in a variety of forms to help students who meet the financial need criteria for eligibility. Grants, work study, loans, and scholarships may be used singularly or in combination to meet a student's needs. In addition, most curriculum programs are approved for students to receive veterans' benefits. Childcare funds may also be available if the student is determined eligible.

Inquiries regarding scholarships should be directed to the College's Endowment Fund Office, and questions concerning federal-and-state-funded financial aid programs should be directed to the Financial Aid Office. Special billings and employer payments should be directed to the Business Office and the sponsoring agencies.

Employees who are sponsored by their employers may have the College bill their employers through the use of the Financial Authorization form. Forms and details are available through the Business Office.

Eligibility

Detailed information concerning financial aid policies, student Standards of Academic Progress, deadlines and eligibility requirements is available from the Financial Aid Office by request. The Financial Aid website <http://www.vgcc.edu/FinancialAidOffice/index.cfm> provides additional information regarding financial aid at VGCC.

Return of Funds

Federal regulations for Title IV funds require that students must attend their classes in order to maintain eligibility for financial aid. Colleges must perform "return of funds" calculations for each student who receives federal financial aid and withdraws, or stops attending all of his/her courses during the first sixty (60) percent of the term. This means that a student is required to repay a portion of the funds he/she received for the term, including tuition, fees, and charges at the bookstore. Students are encouraged to discuss the consequences of dropping out of school with the Financial Aid Office before they stop attending.

CLOCK-TO-CREDIT HOUR CONVERSION

Federal regulation requires that the College use a special calculation to determine the enrollment status of students eligible for Title IV Financial Aid when enrolled in certain programs. The following majors require the use of this formula when calculating enrollment status for Title IV Financial Aid:

- Air Conditioning, Heating & Refrigeration Technology
- Automotive Systems Technology
- Carpentry
- Electrical/Electronics Technology
- Industrial Systems Technology
- Pharmacy Technology
- Practical Nursing
- Welding Technology

continued...

- Full-time status:.....12 cr hrs and \geq 29 contact hours
- Three quarter time status:..... 9-11 cr hrs and 22-28 contact hours
- Half-time status:..... 6-8 cr hrs and 15-21 contact hours
- Less than half-time status:1-5 cr hrs and 03-14 contact hours

CLOCK HOUR PROGRAM

Federal regulation requires the College to administer Title IV funding to students in the *Cosmetology* and *Basic Law Enforcement Training (BLET)* programs solely by clock hour progression. For further information, please visit the Financial Aid website at <http://www.vgcc.edu/FinancialAidOffice/index.cfm>.

HOW TO APPLY

To be considered for any type of financial aid handled by the Financial Aid Office, a student must complete the Free Application for Federal Student Aid (FAFSA).

- A student must be a U.S. citizen or permanent resident.
- A student must have a valid Social Security card, and if the student is male, he must be registered with the Selective Service Administration.
- A student must be enrolled in an approved program of study at VGCC.
- A student must not be in default on a Guaranteed Student Loan or owe an overpayment on any of Title IV grants at any educational institution.
- A student may not receive financial aid at VGCC until he/she has first been fully accepted for admission by the Admissions/Records Office.

Students must apply for financial aid each year. Students should complete the FAFSA online at <http://www.fafsa.ed.gov/>. Instructions and application worksheets are available on the FAFSA website. Paper worksheets for the online application are also available in the Financial Aid Office in room 8215 and all of VGCC's campuses. In order to be considered for maximum need based state grants, students should complete their FAFSA prior to March 15th each year.

FINANCIAL AID ASSISTANCE

Students may receive assistance with financial aid on an individual basis. Students requesting assistance should stop by or call the financial aid office.

Students may receive assistance in applying for financial aid from the Educational Opportunity Center. Representatives are located in the four counties served by the College. For information, students may call 1-800-682-1159.

continued...

TYPES OF FINANCIAL AID HANDLED BY FINANCIAL AID OFFICE

GRANTS

• **Pell Grants (Maximum Time-Frame: 12 full-time semesters)**

Students are encouraged to apply early for Federal and State need-based grants. The application process may take four weeks or longer during peak application periods prior to the beginning of the term.

Students who complete the application process and receive award notifications prior to registration may have their tuition and fees deducted from their grant. Book charges and credit balance disbursement will be described in information provided to students with their award notification. Attendance verification is required prior to the disbursement of Pell balances.

Students whose Pell grants are approved too late for the registration process will receive their grants at a designated point in the term after acceptable attendance verification is collected by the Student Affairs division. Pell award amounts are determined in part by a student's enrollment status. Awards are subject to be reduced if a student drops courses or is dropped from class for nonattendance. Refer to the Financial Aid award notification to determine the monetary implications of dropping or not attending classes. Contact the Financial Aid office for any questions about Pell awards.

***Students who have earned a bachelor's degree are not eligible for the Pell Grant.**

• **Supplemental Educational Opportunity Grant (SEOG)**

This federal program offers grants to Pell Grant recipients with exceptional financial need. Students must also be enrolled at least half-time.

No additional application is necessary for the grant. All Pell recipients are automatically considered. However, early submission of the FAFSA is required.

• **North Carolina Community College Grant**

Grants are available to North Carolina residents who demonstrate financial need and are enrolled at North Carolina community colleges. Students must be North Carolina residents enrolled for at least 6 credit hours per semester in curriculum programs.

Eligibility is determined based on the same criteria as the Federal Pell Grant; students not eligible for the Federal Pell Grant may be considered for the grant based on their estimated family contribution as determined on the Student Aid Report. Students who have earned the baccalaureate (4 year) college degree are ineligible.

The value of the grants are estimated to range from \$100 to \$900. Applicants must complete the Free Application for Federal Student Aid (FAFSA) which is used to also qualify for Federal Pell Grants.

***Grant is not awarded during Summer semester.**

•Vance-Granville Departmental Grants

For the purpose of assisting full and part-time students with college tuition expenses, funds earned from Bookstore profits are made available each year. Recipients of these grants are selected by Academic Deans and/or the Vice President of Student Affairs and/or Campus Deans.

SCHOLARSHIPS

NC Education Lottery Scholarship (Maximum Time-Frame: 8 full-time semesters)

The North Carolina Education Lottery Scholarship (ELS) was created by the 2005 General Assembly to provide financial assistance to needy North Carolina resident students attending eligible colleges and universities located within the state of North Carolina.

Applicants must:

- Be a North Carolina resident for tuition purposes
- Enroll for at least six credit hours per semester in a curriculum program
- Meet the Satisfactory Academic Progress requirements of the institution
- Be admitted, enrolled and classified as an undergraduate in matriculated status in a degree, certificate or diploma program.

Eligibility is determined based on the same criteria as the Federal Pell Grant with one exception: students not eligible for the Federal Pell Grant with an estimated family contribution of \$5,000 will be considered for an Education Lottery Scholarship. Students who have earned baccalaureate (four-year) college degrees are ineligible.

The value per grant will vary according to information that is generated from the Free Application for Federal Student Aid application. Grants are estimated to range from \$100 to \$3,000 for the year.

Applicants must complete the Free Application for Federal Student Aid (FAFSA) which is also used to qualify for Federal Pell Grants.

***Scholarship is not awarded during Summer semester.**

Vance-Granville Scholarships

Vance-Granville Community College's scholarships are awarded individually to curriculum students based on criteria outlined for each award. Academic standing and need basis are factors in determining the recipients, but they are not the primary criteria in all cases. Application forms are available in the College's Endowment Fund Office, various locations at Main Campus, all Satellite Campuses, and also online. Scholarship recipients are selected by a scholarship selection committee unless otherwise stipulated in the criteria of the scholarship. Priority deadline dates for full consideration to receive scholarships relating to 2012-2013 academic year are late March and mid-June.

The VGCC Endowment Fund and the VGCC Scholarship Program award three levels of scholarships made possible by the contributions of various individuals, businesses, industries, civic clubs, churches and organizations.

continued...

Presidential Scholar Awards

In October 1999, the Presidential Scholar Award was established to recognize full-time students with exemplary scholastic records. Currently the scholarship award may be up to \$1,250 depending on the investment income earned the prior year.

Presidential Merit Awards

Candidates for these awards may be either currently or newly enrolled full-time students with excellent scholastic records. Currently the scholarship award may be up to \$750 depending on the investment income earned the prior year.

Academic Achievement Scholarships

Recipients of Academic Achievement Scholarships may be either currently or newly enrolled full-time students at VGCC with high scholastic ability, or graduating high school seniors selected by their counselors or principals. Currently the scholarship award may be up to \$500 depending on the investment income earned the prior year.

Annual Scholarships

In addition, a number of businesses, industries, and individuals fund annual scholarships for our students. To learn more about these scholarships and other scholarships, call the Endowment Office at (252) 738-3409, or (252) 738-3430. You may also visit our website at www.vgcc.edu/ENDOWMENT.

OTHER FINANCIAL AID

College Foundation, Inc.

College Foundation, Inc., (CFI), is a nonprofit corporation that offers students and parents financial assistance. To learn more about career related scholarships and other scholarships, visit the College Foundation of North Carolina website at www.cfn.org.

Veterans Educational Assistance for Veterans, Participants, Eligible Dependents, Eligible Active Reserve Members, and Disabled Veterans

The Department of Veterans Affairs offers educational assistance to veterans who contributed towards their education while on active duty; to those who were discharged from active duty for a service-connected disability; to sons, daughters, wives, and husbands of deceased or totally and permanently disabled veterans whose death or disability occurred while in military service; to eligible members of the Selective Reserves and the National Guard; and to members of the Armed Forces who entered active duty on or after July 1, 1985, and contributed toward their education under the Montgomery GI Bill. VGCC is an eligible institution for Department of Veterans Affairs education benefits for all chapters of the GI Bill.

The Financial Aid Office will assist all who have questions concerning eligibility.

continued...

Veterans and eligible recipients enrolling in approved courses must pursue the exact curriculum listed in the College catalog and maintain satisfactory academic progress, attendance, and conduct for continuing eligibility of payments. Veterans and eligible recipients, once dropped or withdrawn from class(es), normally are not eligible for VA education assistance for that entire term.

Benefits are based on the number of credit hours per term in which an individual is enrolled:

- Full Time.....12 or more credit hours
- 3/4 Time.....9-11 credit hours
- 1/2 Time.....6-8 credit hours

Records of progress are kept by the College on veteran and non-veteran students alike. Progress records are furnished at the end of each scheduled school term.

Note: Summer term is considered an accelerated term; therefore, the enrollment status is calculated by the Department of Veterans Affairs.

Federal Direct Loan Program

This federal program offers students the option to borrow loan funds through the William D. Ford Federal Direct Loan Program. Students must meet eligibility requirements and remember these funds must be repaid. Students should visit the Financial Aid Office website <http://www.vgcc.edu/FinancialAidOffice/index.cfm>. or contact the office for more information located in Building 8, room 8215 on Main Campus.

COLLEGE WORK STUDY

Vance-Granville Community College participates in the federally-supported College Work Study (FWS) program. Work Study employment is available on a part-time basis while classes are in session (usually 12 to 15 hours per week). Students must be enrolled for a minimum of nine credit hours in order to qualify for College Work Study. Interested and eligible students must apply to the Financial Aid Office.

STUDENT RESOURCES

STUDENT LEARNING AND SUCCESS CENTER

Student success is the central goal of the Student Learning and Success Center. Central to this mission is the provision of a supportive environment that encourages and assists students in developing and achieving their personal and educational goals.

Whether you are having personal issues, having difficulty with a class, or needing some direction, getting help is the smart thing to do. One of the great things about Vance-Granville Community College is that assistance is readily available. The Student Learning and Success Center offers Career Services, Personal Counseling, Advising, and Disabilities Services.

The Student Learning and Success Center is located on the third floor of Building 1. For additional information visit the VGCC website at <http://www.vgcc.edu/SLSC/index.cfm>

The following services are provided through the Student Learning and Success Center.

•ACADEMIC ADVISING

Academic advising assists students in the planning and development of their educational and career goals.

Courses selected by students must be approved by their advisor prior to registration. The advisor or instructor must also approve all registration changes, such as dropping and adding courses.

•ACADEMIC SKILLS CENTER

The Academic Skills Center (ASC) provides free tutorial services in all subject areas. Students may get a referral form from an instructor in any course they are taking and take it to the ASC; they will then be scheduled to meet one on one with a tutor. The ASC is located on the third floor of Building 1.

Additionally, online tutoring support is available to all VGCC students through SMARTHINKING. For more information, contact the ASC Coordinator or visit the VGCC website at <http://www.vgcc.edu/Academics/smarthinking.cfm>.

•CAREER CENTER

The services of the Career Center are available to students attending Vance-Granville Community College and members of the community who need assistance with career development. Resources are designed to encourage individuals to examine and understand their personal interests, abilities, skills, and values, and to use this information in exploring and establishing career goals. Career assessment tools are available to help students identify occupations that meet their individual interests and needs.

Vance-Granville Community College students and alumni are able to access an online job posting system, as well as career development tools and resources, from any location on or off campus free of charge. The system, managed by College Central Network, offers a local and national jobs board, a resume builder, electronic career portfolios, Career Advice Documents and videos on various topics, career articles, and a Job Search Toolkit. Employers are able to post and manage their employment opportunities independently and at no charge.

Other services provided by the Career Center include resume and correspondence assistance, interview preparation, mock interviews, job search assistance, Career Center tours, career counseling, computer/Internet access, workshops, a career resource library, and an annual Career Day.

The Career Center is located on the Main Campus in Building 1, third floor in the Student Learning and Success Center. For more information visit the VGCC website at <http://www.vgcc.edu/CareerServices/index.cfm>.

continued...

•COOPERATIVE EDUCATION/WORK EXPERIENCE

Cooperative Education (Co-Op) enables a student to receive college credit by combining an academic education with practical work experience. It provides students an opportunity to gain the professional experience that will make them a valuable asset to future employers and give them an edge in today's competitive job market. Students may or may not be paid for their work. Emphasis is placed on parallel plans of school and work in business, industry, or government, and the program is structured by measurable learning objectives. Students who are interested in Co-Op should see their academic advisor. The Co-Op course is not available in all program areas. In applicable programs, students must have a major elective remaining in order to select Co-Op. Human Services Technology and Culinary Arts require Co-Op within their program of study.

Placement in Co-Op is determined by the student's advisor and the Cooperative Education Coordinator and is based upon selection criteria that includes, but is not limited to, the student's prior work experience, academic performance, attitude, health, and position availability. Every effort is made to place all eligible students, but placement cannot be guaranteed. (Most of these courses are ineligible for veterans' benefits. Students should check with the Veterans' Officer, located in Building 8, room 8215 on Main Campus.)

•COUNSELING SERVICES

Counseling Services provides personal counseling and advising, instruction in life skills, and intervention to assist students who may be experiencing difficulties in their classes. Services are provided to students who are experiencing stress due to academic, career, or personal problems which may interfere with their ability to take full advantage of their educational opportunities. Counselors are also involved in consultation with faculty and staff; student needs advocacy; program development; outreach programming; and retention activities.

Counseling Services maintains relationships with community mental health services in order to accommodate students who may have mental health issues. Services are free, and confidentiality is guaranteed within legal and ethical guidelines. For more information, visit the VGCC website at <http://www.vgcc.edu/CounselingServices/index.cfm>.

•DEVELOPMENTAL STUDIES

Courses in the Developmental Studies Program are designed to help students gain the basic academic skills necessary to succeed in the vocational, technical and college transfer curricula offered by the college. Based on placement scores, a student will be placed directly into College English and math or into one of the developmental studies courses that are designed to prepare the student for entry into his or her chosen program of study. To support student success, students are required to take the course sequences in English, reading, mathematics, and the sciences. In addition to the course offerings, staff members of the Student Learning and Success Center and the Academic Skills Center provide special counseling and tutoring to students enrolled in developmental courses. To ensure that students have indeed mastered the skills necessary to succeed in curriculum programs, some developmental courses require students to pass an exit test in order to complete the course.

Starting Fall Semester 2012, Vance-Granville Community College will be implementing new Developmental Math courses as part of a state-wide initiative. These courses will eventually replace the existing Developmental Math classes, MAT 060, MAT 070 and MAT 080, with eight DMA module courses: DMA 010, 020, 030, 040, 050, 060, 070, and 080. Course descriptions of the new DMA classes are printed in the Curriculum Course Description section of this catalog.

continued...

Note: Students receiving federal financial aid are limited to 30 credit hours of developmental courses. Department of Veterans Affairs educational benefits are payable only when placement test scores indicate the developmental course is needed.

•MALE MENTORING PROGRAM

The Male Mentoring Program (M2P) is an empowering and engaging program that provides male students with support and guidance. M2P helps male students in acquiring the confidence, resources and skills needed to succeed academically and socially at Vance-Granville Community College.

Incoming male students are invited to join the Male Mentoring Program (M2P). Any male student that joins M2P is known as a Mentee. Mentees participate in regular monthly meetings that feature a speaker and/or a workshop on an academic topic. Mentees voluntarily participate in workshops, activities and programs provided by M2P. Mentees are required to maintain a minimum 2.0 GPA and participate in the program for at least one academic semester. For more information, visit the VGCC website at <http://www.vgcc.edu/malementoring>.

•SERVICE LEARNING

Service Learning integrates community service with academic instruction. By relating the learning objectives with the service objectives, all parties involved benefit. The student has specific objectives that relate to a curriculum for which he or she receives academic credit. The learning outcomes are dictated by program outcomes that support community needs. Information about Service Learning activities on campus may be obtained through the Career Center located in Building 1 on Main Campus.

DAY CARE SERVICES

The College operates full-time Day Care Centers on its Main Campus and Franklin County Campus as training laboratories for the Early Childhood Associate program.

The Main Campus center maintains a Five-Star License with the State of North Carolina. One to five-year-old children of students, staff, and others are eligible for admittance.

The center at Franklin County Campus also maintains a Five-Star License with the State of North Carolina and is for two- to five-year-old children.

The Main Campus and Franklin County Campus Centers open at 7:30 a.m. and close at 5:30 p.m. Breakfast, lunch, and snacks are served. Full-time students at Vance-Granville Community College are encouraged to use this resource for placement of their children.

Parents who are interested in placing their children at either of the VGCC day care facilities should contact the day care manager at the campus at which they wish to enroll. Because of the high demand for day care services depending on the age group, a waiting list for enrollment is maintained at both facilities.

DISABILITY POLICIES AND ACCOMMODATIONS

The Americans with Disabilities Act (ADA) states:

"No otherwise qualified individual with a disability shall, solely by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by any such entity."

"Otherwise qualified" in the ADA means that only those people who are able to meet the technical and academic qualifications for entry into a school, program, or activity are protected by the ADA. This means accommodations which call for a "fundamental alteration" of a program or which would impose an undue financial or administrative burden are not required.

continued...

The College has no responsibility for identification and evaluation of students with disabilities. If an evaluation is needed, the expense is the student's responsibility.

Procedure for Requesting Reasonable Accommodations

To initiate a request for accommodations, a student must do the following:

- Meet the admission requirements: application for admission, transcripts, and placement testing. Alternate placement testing format must be arranged in advance.
- Self-identify to a Student Affairs counselor or staff member that he or she has a disability 14 days prior to enrollment.
- Arrange an appointment with the disability services counselor to determine if he or she qualifies for reasonable accommodations.
- Provide appropriate documentation (see the guidelines which follow) of the disability.
- Request specific accommodation(s) 14 days in advance of the first day of class.
- Discuss the disability with his or her instructors and provide them with a copy of the Request for Accommodations form letter.

Guidelines for Documentation of Disabilities

Students seeking academic accommodations are required to submit documentation verifying eligibility under Section 504 of the Rehabilitation Act of 1973 and the American with Disabilities Act

All documentation is confidential and is not considered a part of the academic transcript. The following guidelines are provided in the interest of identifying evaluation reports appropriate to document eligibility.

- Documentation must be current (within five years) and comprehensive.
- Reports must contain the names, titles, and license information of the evaluator(s), and the dates of evaluation(s).
- Reports must be submitted on professional letterhead. Prescription pads and copies of letterhead are not acceptable.
- Reports should contain recommendations for reasonable accommodations suitable to a postsecondary academic setting. Specific suggestions to best assist the identified student are also very helpful.

Americans with Disabilities Act Complaint Procedure

Vance-Granville Community College has adopted an internal procedure which provides for the prompt and equitable resolution of complaints alleging any action prohibited by the Americans with Disabilities Act (ADA). Complaints should be addressed to the Vice President of Student Affairs, who has designated the Director of Counseling to coordinate disability services for students.

- A complaint should be filed in writing, contain the name and address of the person filing it, and briefly describe the alleged violation of the regulations.
- A complaint should be filed within 30 calendar days after the complainant becomes aware of the alleged violation.
- An investigation, as may be appropriate, shall follow the filing of a complaint. The investigation shall be informal but thorough and afford all interested persons and their representatives, if any, an opportunity to submit evidence relevant to the complaint.
- A written determination as to the validity of the complaint and a description of the resolution, if any, shall be issued and forwarded to the complainant no later than 10 calendar days after its filing.

continued...

- The complainant can request a reconsideration of the case if he/she is dissatisfied with the resolution. The request for reconsideration should be made to the Vice President of Student Affairs within 10 calendar days.
- The ADA coordinator shall maintain the files and records relating to the complaints filed.
- The right of a person to a prompt and equitable resolution of the complaint filed hereunder shall not be impaired by nor shall the use of this procedure be a prerequisite to the pursuit of other remedies.

Other remedies include the filing of an ADA complaint with the federal EEOC, or other responsible federal agency. For more information, visit the VGCC website at <http://www.vgcc.edu/DisabilityServices/index.cfm>.

CONFIDENTIALITY STATEMENT

All documentation provided will be strictly confidential. No information, except as provided by law, will be released to anyone, including parents, without the student's written consent.

HEALTH SERVICES

Since Vance-Granville is a commuter institution, the College maintains no health facilities other than first aid supplies. The responsibility for medical services rests with the student and his/her parents or guardian.

Students may purchase a major medical insurance plan available through <http://www.n4chealth.com>.

HOUSING

The College does not have dormitory facilities, nor does it assume any responsibility for student housing. If a student attending Vance-Granville Community College must secure housing, it will be his/her responsibility to investigate possible sources and make the necessary financial arrangements. The student is urged to do this well in advance of his/her anticipated enrollment date.

LEARNING RESOURCES CENTER

The Learning Resources Center (LRC) combines traditional library resources with the latest technology to serve the information needs of students, faculty, staff, and residents of the College's four-county service area. The LRC provides reference and instructional support services, print and non-print media, audio-visual equipment, online databases, Internet access, and supports distance education with remote access to resources and services.

Students can find information in their field of study as well as general interest material, and can benefit from an interlibrary loan agreement that allows students to borrow materials from other NC Colleges and Universities. The LRC provides orientation to classes at an instructor's request, and individual instruction is available as needed.

In addition to providing information resources, the LRC offers students a variety of other services, including a place for quiet or group study, access to computers (students must provide ID card), printers, and a copier.

In order to check out materials, students must obtain a library card by filling out an information card, providing their student ID and a driver's license or equivalent ID, and signing a statement agreeing to the LRC policies and procedures.

Individuals with a lost or damaged item(s) will be charged the *current* replacement cost and an additional \$5.00 processing fee per item. For additional information visit the VGCC website at <http://lrc.vgcc.edu/home>.

continued...

OPEN COMPUTER LABS

Each campus has an open computer lab where students may use computers to complete course assignments or to practice skills. Software is provided that will allow students to write papers, work on spreadsheets, create presentations, and do Internet research. Lab technicians are available to assist students. In order to use the lab, students must fill out a card each semester signed by an instructor, must sign a statement agreeing to follow the lab rules, and must sign in and out each time they use the lab.

ORGANIZATIONS AND ACTIVITIES

The College encourages student participation in student organizations and activities. Although student activities are viewed as secondary to the purpose of academic preparation, they are, nevertheless, an important part of student growth and development.

The student activities program is designed to provide a variety of meaningful educational, cultural, and social experiences. The program may include student government, publications, departmental clubs, and special interest groups. For additional information, visit the VGCC website at <http://www.vgcc.edu/StudentActivities/clubs-organizations.cfm>.

Ambassador Program

The Ambassador Program is composed of a group of students from various program areas who have been nominated by the faculty and selected by a committee for their academic achievement, leadership potential, and vocational promise. Those selected are given specialized leadership training designed to be useful well beyond their graduation. These student leaders represent the College at special events on campus as well as in the community for a term of one year. Ambassadors host campus activities, conduct campus tours, speak to community groups, assist with registration/orientation, and participate in endowment fund activities. VGCC student ambassadors are provided special apparel that identifies them as leaders, a financial award, and the opportunity to meet community, elected, and business leaders throughout the region. The Ambassadors meet regularly for leadership development and planning purposes. For more information on the Ambassador Program, contact the Endowment Fund Office.

Athletics

VGCC participates in National Junior College Athletic Association (NJCAA) Intercollegiate Athletics in men's basketball, men's and women's golf, and women's volleyball. Interested students should contact the Director of Student Activities and Athletics. For more information, visit the VGCC website at <http://www.vgcc.edu/StudentActivities>.

Clubs

The VGCC Student Government Association sponsors clubs that focus on academic programs, specific professional or career interests, or common interests or activities. A faculty advisor is required by the administration for each student group and organization. All organizations must be chartered and approved by the Student Government Association and the College President. Should a sufficient number of students desire a particular college activity, they may petition the Student Government for official recognition. All campus organizations are prohibited from discrimination according to race, creed, color, sex, age, or disability. For more information, contact Student Affairs or visit the VGCC website at <http://www.vgcc.edu/StudentActivities>.

Phi Beta Lambda

Phi Beta Lambda is a national educational association of student members preparing for careers in business. The goal of Phi Beta Lambda is to train future business leaders to be contributing members of society.

continued...

Members benefit from leadership and training, contact made through networking, and opportunities to apply their knowledge through business-related activities, including state and national leadership conferences. Membership is open to all students interested in pursuing a business or business-related career. For more information, contact Student Affairs or visit the VGCC website <http://www.vgcc.edu/StudentActivities>.

Phi Theta Kappa

The purpose of the Alpha Sigma Chi chapter of Phi Theta Kappa is to recognize and encourage scholarship among two-year college students. The society provides opportunity for the development of leadership and service, an intellectual climate for exchange of ideas and ideals, lively fellowship for scholars, and stimulation of interest in continuing academic excellence. Membership is by invitation only. Students must be enrolled in a regionally accredited institution offering an associate degree program, have completed at least 12 hours of course work leading to an associate degree, have a grade point average of 3.5 (3.75 for part-time students), and enjoy full rights of citizenship. Members are inducted during spring semester only and must meet all criteria at the time of induction. For more information, contact Student Affairs or visit the VGCC website <http://www.vgcc.edu/StudentActivities/Index.cfm>.

Student Government Association (SGA)

The SGA is designed to promote the general welfare of the College in a democratic fashion and to facilitate communication among the student body, the faculty, and the administration. Student government provides a means through which students can promote interest in student activities both on and off campus. Representatives are elected both by academic departments and by student organizations. For more information, contact Student Affairs or visit the VGCC website at <http://www.vgcc.edu/StudentActivities/Index.cfm>.

PARKING

All campus students are required to obtain, and properly display, a parking permit. Parking permits and campus parking rules and regulations are available during registration at the Business Office.

Vance-Granville's campuses have paved, well-lighted parking areas. On Main Campus, short-term parking for visitors is available in front of Building 1 and across from Building 8. Visitors are required to have a temporary parking permit displayed on their vehicle's dashboard. Temporary parking permits may be obtained from the receptionist in Building 1.

The institution provides parking spaces for persons with disabilities in a number of locations on all campuses. All parking lots are equipped with ramps that make the institution accessible to those persons with disabilities. Eligibility for such a parking space generally requires display of the proper license plate or placard from the North Carolina Division of Motor Vehicles indicating the driver's disabilities. However, all persons displaying a handicap placard must be in possession of the corresponding DMV registration card. (See Student Code of Conduct, Policies and Procedures for rules on parking.)

STUDENT HANDBOOK

A student handbook is prepared by each of the academic departments of the College. The handbook is a guide for students in acquainting themselves with their specific program by providing the student with additional information not available in this catalog. Copies are issued during orientation and are available in the academic departments and counseling offices or from campus deans. It is the responsibility of each student to know the contents in order to ensure his or her success at VGCC. These handbooks are also available online at the Academics webpages.

STUDENT CODE OF CONDUCT

CONDUCT

Students of all College programs, curriculum and non-curriculum, will be expected to conduct themselves at all times as mature and responsible individuals and should show a high regard for College facilities, property, and for the personal rights and property of others. Enrolling students are responsible for acquainting themselves with College regulations, including the Code of Conduct.

The act of enrollment at Vance-Granville Community College indicates an acceptance by the student of published rules and policies of the College. Each enrolled student is considered to be a responsible adult, and Vance-Granville Community College assumes and requires that men and women who enroll in various programs and classes will maintain standards of conduct appropriate to the collegiate atmosphere of Vance-Granville Community College.

Students may be suspended or dismissed for conduct that is considered in violation of the Student Code of Conduct while on campus or while participating in school-sponsored activities either on or off campus.

The decision to suspend or dismiss students for violations of the College Code of Conduct will be at the discretion of the Vice President of Student Affairs. Pending an investigation, college administrators or campus security may require a student to leave campus and not return until instructed by the Vice President of Student Affairs.

I. Classroom Conduct

The classroom provides a place for learning and the exchange of ideas. In order for teaching and learning to occur, the appropriate environment must exist that includes respect, civility, and common courtesy. To help create this environment, the following items may be regulated on the course syllabus and may vary from instructor to instructor. Ask your instructor if you are unsure of the classroom rules. There may be additional items regulated by your instructor that are not listed here. Infractions of basic classroom rules will typically be addressed by your instructor; however, repeated or serious infractions may be referred for formal disciplinary sanction.

1. Tardiness
2. Attendance
3. Food and drink
4. Bringing guests to class
5. Conversation during class
6. Required protective equipment
7. Minor disruptions during class
8. Cell phones and other electronic devices
9. Temporary dismissal from class (See page 63)
10. Plagiarism or Academic Dishonesty*
(*An instructor may impose loss of credit for an individual assignment)

While students are on Vance-Granville Community College properties or at a Vance-Granville Community College-sponsored event, acts that are illegal or against the College's rules and regulations may be subject to disciplinary action. The following actions are specifically prohibited at Vance-Granville Community College:

continued...

Academic Dishonesty (Repeated or Severe Violations) – You may not cheat or attempt to deceive your instructor or another College staff member on assignments, tests, exams, etc. You may not commit plagiarism, which includes paraphrasing or summarizing another person's words, without proper acknowledgement. Academic dishonesty also includes assisting or attempting to assist another student in an act of academic dishonesty.

Temporary Dismissal From Class – When an instructor deems a student's behavior detrimental to the continuation of the class, an instructor may dismiss that student for the remainder of the individual class period. An instructor should complete and submit an Early Warning Form to document the dismissal. Any dismissal beyond one class period must follow established College suspension procedures.

II. General Campus Conduct

- **Accessory**- You may not be an accessory or assist another in committing a violation of the Code of Conduct or other illegal act.
- **Alcoholic Beverages** – You may not possess, use, or be under the influence of alcoholic beverages while on campus or at a College sponsored event.
- **Animals** – You may not bring an animal of any kind on campus; this includes leaving animals in vehicles. Police dogs or animals sanctioned for the purpose of assisting the visually impaired are exempt.
- **Assault** – You may not threaten to strike or threaten to cause harmful or offensive contact with another person.
- **Battery** – You may not strike or cause intentional contact that causes harm or is offensive to another person.
- **Computer Use** –The College has a Computer and Network User Policy-VGCC Board Policy. Please refer to page 70. Inappropriate or unauthorized use may result in disciplinary sanctions.
- **Disobedience** – You may not disregard reasonable directives of any College employee acting in the interest of the College.
- **Disorderly Conduct** – You may not act in a way that will create interruption and disturb the peace of the College.
- **Disrespect** – You may not speak or act in a manner that disrespects any person while on campus or while attending any College event.
- **Distribution and Display** - You may not distribute or place inappropriate, obscene, or libelous printed materials or pictures on campus.
- **Disruption** – You may not disrupt the normal activities of the College by verbally or physically interfering with instruction, meetings, events, or traffic. In addition, you may not cause disruption in buildings, hallways, or outside areas of campus.
- **Disruptive Clothing** – You may not wear clothing that may cause a disruption or that is provocative or obscene, including undergarments that are visible. Shirts and shoes are required.

continued...

- **Drugs** – You may not possess, use, or be under the influence of any narcotic or illegal drug in violation of state or federal law.
- **False Information** – You may not present false information that the College has properly and legally requested. Conversely, you may not withhold information that has been properly and legally requested by the College.
- **Gambling** – You may not gamble on campus.
- **Hazing**- No group or individual shall require another student to wear abnormal dress, play abusive or ridiculous tricks, or use frightening or other harassing behavior that subjects those individuals to personal indignity or harm.
- **Law Violations** – You may not violate any local, state, or federal criminal laws on College property. Note: Charges for breaking certain local, state or federal criminal laws off campus may result in disciplinary sanctions by the College.
- **Parking and Motor Vehicles** – You may not operate your vehicle in an unsafe manner, or violate rules for vehicle registration, display of decals, or parking.
- **Profanity and Offensive Language** – Profanity and offensive language are not permitted. While the College does not intend to scrutinize every word spoken, College staff may take issue in instances when a student’s language is deemed unacceptable.
- **Property Damage** – You may not damage property that belongs to the College or property of others.
- **Sexual and Other Types of Harassment** – You may not harass any person on campus. This includes sexual, verbal, or physical harassment for any reason.
- **Theft** – You may not steal property that belongs to the College or that of another individual.
- **Threat** – You may not engage in behavior that is clearly designed to present harm to the emotional or physical well-being of another person or yourself.
- **Tobacco** – VGCC is a 100% Tobacco-Free Campus. You may not use any tobacco product while on any VGCC College Campus property or inside a College vehicle.
- **Unauthorized Use of College Documents and Images** - You may not forge, alter or misuse College documents, records, or instruments of identification. You may not use the College name, logos, or mascot without proper authorization.
- **Weapons** – You may not have a weapon or facsimile of a weapon of any kind, including firearms, knives, and tasers. Law enforcement officials are exempt.

continued...

III. Disciplinary Sanctions

When students violate College regulations, they are subject to disciplinary action by the College. Disciplinary action may be initiated by a complaint by any person of the College. The complaint must be filed with the Vice President of Student Affairs or Campus Security. The Vice President or his/her representative shall investigate all complaints and will assign in writing formal sanctions if justified. Once formal sanctions have been determined, the student may appeal the decision. The Student Code of Conduct sanctions are listed below. These sanctions seek to preserve flexibility in the imposition of punishment and do not imply an order or sequence of sanctions. The sanctions in each case will be determined by the factors related to the specific case.

Sanctions include the following:

- **Reprimand** – A written communication which gives official notice to the student that he/she has violated the Student Code of Conduct and that any subsequent violation of the Student Code of Conduct may carry heavier penalties because of this prior infraction.

- **General Probation** – An individual may be placed on general probation when involved in a minor disciplinary offense. General probation has two important implications: first, the individual is given the chance to show his/her capability and willingness to observe the Student Code of Conduct without further violation; second, if an additional violation occurs, additional sanctions will be imposed. The probation will be in effect for no more than two terms.

- **Restrictive probation** – Restrictive conditions may limit activity or access to certain places within the College community. Generally, the individual will not be eligible for initiation into any local or national organization, and may not receive any College award or other honorary recognition. The individual may not occupy a position of leadership or responsibility with any College or student organization, publication, or activity. This probation will be in effect for no more than two terms. Any violation of restrictive probation may result in immediate suspension.

- **Restitution** – A student may be required to pay for damaging, misusing, destroying, or losing property belonging to the College, College personnel, or student(s).

- **Loss of academic credit for a course** – This may be imposed as a result of severe or repeated academic dishonesty. Note: The instructor may impose loss of credit or grade for an individual assignment or assignments as an alternative.

- **Suspension** – This is defined as exclusion from class(es) and/or all other privileges or activities of the College for a specified period of time.

- **Expulsion** – This is defined as dismissal from the College for an indefinite period. The student may be re-admitted to the College only with the approval of the College President or his/her designee.

- **Group Probation** – This is assigned to a College club or other campus organization for a specified period of time. If group violations are repeated during the probationary period, the charter may be revoked or activities restricted.

continued...

- **Group Restriction** – While under restriction, a campus group may not seek or add members, hold or sponsor events in the College community, or engage in other activities as specified.

- **Group Charter Revocation** – This action removes recognition for a group, club, society, or other organization for a minimum of two (2) years. In order to be chartered again after the period of revocation has ended, the request must be approved by the Student Government Association and the College President.

Notice: Vance-Granville Community College reserves the right, under Federal law, to include notations of disciplinary sanctions on a student's academic transcript.

Order of Disciplinary Appeals Procedures

1. Once the Vice President of Student Affairs has assigned disciplinary sanctions, he/she will

- Provide written notice of the sanctions imposed to all persons accused of violations.

Rights of the Accused

The accused may elect to

- Voluntarily accept sanctions imposed by the Vice President of Student Affairs; or

- Request a hearing before the Student Affairs Committee by completing a Disciplinary Appeals form requesting the hearing. The appeal must be filed with the Vice President of Student Affairs within 10 College working days from the date on the disciplinary action letter.

2. The Vice President of Student Affairs may summon the committee for a hearing within 10 working days from the receipt of the Appeals request. The committee is comprised of faculty, staff, and students.

Hearing

The Student Affairs Committee will

- Hear the complaint from those initiating disciplinary action, along with any witnesses;

- Hear the appeal from the accused, along with any witnesses (legal counsel may be present but cannot participate in this hearing process);

- Discuss facts to determine if disciplinary action was justified;

- Provide written recommendation to the President within five working days of their decision to support or not support the appeal;

- The President will make a decision and notify the student within five working days of receipt of committee's written recommendation. *The decision of the President is final;*

- The Vice President of Student Affairs and Vice President of Instruction will decide if a student may attend classes during an Appeals process. Each case will be decided individually.

Note: Academic Grievance/Grade Appeals information is located in the Academic section (page 38) of this catalog.

**GENERAL
INFORMATION**

Access to Campus Facilities

Access to campus facilities is limited to the designed and intended purposes of the specific classroom, laboratory or shop. Individuals not scheduled to have access should not enter these areas without permission. Students shall not use shop equipment unless under the supervision of an instructor.

Alcohol and Drug Abuse - VGCC Board Policy

It is the policy of Vance-Granville Community College to comply with the Drug-Free Schools and Communities Act of 1989 (Public Law 101-226) as implemented by regulations contained in 34 CFR Part 86, Subpart B, (amended as Title IV Safe and Drug Free Schools and Communities Act of 1994.) Therefore, it is the policy of this College that the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance on the College's campuses or at any site or activity operated by Vance-Granville Community College is prohibited. Any student violating this policy is in violation of the College's rules and regulations and also the Student Code of Conduct of Vance-Granville Community College. Any student violating this policy will be subject to disciplinary action up to and including permanent expulsion.

Students who violate the College's policies relating to drug abuse will be referred to the appropriate legal agencies for prosecution under the federal and state laws governing use and possession of a controlled substance. This includes, but is not limited to, narcotic drugs, hallucinogenic drugs, amphetamines, barbiturates, marijuana, anabolic steroids, or any other controlled substance as defined in Schedules I through V of Section 202 of the Controlled Substance Act (21 U.S.C. Section 812) and as further defined by regulation at 21 C.F.R. 1300.11 through 1300.15 or article 5 Chapter 90 of the North Carolina General Statute. Persons who violate this statute shall be guilty of a felony and may be imprisoned up to 10 years or fined up to \$10,000 or both at the discretion of the court.

Possession or use of alcoholic beverages or being in a state of intoxication on the college campus or at college-sponsored or supervised functions off-campus or in college-owned vehicles is prohibited. This includes, but is not limited to, alcoholic beverages, malt beverages, or fortified wine or other intoxicating liquor. Use of alcoholic beverages may result in referral to counseling programs and/or legal agencies for prosecution under federal and state laws.

Prescription drugs authorized by a registered physician or pharmacist are not in violation of the code of conduct as long as the individual intended to receive the prescription medication takes the drug according to the prescribed dosage. Any influence which may be attributed to the use of drugs or of alcoholic beverages shall not in any way limit the responsibility of the individual for the consequences of his/her actions.

Students should be aware that the use of alcohol, non-prescription use of depressants including sleeping pills, sedatives, tranquilizers, non-prescription use of stimulants including cocaine, prescription diet pills and marijuana can lead to lapses in attention, slowed reflexes and reaction time, impaired vision and impaired short term memory. Alcohol is strongly associated with the increased risk of cancers of the oral cavity, pharynx and larynx. Other research indicates chronic alcohol abuse may affect the immune system.

continued...

Alcohol and Drug Abuse Agency Resources

Students desiring counseling or treatment for the abuse of alcohol or drugs should contact Counseling Services at the College or any of the following agencies:

- Alcoholics Anonymous
 - Vance County:.....252-438-2395
 - Granville County:.....919-693-2329
 - Franklin County.....1-877-619-3761
 - Warren County:.....252-257-2774
 - Durham County:.....919-286-9499
 - Wake County:.....919-783-8214
 - TriCounty Intergroup:.....919-831-5100
- Narcotics Anonymous Hotline.....919-831-5100
- Alcohol Drug Council of N.C.....1-800-662-7030
- Alcohol Abuse 24-Hour Hotline & Treatment.....1-800-374-2800
- Alcohol Abuse 24-Hour Assistance & Treatment..... 1-800-234-1253
- Five County Mental Health Authority..... 1-877-619-3761
(TTY) 1-877-338-0788
- Alcohol & Substance Abuse Program UNC-Chapel Hill.....1-888-457-7457
- Durham Council of Alcoholism & Drug Dependence, Inc.....919-309-2600
- Duke Addiction Program..... 919-684-3850
- Wake County Programs and Clinics:..... 919-212-7000
- Al-Anon/Alateen:.....919-713-1516

Approval of Activities/Fund Raising

All club extracurricular activities and fund raising must be approved by the Vice President of Student Affairs to ensure that they are coordinated throughout the entire College.

Bulletin Boards

- Posters of any type are not permitted on walls, doors, windows, or exterior surfaces of buildings. Important announcements concerning student activities, meetings, pre-registration, job openings, and special events are posted on the bulletin boards. Students are held responsible for removing all notices that are outdated or improperly posted.
- Ads (books for sale, rentals, items for sale, etc.) may be posted on bulletin boards. Permission to mount posters or notices on bulletin boards must be obtained from the Student Affairs office.
- Placing inappropriate or obscene material on bulletin boards or in any campus location is a violation of the Student Code of Conduct.

Campus Security

VGCC strives to provide a safe and secure working and learning environment for its faculty, staff, students, and visitors. Campus Security encourages everyone to be vigilant, to be aware of his/her surroundings, to keep his/her belongings secure, and to report any suspicious persons or behaviors to Campus Security or any College official. Victims or witnesses can report crimes or threats anonymously and confidentially by calling the Security Division at (252) 438-0446 or by emailing the Director of Public Safety and Preparedness at *newtons@vgcc.edu*.

continued...

Children on Campus

Children are not allowed in classrooms or the testing center, nor should they be left alone in any area on campus. Students should not bring children on campus unless they are enrolled in the College day care program. The College cannot assume responsibility for these individuals while on campus. The recreational facilities, classrooms, and other areas of the College are designated primarily for the student population.

Communicable Disease

Communicable and infectious disease shall include, but is not limited to, chicken pox, influenza, tuberculosis, conjunctivitis, hepatitis A, B, and D, infectious mononucleosis, and acquired immune deficiency syndrome (AIDS).

Persons who know or have a reasonable basis for believing that they have an infectious/communicable disease which may pose a threat to others have an obligation to conduct themselves in accordance with such knowledge, so as to protect themselves and others. Accordingly, employees and student should report the information to the Vice President of Student Affairs. All information will be kept confidential except to those persons determined by the Vice President of Student Affairs as having a need to know. These persons will be informed after the individual is advised that such action will be taken.

Any student who believes or knows he/she is infected and is engaged in clinical patient-care is required to share that information as soon as possible with the Vice President of Student Affairs on a confidential basis, so that the College can protect the welfare of patients and others.

Computer and Network User Policy - VGCC Board Policy

Campus-wide access to computing facilities is restricted to Vance-Granville Community College faculty, staff, currently enrolled students and others as appropriate. Authorized users may use College computing facilities, including transmissions over and through the College network, for research and scholarly or educational purposes, and for official College business, so long as such does not

- Violate any law or College policy, or College procedure
- Involve significant use of College resources, direct costs, or substantial, interference with the performance of College duties and work, or
- Result in commercial gain or profit.

Computing Facilities General Use

Access to Internet operations is restricted to faculty, staff, active curriculum students possessing a valid student identification card, and active extension or special students requiring access by nature of the course requirements or by an instructor's written permission.

No user shall disclose an account password or share an account with another person. Instructors will not share their accounts with students, work-study students, or temporary help of any kind. It is the responsibility of the user to protect the account from unauthorized use by changing the account password periodically and using passwords that are not easily guessed.

Any attempt to circumvent system security, guess passwords, or in any way gain unauthorized access to local or network resources is forbidden.

continued...

Transferring copyrighted materials to or from any system or via the College network without express consent of the copyright owner is prohibited and may be a violation of Federal and State Law.

Use of electronic mail and other network communications facilities to harass, offend, or annoy other users of the network is forbidden. This includes electronic "chain letters."

1. Information Access and User Privacy

Electronic mail, information passing over the College network, and information stored in user accounts are considered to be private and confidential. Although this type of information must be accessed by system personnel for the purpose of backups, network management, etc., the content of user files and network transmissions will not be viewed, monitored, or altered without the express permission of the user except in the following circumstances:

- The College has reason to believe that an account or system has been breached and is being used by someone other than the authorized user;
- The College has received a complaint that an account or system is being used to gain unauthorized access or to attempt to gain unauthorized access to another network site;
- The College has reason to believe that an account or system is being used in violation of College policy, State Law, or Federal Law; or
- The LRC staff has reason to believe that the patron in the LRC is using the Internet inappropriately.

Under these circumstances, the College President and/or his/her designee may authorize staff to monitor the activities of a specified account or computer system, and to search electronic information stored in that account. The authority for this search must be requested on an account-by-account basis and monitoring will be restricted to the specified account. If this search provides evidence of violation, the account will be disabled, and action will be taken with appropriate authorities.

Users are expected to take proper care of the equipment in all College facilities and to abide by the rules of the staff and faculty supervising the equipment. They are to report any malfunction as soon as possible to the Office of Information Technology for repair. A user should not attempt to move, repair, reconfigure, modify, or attach external devices to the systems, including changing toolbars, screen savers or desktop themes. Users will be held responsible for any internal or external damage inflicted during use. Display of offensive or inappropriate materials on public workstations is expressly forbidden and may result in revocation of computing privileges at the discretion of the supervising staff. Staff will periodically monitor appropriate usage. Users are required to sign a copy of the policy statement before using computer workstations in the LRC to document that they understand and are willing to comply with this policy.

2. Ponzi Schemes

A *Ponzi Scheme* is a form of chain letter that requests recipients to send money to people on a list. The US Supreme Court has determined that Ponzi Schemes are inherently fraudulent. The US Criminal Code prohibits the use of mail or wire in any attempt to defraud. Users should note that under the wire fraud statutes, the attempt to defraud is a violation, and all who are involved in the attempt, whether intentionally or not, may also be in violation.

continued...

3. Sanctions for Policy Violations

Violations of policy will be treated as academic misconduct, misdemeanor, or felony as appropriate. For non-criminal matters, but serious misconduct, the following procedure will be followed:

- On the **first violation**, the user will be denied computing privileges for a period of one week.
- A **second violation** will result in the loss of computing privileges until the end of the semester.
- A **third violation** will result in permanent loss of computing privileges.

For minor violations of policy, such as non-educational electronic mail, non-educational chatting, or any form of non-educational electronic communication, the following procedure will be implemented:

- On the **first violation**, a warning will be issued and documented.
- On the **second violation**, the user will be denied computing privileges for a period on one week.
- **Any violation** after the second will result in loss of computing privileges for the rest of the semester with no other warnings issued.

Criminal violation will be prosecuted to the fullest extent of the law and will result in the immediate suspension of computing privileges. The outcome of such violations may result in student or staff disciplinary or termination proceedings and permanent revocation of computing privileges.

Electronic Signature Policy - VGCC Board Policy

Vance-Granville Community College (VGCC) recognizes an electronic signature as a valid signature from faculty, staff, and students subject to the conditions described below. An electronic signature is defined as any electronic process signifying an approval to terms, and/or ensuring the integrity of the document, presented in electronic format. Students use electronic signatures to register, check financial aid awards, pay student bills, obtain unofficial transcripts, update contact information, log into campus computers, complete forms, submission of class work, tests, etc.

Faculty and staff use electronic signatures for submitting grades and attendance roster information, viewing personal payroll data, logging into campus computers, accessing protected data through the administrative computing system and custom web applications provided by the College, etc.

An electronic signature is considered valid when the following conditions are met:

- Institution provides student or employee with a unique username
- Student or employee sets his or her own password
- Student or employee logs into the campus network and secure site using both username and the password, which is authenticated through LDAP

It is the responsibility and obligation of each individual to keep their username and their password private so others cannot use their credentials. Once logged in, the student or employee is responsible for any information they provide, update, or remove. VGCC will take steps to ensure both the username and password are protected and kept confidential. Furthermore, users are responsible for logging out of all systems and exercising the necessary precautions when using publicly accessible computers.

continued...

This policy is in addition to all applicable federal and state statutes, policies, guidelines, and standards.

General Student Grievance Procedure

Student grievances that are not academic or disciplinary in nature and/or involve conflicts with other students, alleged violation of students' civil rights, including sexual harassment, should be addressed according to the following procedures:

1. When circumstances occur that cause a student to feel that he/she has a grievance, the student should discuss the issue with the Vice President of Student Affairs within a reasonable time after the grievance has occurred. The VP may:

- a. Disseminate information concerning the complaint to the appropriate College officials,
- b. Investigate the complaint,
- c. Refer the student to appropriate College staff
- d. Negotiate a resolution to the grievance.

2. If a satisfactory resolution is not reached, the student may file a general Grievance Form with the Vice President of Student Affairs. If the student is not satisfied with the decision of the Vice President, he or she may request a formal hearing within five working days. Upon hearing the merits of the complaint, the Vice President may mediate a remedy for the parties involved, dismiss the grievance, or may recommend to the President that a grievance committee appointed by the President be assigned to hear the complaint.

3. The President will consider the committee's recommendation and will make a decision within five (5) College working days of receiving the committee's recommendation. *The President's decision will be final.*

Intellectual Property Policy

Vance-Granville Community College encourages the development, writing, invention, or production of intellectual property designed to improve the productivity of the College or to enhance the teaching/learning environment.

Intellectual property is defined as intellectual, technical, and creative works that can be copyrighted or patented, such as literary, dramatic, musical, and artistic works, computer software, multimedia presentations, web course design, logos, and inventions. VGCC owns all rights to its logo, seal, and other related material. The ownership of intellectual property will be determined in accordance with conditions listed below.

1. The employee or student retains ownership if all of the following criteria are met:

- The work was created independently and as a result of the individual's own initiative, not requested by the College,
- The work is not the product of a specific contract or assignment made as a result of employment of the College,
- The work is prepared outside of the scope of the employee's job duties or student's course/program requirements,
- The work does not involve significant use of College facilities, time and/or other resources.

2. The College retains ownership if any of the above criteria are not met by the employee or student or if one or more of the following criteria apply:

continued...

- The work is prepared within the scope of the employee's job duties or student's course/program requirements,
- The work is the product of a specific contract or assignment made in the course of the employee's employment or student's enrollment with the College,
- The development of the work involved significant facilities, time and/or other resources of the College including, but not limited to, released time, grant funds, College personnel, salary supplement, leave with pay, equipment or other materials or financial assistance.

Student Ownership of Intellectual Properties

Students who independently develop intellectual property arising out of their participation in programs of study at the College will retain the ownership rights to such property when the intellectual property does not result from their enrollment at VGCC and when the use of College facilities is minimal. Students using significant College resources or those employed by the College will be treated in the same manner as similarly situated College personnel. However, any student not employed by the College but engaging in research or development of intellectual property under the supervision and direction of a faculty member in connection with a program or activity subject to this policy shall have no ownership interest in the resulting property, but may be eligible to participate in the income distribution (see section Income Distribution). Faculty using such volunteer, non-employed students in their scholarly work projects should have the students sign a "Student Assignment of Ownership and Nondisclosure Agreement" form.

Significant Use of College Resources

Significant use of College resources in generating creative works is defined as use of College facilities, equipment, personnel, and one's time in excess of that needed to fulfill the required purpose of one's position, occupation, job description, appointment, and/or association with VGCC. Significant use of resources results when the creation of the work requires use of College resources beyond those allocated to the faculty or student in support of their academic work within their respective department or class. Such usage may occur as a result of actions of the College personnel involved or when specific assignments are given to students or where contracts or other obligations are involved. The College will retain title to all creative works that make significant use of College resources.

The following examples generally define such use when they are applied, singly or in combination, in support of a revenue-producing work. Although it is the responsibility of the dean or equivalent supervisor to evaluate situations and determine if significant use of resources has occurred, faculty members, employees or students have an obligation to notify their instructor, supervisor or dean when they believe that their work involves more than nominal use. The following are examples of criteria for establishment of significant use:

1. Extended use of time and energy by the developer(s) in creating or promoting the work that results in reducing the levels of teaching, scholarship, or citizenship activities, so that anticipated performance in these areas is at a level significantly less than normal.
2. Substantial use of College facilities such as laboratories, studios, equipment, production facilities, or specialized computing resources.

continued...

3. College funding in support of the work's creation.
4. Reduced teaching load without a salary reduction.
5. Paid professional development leave to develop or complete a work.
6. Direct assignment or commission from the College to undertake a creative project as a part of the developer's regular appointment or assignment.
7. Substantial use of funding from gifts to the College to support creation of the works involved.
8. Production of the work under specific terms of a sponsored research grant or contract.
9. Substantial subvention by the College in the publication of a scholarly book or creative work.
10. Use of specifically designated College funds or extensive use of the services of a support unit financed by the College for production of a creative work.
11. Use of College computers and servers for Web-based activities such as a distance-learning course.

Minimal Use of College Resources

Minimal use of college resources is use that is within the required activity of one's appointment or assignment at VGCC. College personnel may make such minimal use of college resources and devote office time in carrying out a range of professional activities, some of which may involve income-generating projects. Similarly, students may make such minimal use of college resources to carry out a range of academic assignments, some of which may involve income-generating projects. The College relinquishes (to the developers) ownership of creative works and its rights to any income generated as long as college resources are used in this nominal fashion, and the time involvement of the developer(s) of the project does not compromise their core responsibilities in teaching, scholarly work, and college citizenship.

The following examples generally define such use:

1. Minimal use of time and energy by the developer(s) in creating or promoting the creative work while maintaining assigned levels of teaching, scholarship, and citizenship activities, so that anticipated performance in these areas is at the expected level.
 - a. Student employees or technicians may not be used to do income-producing work or make up the slack in a faculty member's assignment so he or she can do income-producing work.
 - b. Developers may not receive additional released time to develop a work, other than that assigned to normal faculty or students.
2. Minimal use of college resources in the ordinary support of the developer's assignments, teaching, scholarly, and service activities.
 - a. Use of photocopying equipment, long distance telephone costs, postage, faxes, etc., specifically for a creative work may not exceed incidental use.
 - b. Office supplies or software may not be purchased specifically for a creative work.
 - c. Secretarial help, such as typing manuscripts, may not be used to generate income-producing products. Incidental help, such as formatting tables, is allowed.
 - d. Course or instructional materials may not be generated with the use of support units financed by the college. Courses or instructional materials generated in the normal course of teaching or assignments, without such support, are allowed.

continued...

e. Works may not be funded by outside grants or gifts nor produced under a sponsored research grant or contract.

Warranty Clause

The faculty, staff, or student shall warrant in writing that there are no third party claims against the intellectual property that has been disclosed to VGCC, that the intellectual property in question is the exclusive work of the faculty, staff, or student and other persons identified in the disclosure to VGCC, and that no other person or entity claims an interest in the intellectual property in question.

Indemnity Clause

The faculty, staff, or student must agree, in writing, to fully indemnify and hold harmless VGCC, its trustees, officers, faculty members, staff, and any and all other individuals associated with VGCC, from and against any and all claims, demands, actions, and causes of actions brought against VGCC, its trustees, officers, faculty members, staff, and any and all other individuals associated with VGCC, relating in any way to the intellectual property in question.

Repayment of College Support Funds

In certain situations of substantial use of college funds and other resources, it may be more appropriate for the developer(s) to repay such funds to the college and thus fall under the minimal rather than substantial use provisions of this policy. The division dean, Vice President of Instruction, and Vice President of Finance and Operations, in consultation with the developer(s) and the appropriate office(s), will determine the appropriate level of repayment.

Income Distribution

All revenues derived from college-owned intellectual property or creative works will be received and administered by the Institutional Effectiveness Office. Costs incurred by the college in the process of perfecting, transferring, and protecting college rights to the property or works will be paid by the college and, together with interest costs, will first be deducted from the gross income available for distribution. An accurate accounting of all such costs shall be made available to the developer(s) upon request. The net income (gross income minus college expenses) from college-owned intellectual properties will be distributed to academic developers and to developers in support areas as follows:

- a. Developer(s)—40%
- b. College of the developer(s)—60%

Assignment of Intellectual Properties to the College

Students, college personnel, or individuals not affiliated with the college who own intellectual property may elect to voluntarily disclose and submit their properties to the Technology or Institutional Effectiveness Offices for the purpose of facilitating commercial development. In the event that either of the offices agrees to accept management of the property, the property shall be assigned to VGCC and the assignor shall be entitled to the same distribution of revenues and other rights and responsibilities as the academic developers of college-owned property, as specified in this policy.

continued...

Release of College Ownership

The college may, at its sole discretion, determine to release to the developer(s) its ownership rights to any intellectual property upon such conditions as the college deems beneficial and fair to all parties. However, VGCC may retain a royalty-free license to use this intellectual property for research and education.

Dispute Resolution

Any disputed issues related to intellectual property, or the interpretation of this Intellectual Property Policy, shall first be reviewed by the Institutional Effectiveness Office. Any disputed issues that cannot be resolved with the assistance of the Institutional Effectiveness Office shall be referred to the President of the college. The President may refer disputed issues to the Board for its recommendations and advice.

Operation and Parking of Motor Vehicles

1. Enforcement

Under the provisions of North Carolina Statute 115D-21, the College may enforce traffic and parking regulations on campus.

2. Application of State Law

All the provisions of Chapter 20 of the General Statutes relating to the use of the highways of the State of North Carolina and the operation of motor vehicles thereon shall apply to the streets, roads, and driveways of the Vance-Granville Community College campus, along with rules and regulations approved by the Board of Trustees.

3. General Rules

- **Parking:** Students must park in spaces marked for student parking.
- **Permit Decals:** The College issues a plastic decal that must be displayed from your car's rearview mirror.
- **Citations** will be issued for violations of the College traffic and parking regulations.
- **Accountability:** The person to whom a vehicle parking decal is issued shall be responsible for parking and traffic violations of the vehicle for which the permit is issued.
- **Citation Fees** for drivers not complying with parking and traffic violations have been established. Failure to pay citations may affect enrollment status.

Publications

Publications are defined to include but are not limited to the following: newspapers, pamphlets, newsletters, brochures, flyers, books, posters, or magazines. Publications are not to be printed, distributed, or displayed without official approval of the Vice President of Institutional Advancement. Off-campus organizations are not allowed to distribute their publications on any of the College's properties without the approval of the College President.

- **Offensive Publications:** Publications containing profanity, language that is offensive to race, sex, or creed, and incorrect statements will not be approved for printing or distribution. All publications must represent the dignity, mission, and standards of the College.

continued...

Recruiting/Solicitation on Campus

The College periodically allows representatives from the business community, government agencies, and other colleges access to campus for the purpose of providing opportunities for students.

Religious Observance Policy - VGCC Board Policy

The Board of Trustees grants each student two days of excused absences per academic year for religious observances. In order for the absence to be an excused absence, students must notify the College in writing within two weeks of the beginning of any class and/or course, in which they are enrolled, of the dates of any religious observance for which they request an excused absence. The procedures to implement this policy are found in the College catalog.

For the purpose of this policy, an excused absence is an absence for which the student is held harmless for their failure to attend a scheduled class, and for which the instructor provides the student a reasonable opportunity to make up any tests, exams, assignments, or other work missed as a result of the absence. Academic year is defined as beginning the first day of fall semester and ending the last day of the summer semester. Should the student fail to complete the tests, exams, assignments, or other work missed during the excused absence, after the instructor has given a reasonable opportunity to complete them, the instructor is authorized to give no credit for any tests, exams, assignments, or other missed work. NCGS 115D-5(u); SL 2010-112,5.2.

Sexual Assault

Vance-Granville Community College is committed to maintaining an environment that is supportive of its primary educational mission and free from all exploitation and intimidation. The College will not tolerate rape, sexual assault, or other forms of non-consensual sexual activity.

Vance-Granville Community College supports this effort for students, staff, and faculty through educational prevention programs and counseling.

Vance-Granville Community College will enforce violations through internal disciplinary procedures, educational programs, and the encouragement of external prosecution of alleged offenders through appropriate external law enforcement agencies. Violations shall include, but are not limited to, the following:

1. Any form of non-consensual sexual intercourse, committed by physical force, coercion, threat, or intimidation, actual or implied, by a person(s) known or unknown to the victim. Sexual intercourse can involve anal, oral, or vaginal penetration.
2. Any actual or attempted non-consensual sexual activity, by a person(s) known or unknown to the victim, including, but not limited to:
 - a) Sexual intercourse or sexual touching committed with or without physical force, coercion, threat, or intimidation
 - b) Exhibitionism
 - c) Sexual language of a threatening nature

Non-consensual sexual activity shall include, but is not limited to, situations where the victim is unable to consent because he/she is physically helpless or mentally incapacitated due to drug or alcohol consumption or is unconscious, regardless of whether or not the consumption was with the victim's consent. Victims of non-consensual sexual intercourse and/or activity are encouraged to file a complaint

continued...

through any College office as soon as possible after the alleged incident. Parties not directly related to the College may also file complaints when a significant relationship to the mission and interest of the College can be shown. If a complaint is filed with the College by a party not directly related to the College, the party will be advised to contact local law enforcement officials to file a report.

Complaints by or against students will be forwarded to the Vice President of Student Affairs for resolution within the College's Student Code of Conduct. Complaints by or against College employees will be forwarded to the Director of Human Resources.

Members of the College community found to be in violation shall be subject to sanctions including probation, suspension, and permanent expulsion for students, and probation and termination for employees.

Sexual Harassment - VGCC Board Policy

Vance-Granville Community College expressly forbids harassment of any type by College employees and students. The College will not tolerate sexual harassment of any student or employee, male or female. For employees, sexual harassment constitutes unsatisfactory job performance and is subject to disciplinary action up to and including dismissal. Students who engage in sexual harassment face disciplinary action up to and including expulsion. The Board of Trustees authorizes the President to develop and administer procedures for reporting, investigating and disciplining incidents of sexual harassment.

Definition - Sexual harassment is defined as unwelcome advances, requests or offers of sexual favors, or other verbal or physical conduct of a sexual nature by either a male or female toward a male, female or group when such conduct has the purpose or effect of interfering with an individual's work or educational performance or of creating an intimidating, hostile or offensive working or learning environment.

Harassment is defined as unwelcome behavior that creates an intimidating, hostile, or offensive working environment.

Reporting Sexual Harassment

In an effort to prevent sexual harassment from occurring at the institution, it is policy to encourage the reporting of sexual harassment to members of the College administration.

Speakers on Campus

When speakers are invited to campus under established procedures, they should be allowed to speak. Respect for the democratic principles of open discussions and the right to hold and present differing opinions carries with it the obligation to allow speakers to speak and to permit audiences to listen.

Tobacco-Free Policy - VGCC Board Policy

Vance-Granville Community College is committed to providing its students and employees a safe and healthy campus environment. The College recognizes that the use of tobacco products can be detrimental to the health of students, employees, and visitors, and recognizes that it has an obligation to promote a healthy learning and work environment free from unwanted smoke and by-products of tobacco use. Thus, all College campus properties, grounds, and vehicles became 100% tobacco-free effective August 18, 2009. Students and employees who violate this policy will be subject to appropriate disciplinary action. The President will develop and post procedures to implement this policy.

continued...

Tobacco-Free Guidelines:

Use of tobacco products while on campus is a violation of campus rules and is subject to sanctions used to enforce the Student Code of Conduct. Beginning October 17, 2011 the College instituted a citation program to address smoking and tobacco use on campus. The following steps will be used to assist in campus-wide enforcement:

1. **First Violation:** Warning citation issued to student;
2. **Second Violation:** Required conference with the Vice President of Student Affairs or Campus Dean;
3. **Third Violation:** Five day suspension.***

Any subsequent violation will result in suspension for the remainder of the current term.

*****Occupational Extension student suspensions may vary depending upon the length of the class in which the student is enrolled.**

Security may issue a citation directly to a student who has violated the tobacco-free policy. Faculty and staff may approach the student to ask their name, submit the student's name to the Vice President of Student Affairs if already known or request that security approach the student. In order to be enforced, reports must include the name of the faculty or staff reporting the violation. Records of violations will be cumulative throughout a student's enrollment at the College.

**COMMUNITY
& ECONOMIC
DEVELOPMENT**

The Community and Economic Development Division at Vance-Granville Community College offers a variety of continuing education programs to meet the needs and interests of its citizens. There are opportunities for students to gain basic academic skills, job training and retraining skills, along with personal growth and cultural programs. The Community and Economic Development Division provides life-long learning opportunities. Some courses are offered on a semester basis or as needed. Courses are scheduled when a need is established and space and an instructor are available. Individuals who are interested in new offerings should contact a representative in the Community and Economic Development Division. Requests will be reviewed to determine if it is feasible to provide the new offering. To view a current schedule for Community and Economic Development go to: www.vgcc.edu/Schedules/schedules.cfm

Admissions

Any adult who is 18 years or older may enroll in Community and Economic Development courses. Individuals who are 16 to 17 years old who have special circumstances may be admitted only after meeting special admissions requirements. GED students must submit official record of scores. Adult High School students must submit official Adult High School transcripts.

CEUs/Certificates

The Community and Economic Development Division will award Continuing Education Units (CEUs) for all appropriate programs to students who meet the satisfactory requirement. All students must attend scheduled class meetings and complete required assignments to earn a satisfactory grade (S). Students who do not meet this requirement will receive an unsatisfactory grade (U) and will not earn any CEU's nor receive a certificate of completion. The CEU is an established method of recording an individual's participation in an organized continuing education experience under qualified instruction.

Anyone earning CEUs at Vance-Granville Community College can obtain an official transcript from the Records Office. A \$5.00 per copy transcript fee should be included with the request. Certificates of completion are normally awarded by request.

Diplomas and Certificates

1. The Adult High School Diploma is awarded to students upon completion of the program. The diploma is awarded by all service area Boards of Education (Vance, Granville, Franklin, and Warren) in cooperation with Vance-Granville Community College.
2. The Adult High School Equivalency Certificate is awarded by the North Carolina Community College System to individuals who make satisfactory scores on the General Educational Development (GED) tests.

Costs

Costs for Community and Economic Development courses vary but are usually a nominal fee. There are no charges for Literacy Education. However, a testing fee is required for students pursuing the GED and Literacy students must pay a graduation fee to the Business Office once the requirements for graduation are completed. There is a fee schedule for Economic and Workforce Development courses. Fees for all campus classes are listed in our college schedule each semester and on the website.

continued...

North Carolina residents age 65 or older are exempt from some registration fees. There are no fee exemptions for Self-Supporting courses. Most cultural activities are offered free to the public; however, there are times when a nominal fee may be charged. Registration for the Community and Economic Development Division is on a first-come first-served basis.

Refund Procedure

Students will be eligible for a 100 percent registration fee refund if official withdrawal occurs prior to the first course meeting or the course is canceled due to insufficient enrollment. A seventy-five (75) percent registration fee refund will be given if the student withdraws prior to or on the ten (10) percent point of the scheduled hours once the course begins. For contact-hour courses, five (5) calendar days from the first day of class is the determination date. Students must contact staff in the program area to start the process for refunds. A request for refund must be completed.

Additional fees (if applicable) will be 100 percent refunded when a student officially withdraws from a course prior to the first class meeting. These fees are non-refundable once the course begins. For Self-Supporting courses, no refund will be made unless the course is canceled.

Course Cancellation Policy

Vance-Granville Community College reserves the right to cancel any course due to low registration and/or attendance.

Course Repetition Policy

Students who take an occupational extension course more than twice within a five-year period shall be required to pay a fee in order to register for the course unless the class is "required by standards governing the certificate or licensing programs in which the student is enrolled."

Students shall be primarily responsible for monitoring course repetitions; however, the College shall review records and charge students full cost for courses taken more than twice.

PROGRAMS

ECONOMIC AND WORKFORCE DEVELOPMENT

There are several programs offered through Economic and Workforce Development. The N.C. Legislature establishes fees charged for these programs except for Self-Supporting courses. Registration fees, costs of books and supplies for these programs vary according to length and content of courses. There is no registration fee for most of the Law Enforcement, Fire Service, and some Emergency Medical Care courses provided for agency personnel.

Departmental grants may be available for students who meet specific qualifications on a limited basis. Students must complete the application process.

Registration fees by length of course are as follows:*

- \$65 for 01-24 hours
- \$120 for 25-50
- \$175 for 51+ hours

*Subject to change by N.C. Legislature

Other Costs:

Campus Security Access Fee - \$3.00 per course*
Technology Fee - \$3.00 per Computer Course*

*Subject to change by the VGCC Board of Trustees

Occupational Extension Computer Center

The Occupational Extension Computer Center provides training on a variety of high-demand computer application programs. Courses consist of, but are not limited to, Windows, Internet Access, Word, Excel, Access, PowerPoint, and FrontPage. Specialty classes such as QuickBooks, Digital Camera Know How, Movie Making, Buy & Sell on eBay and AutoCAD are offered as well. Additionally, a number of online courses are available. Occupational Extension Computer courses are scheduled during the day, at night, on weekends, or online (anytime) to provide access to all students. Customized training is provided upon request to local businesses, industries, government, or organizations to meet their specific needs.

The Occupational Extension Computer Center also offers a one year Medical Coding Certificate program consisting of classes in Medical Coding, Medical Terminology, Billing and Insurance, and Certification Test Prep.

Industry Services

The Industry Services staff of the College works with new, expanding, and existing industries in providing customized training programs tailored to meet the needs of the industry and its employees. The training programs are flexible in design to accomplish specific objectives and are jointly planned by company personnel and industrial training specialists from the College.

continued...

Training includes:**1. Customized Training Program**

The program supports the economic development efforts of the State by providing education and training opportunities for eligible industries.

The program was developed in recognition of the fact that one of the most important factors for an industry considering locating, expanding or remaining in North Carolina is the ability of the State to ensure the presence of a well-trained workforce. The program is designed to react quickly to the needs of industries and to respect the confidential nature of proprietary processes and information within those industries.

The purpose of the Customized Training Program is to provide customized training assistance in support of full-time production and direct customer service positions created in North Carolina, thereby enhancing the growth potential of companies located in the state. It prepares the workforce with the skills essential to successful employment in emerging industries.

2. Occupational Training

This program provides numerous occupational related courses for employment in the fields of Biotechnology, Leadership, Safety & Health, Teams, Customer Service, Quality, Computers, Technical & Vocational and many more.

Occupational Extension Training

The Economic and Workforce Development Department provides numerous occupational related courses for employment purposes. Included, in addition to other program areas, are wastewater treatment, code enforcement, substitute teacher training, activity coordinator, teacher certificate renewal, BioWork, Fermentation, cGMP, Downstream Processing, Notary Public, ServSafe, General Contractor, NC Auto Emission & Vehicle Safety, Understanding and Using the NEC and others.

Occupational Healthcare Programs

This program provides Nurse Aide I & II certification programs in which classroom education, laboratory training, and clinical experiences in local nursing homes and hospitals are provided. In addition, in-service education and training can be provided for hospital, nursing/rest home and government personnel. Medication Aide and Phlebotomy are also offered through Occupational Healthcare programs.

The Medication Aide course prepares the student to administer medications in a nursing home setting under the direction of a licensed nurse. Students must pass a state exam after completion of the class to become listed on the Medication Aide registry. Requirements include listing on the Nurse Aide I registry and a high school diploma or GED.

The Phlebotomy course includes classroom lecture, labs, and individual clinical practice in venipuncture. Upon completion of the course and the ASPT exam, students are nationally certified to perform phlebotomy techniques in hospitals, nursing homes, and doctor's offices.

continued...

Public Service Program

The Public Service Program of the College provides educational and training programs for members of fire departments and rescue agencies, as well as for governmental agencies. In addition, other academic, vocational and technical courses are offered. Program offerings and services include, but are not limited to, the following:

1. Fire Service training designed to train and upgrade firefighters in all aspects of firefighting procedures and equipment. Certification programs such as Firefighter I and II, Driver/Operator, and Hazardous Materials Responder are offered.
2. Rescue training, such as Rescue Technician training, to enable the participant to gain certification in this area. Specialized and customized training is also available.
3. Courses that prepare building, electrical, mechanical, plumbing, and fire prevention inspectors who enforce the State Building Codes. Continuing education courses are also offered for currently qualified inspectors.

Emergency Medical Services Programs

The Emergency Medical Services Programs of the College provide educational and training programs for emergency care units, industrial safety, and governmental agencies. In addition, other academic, vocational and technical courses are offered. The Emergency Medical Services offerings include, but are not limited to, the following:

1. Emergency Medical Service training designed to train people to become state certified as Emergency Medical Technicians from the basic through the paramedic level. Medical Responder and First Responder are also offered. Continuing Education and American Heart Association classes such as Advanced Cardiac Life Support and Pediatric Advanced Life Support are offered.
2. CPR and first aid courses to train students to provide immediate aid to victims of accidents and sudden illness. Many classes are offered on site at businesses, industries and government agencies.

Law Enforcement & Corrections Training Programs

Law Enforcement and Corrections Training is designed to meet the needs of state, county, city, and other law enforcement and correction agencies through a combination of required training for certification and in-service training to maintain and upgrade skills. The following in-service training opportunities are available: Firearm Re-Qualification, Officer Survival, Cultural Diversity, Detention Officer Certification, Basic Radar Operator, Straight Baton, State mandated topics and others. Official registration takes place at 8 a.m. the first day of the class. Walk-in registration will be allowed only if space is available. Pre-registration is required for most classes.

Human Resources Development

Human Resources Development (HRD) is a pre-vocational and pre-employment skills training program designed to educate and prepare students for success in the workplace. HRD is mainly intended for those individuals who are unemployed, underemployed, dislocated workers, or employed but seeking skills upgrading or retraining. It is state funded through the N.C. Community College System.

continued...

The HRD program focuses upon customer wants and needs. Training may include a variety of topics relating to job orientation and motivation, employability skills, self-sufficiency, or customized skills training. Instruction can be provided on either an individual or group basis. Training length will vary according to customer needs. HRD can be linked to other college training programs or connected to agencies outside the institution where appropriate. Upon completing prescribed classes, students are assisted with job placement or further training.

Core Curriculum Components

The core curriculum for HRD training includes, but is not limited to the following components:

- Employability Skills.....self-assessment and values clarification
- Employability Lab open entry/exit employability skills
- Career Planning & Assessment.....goal setting and action plan
- Occupational Readiness/Pathways.....employability skills/occupational extension courses
- Introduction to Computer Skills.....information technology/applications for job search
- Employability Motivation & Retention.....self-esteem/keeping a job
- Economic Literacy.....personal finances, changing economy

There is no cost to enroll in the HRD program for eligible students. For more information or to apply, those interested should contact the HRD office.

Career Readiness Certification (CRC)

The Career Readiness Certificate is an assessment based credential that gives employers and career seekers a uniform measure of key workplace skills.

The Career Readiness Certification is a portable credential that promotes career development and skill attainment for the individual and confirms to employers that an individual possesses basic workplace skills. Career Readiness Certification participants are assessed in Reading for Information, Applied Mathematics, and Locating Information. Based on assessment results, customers may take the nationally recognized *WorkKeys Assessment* and earn a Bronze, Silver or Gold certificate that will demonstrate proficiency in these areas.

SMALL BUSINESS CENTER

The Small Business Center of the College was created to provide the small businesses of the community with a focal point for training, education, counseling, and referral. The Small Business Center addresses the continuing need for updated information, refinement of management skills, and the improvement of profit advantage in risk-taking. Special attention is given to the critical areas of capital formation and prevention of business failures.

The Small Business Center program offerings and services include the following:

1. Seminars and short courses designed to provide small business owners, managers, and employees with updated information on various business topics.
2. Counseling services to new and existing small businesses provided by Small Business Center personnel and volunteers.

continued...

3. Referrals to appropriate agencies such as The Small Business and Technology Development Center (SBTDC), and the N.C. Department of Commerce.
4. A network of linkages with Chambers of Commerce, Small Business Administration, economic development agencies, related educational and development agencies, business volunteers, Department of Economic Development, banks, and other financial institutions.
5. A resource and information center provided for use by new and existing small businesses.

WORKFORCE INVESTMENT ACT

The Workforce Investment Act (WIA) is funded through the U.S. Department of Labor, which allocates funds to states, which allocate funds to local Workforce Development Boards. WIA provides training and employment opportunities through one-stop delivery systems. Vance-Granville Community College serves as a key partner and contractor with JobLink, the local one-stop delivery system that is administered by the Region K Workforce Development Board through the Region K Council of Governments. Through this system, a variety of educational and occupational skills training opportunities are provided to eligible persons who are unemployed, underemployed or economically disadvantaged.

Core services provided include eligibility determination, outreach, recruitment, initial assessment, job search, job placement, and labor market information. Intensive services provided include comprehensive assessments, individual employment plans, group counseling, case management, and short-term prevocational services. Training services provided include occupational skills, combined workplace/classroom training, private sector training, skills upgrading and retraining, entrepreneurial training, job readiness training, adult education and literacy, and customized training for employers.

As a training provider, Vance-Granville will offer curriculum-based training for eligible persons where possible. Also, participants may receive financial assistance, counseling, tutoring and job placement services depending upon the availability of funds.

GOVERNOR’S RAPID RESPONSE

The North Carolina Department of Commerce, through the Division of Employment and Training, provides the Governor’s Rapid Response program designed to offer immediate assistance to workers being dislocated due to plant closings. Generally, a team of college staff from various departments provide information and orientation to potential or existing dislocated workers on educational opportunities available at the college including continuing education, occupational extension, community service, curriculum, special support programs, and workforce development services. Additionally, requested short-term skills training courses are usually planned and offered on short notice expressly for workers being permanently laid off, or pending lay-off, by a particular employer.

continued...

COMMUNITY SERVICE PROGRAM (Personal Enrichment)

The purpose of the Community Service Program is to provide lifelong learning for adults to meet individual needs and interests and contribute to the community's overall cultural, civic and intellectual growth. Community Service Program offerings include seminars, workshops, or other special events.

By design, the Community Service Program can serve varied interests of the community. Program administrators can respond quickly to requests for courses that, in most instances, cannot be offered in any other area. All facets of the community can be served - ethnic, geographic, and socioeconomic - with the help of dedicated and creative administrators, customer-driven support staff, and quality instructors. The Program also has the flexibility to offer courses on most days and times that will best serve individual student needs.

The program offers academic skills courses in humanities, religion, languages, history, and antiques to meet the needs of adults. Practical skills such as homemaking, quilting, sewing, cabinetmaking, etc., are offered for individuals pursuing additional skills which are not necessary for a vocation. The program also offers avocational courses in arts, crafts, doll making, painting, ceramics and floral arrangements. Recreational courses include shag dancing, yoga, line dancing, golf, and motorcycle safety. Cultural arts programs are also provided through Community Services. Programs may vary at each of our campus locations.

LITERACY EDUCATION PROGRAMS

Adult Basic Education (ABE)

The Adult Basic Education (ABE) Program is designed to develop and improve a person's mastery of basic skills in reading, writing, math, communication, and emphasis on critical thinking skills. Adult participants should improve the ability to benefit from occupational training, have greater opportunities for more productive and profitable employment, and meet objectives for enrolling in future programming.

Adults 18 years of age or older with less than an eighth grade education or those assessed as performing at less than a high school level of proficiency in reading, math, or language skills may enroll in the Adult Basic Education (ABE) Program. Classes are available at each of Vance-Granville Community College's campuses, both day and evening, and at other sites located throughout the college's service area. Students entering ABE are assessed to determine areas of strengths or weaknesses. Instructors work individually with students in planning the most effective study program. Students study in a classroom setting in Adult Education classes. Adult Basic Education classes are free.

Adult High School (AHS) Diploma

The Adult High School (AHS) Diploma Program is available to meet the needs of adults 18 years of age and older who have not completed high school. There are several steps in the application process. Applicants must first take a placement test in order to determine their skill lev-

continued...

el in reading, math and language. Since this is a high school program, the applicant's test results must demonstrate a high school proficiency level in the three tested areas. The next step is the evaluation of the official transcript from the former high school by lead instructors in the Adult Learning Centers at the four campus sites or the AHS Coordinator on the main campus. Students requiring more than six (6) high school credits are encouraged to pursue their GED. Once it is determined that the applicant will be accepted, the applicant will decide whether he/she would like to enroll in the more traditional classroom setting or the online program. The Adult High School Program requirements are the same for both programs. All requirements are based on the North Carolina Standard Course of Study. It is mandatory that students successfully master and complete the required courses. The basic courses required for high school completion according to the North Carolina Standard Course of Study are as follows:

COURSES	UNITS
English	4
Mathematics	3
Science	3
Social Studies	3
Health/PE	1
Electives	7
Total	21

Enrollment in the Adult High School Diploma Program (distance education/online) and enrollment in the Adult High School Diploma Program Adult Learning Centers(classrooms) provides students with professional support and constant encouragement. However, the Distance Education online setting is available continuously 24 hours a day, seven days a week and utilizes computer and Internet-based instruction to complete the necessary school credits. Students are required to install FireFox on their home computers in order to access the online OdysseyWare program. Both of the choices are equal in quality and will give students an opportunity to earn the much-needed high school diploma in order to become more marketable in today's world. Upon successful completion, the student may further his/her education at Vance-Granville Community College. Adult High School classes are free.

General Education Development (GED)

The GED Program is designed to develop and improve a person's mastery of skills and general knowledge in the five subject areas of writing, social studies, science, reading, and math. Any person 18 years of age or older may enroll in the program. GED classes are available at each of Vance-Granville Community College's campuses and at other sites located throughout the college's service area.

Students entering a GED course of study are assessed to determine areas of strengths and weaknesses. Instructors work individually with students in goal planning the most effective study program. GED classes concentrate on improving reading comprehension skills, writing ability, and, if necessary, upgrading math skills in preparation for GED testing.

GED through distance education (online) is available to students who cannot attend classes on campus to obtain their GED. The distance education program is available continuously 24 hours a day, seven days a

continued...

week and utilizes computer and Internet-based instruction to prepare the student for GED testing. Students are required to install Internet Explorer on their home computers in order to access the online McGraw-Hill program. Instructors will provide support and encouragement to move the student toward successful completion of a GED program. Students' academic skill levels are periodically reassessed throughout the time they are engaged in our training program. General Education Development (GED) classes are free.

GED Test

The GED exam measures a person's mastery of skills and general knowledge in five subject areas: writing, social studies, science, reading, and math. Upon successful completion of the exam, a student is awarded a diploma that is considered the equivalent of a high school diploma. GED tests are administered often throughout the semester to meet the testing needs of our students. The cost of the GED test is \$25.00 consistent with G.S. 115D-5. This is a one-time fee charged to students who take the battery of GED tests.

Compensatory Education (CED)

The Compensatory Education Program is specifically designed for intellectually challenged persons ages 18 years and older in the Vance-Granville Community College service area. Through this program, intellectually challenged individuals are helped to develop and refine needed skills to successfully participate in today's society and to achieve a higher level of independence. Specifically, the course content consists of task-analyzed instructional programs in the following domains: language, mathematics, social science, community living, health, and consumer and vocational education.

Compensatory Education is an academic program. Classes are held throughout the College's service area. Compensatory Education (CED) classes are free.

English as a Second Language Program (ESL)

This program offers individuals whose native language is not English an opportunity to improve their ability to understand, speak, read, and write in English. At the introductory level, the course format focuses on developing the conversational skills needed to deal effectively with day-to-day survival. The ESL Program also addresses practical language skills needed for success in the workplace. At the intermediate and advanced levels, more detailed attention is given to grammar, language usage, sentence structure, composition, and pronunciation in order to strengthen the student's confidence in using English. Students entering the ESL Program are assessed to determine areas of strengths or weaknesses. Instructors work individually, in small groups, whole groups, and with assisted computerized instruction.

ESL classes are available at some of our Vance-Granville Community College campuses. All English as a Second Language classes are free.

Adult Learning Center

The Adult Learning Centers (ALC) are located at each of VGCC's campuses and are designed to provide Adult Basic Skills students with access to a variety of instructional approaches and materials. A Computerized

continued...

Integrated Learning System provides students with both an interactive learning experience and exposure to computer technology along with traditional instruction. The learning needs of students are considered individually, and instructional plans are developed that take into account each learner's skill development level and preferred learning style.

Upon enrollment, students meet with the Adult Learning Center staff to discuss educational goals and to determine the most convenient schedule for each student. During the initial orientation process, the students are administered placement tests and inventories. This assessment procedure is necessary in order to establish precise learning goals and select the appropriate educational plans. Students and staff determine whether the appropriate path of learning is ABE, AHS, GED, Distance Education, Compensatory Education, or ESL. Students will then attend classes and are encouraged to participate in a variety of instructional activities that include independent study, small/whole group instruction classes, computer-assisted instruction, and class projects. Students are urged to participate in an ongoing self-assessment process that monitors progress and directs future learning and goal setting.

ACCOUNTING

(A25100)

Associate in Applied Science Degree

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the “language of business,” accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

SUGGESTED SEQUENCE OF REQUIRED COURSES:

Title	Class	Work Exp/			Credits
		Lab	Clinical

AIR CONDITIONING, HEATING & REFRIGERATION TECHNOLOGY

(D35100)

Diploma

The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls, and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools and instruments.

Diploma graduates should be able to assist in the start-up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems.

**ASSOCIATE IN ARTS (A10100)
AND
ASSOCIATE IN SCIENCE (A10400)
College Transfer Degrees**

The Associate in Arts (A.A.) and Associate in Science (A.S.) programs provide students with the first two years of a four-year baccalaureate degree. The A.A. offers an excellent foundation for degrees in education, humanities, fine arts, languages, and social and behavioral sciences. The A.S. offers an excellent foundation for degrees in engineering, computer science, mathematics, and the natural sciences.

A student completing either degree with a grade of "C" or better in every course is assured of admission into one of the 16 universities in the University of North Carolina system, usually transferring in with junior ranking. (Admission into a particular university, program, or major is not guaranteed.) Even if a student elects not to transfer, an A.A. or A.S. degree improves job marketability.

Students in the A.A. or A.S. program who wish to transfer on a faster timetable may complete the 44-hour general education core to earn a Transfer Core Diploma. Although the diploma is not a degree and does not assure admission into the UNC system, a student who completes the diploma with a grade of "C" or better in every course will have met all general education requirements for any university in the system, and upon admission will likely be ranked as a sophomore.

The core courses are selected from the following categories:

Associate of Arts Core

6 credits English
12 credits Humanities/Fine Arts
12 credits Social/Behavioral Sciences
6 credits Mathematics
8 credits Natural Sciences

Associate of Science Core

6 credits English
9 credits Humanities/Fine Arts
9 credits Social/Behavioral Sciences
20 credits Math/Natural Sciences*
(*includes at least 6 credits in Math and at least 8 credits in Natural Sciences)

Applicants to the A.A. or A.S. program are required to complete pre-admission testing. Students with a verbal score of at least 500 and a math score of at least 500 on the Scholastic Aptitude Test (SAT) are exempt from further testing. All others must take a placement test to determine their reading, writing, and mathematics proficiency. Students must place into ENG 111 (Expository Writing) for admission into either program. Prospective students who need remediation in one or more areas will be placed in appropriate developmental studies courses designed to give them the best opportunity for success in subsequent college courses. Developmental courses do not count toward the overall degree credit requirements.

The lists of courses approved for the two degrees and for the 44-hour core diplomas are on the following pages. Not all courses are offered every semester.

ASSOCIATE IN GENERAL EDUCATION
(A10300)
Degree

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education with emphasis on personal interest, growth and development.

Course work includes study in the areas of humanities and fine arts, social and behavioral sciences, natural sciences and mathematics, and English composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided.

Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancements within their field of interest and become better qualified for a wide range of employment opportunities.

Students interested in this program must see the Dean of Arts & Sciences for enrollment requirements.

COURSE AND HOUR REQUIREMENTS

Credit Hours

I. GENERAL EDUCATION COURSES

Communications:	6
ENG 111 Expository Writing	
ENG 114 Professional Research & Reporting	
Humanities/Fine Arts:	3
Select from courses in art, humanities, literature, music, philosophy, and religion	
Natural Sciences/Mathematics:	3
Select from courses in biology, chemistry, geology, physics, and mathematics	
Social/Behavioral Science:	3
Select from courses in economics, history, political science, psychology, and sociology	

II. MINIMUM MAJOR HOURS

Computer/Information Systems:	2
CIS 111 Basic PC Literacy	
Major Electives:	47
Select from associate degree level courses in English/communications, humanities/fine arts, social/behavioral sciences, and natural sciences/mathematics, or any specialty courses as selected by the student and approved by the student's advisor.	

TOTAL SEMESTER HOURS REQUIRED FOR A.G.E. DEGREE: 64

**ASSOCIATE IN GENERAL EDUCATION
GENERAL SCIENCE
(A10300S)
Degree**

The Associate in General Education (AGE) curriculum is designed for individuals wishing to broaden their education, with emphasis on personal interest, growth, and development. The two-year General Education program provides students opportunities to study English, literature, fine arts, philosophy, social science, science, and mathematics at the college level. Many of the courses are equivalent to college transfer courses; however, the program is not principally designed for college transfer. **The A.G.E. - General Science option is specifically designed for students who are attempting to enter a competitive health or science program and who need courses to improve their chances of admission or who have exited such a program and wish to complete an associate degree.** *Completion of this program does not guarantee admission to any other academic program.*

ASSOCIATE DEGREE NURSING (INTEGRATED)

(A45110)

Associate in Applied Science Degree

The Associate Degree Nursing curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

Mission Statement: The Associate Degree Nursing Program supports the mission of the North Carolina Community College System and the mission of Vance Granville Community College. The faculty is committed to providing accessible high quality nursing education to meet the diverse and changing healthcare needs of the service area and to promoting the development of qualified students prepared for the professional role of registered nurse at the entry level.

AUTOMOTIVE SYSTEMS TECHNOLOGY

(A60160)

Associate in Applied Science Degree

The Automotive Systems Technology curriculum prepares individuals for employment as Automotive Service Technicians. It provides an introduction to automotive careers and increases student awareness of the challenges associated with this fast and ever-changing field.

Classroom and lab experiences integrate technical and academic coursework. Emphasis is placed on theory, servicing and operation of brakes, electrical/electronic systems, engine performance, steering/suspension, automatic transmission/transaxles, engine repair, climate control and manual drive trains.

The Automotive Systems Technology Program is an Automotive Service Excellence (ASE) Certified program under the standards set by the National Automotive Technicians Education Foundation (NATEF). This certification provides a means of identifying quality programs meeting national standards. Students are assured that training received is current, complete and applicable.

Upon completion of this curriculum, students should be prepared to take the ASE exam and be ready for full-time employment in dealerships and repair shops in the automotive service industry.

BASIC LAW ENFORCEMENT TRAINING

(C55120)

Certificate

Basic Law Enforcement Training (BLET) is designed to give students essential skills required for entry-level employment as law enforcement officers with state, county, or municipal governments, or with private enterprise.

This program utilizes State commission-mandated topics and methods of instruction. General subjects include, but are not limited to, criminal, juvenile, civil, traffic, and alcoholic beverage laws; investigative, patrol, custody, and court procedures; emergency responses; and ethics and community relations.

Students must successfully complete and pass all units of study which include the certification examination mandated by the North Carolina Criminal Justice Education and Training Standards Commission and the North Carolina Sheriffs' Education and Training Standards Commission to receive a certificate.

This course covers the basic skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics are divided into general units of study: legal, patrol duties, law enforcement communications, investigation, practical application and sheriff-specific. Upon completion, students should be able to demonstrate competence in the topics and areas required for the state comprehensive examination. This is a certificate-level course.

Students successfully completing a Basic Law Enforcement Training course accredited by the North Carolina Criminal Justice Education and Training Standards Commission and the North Carolina Sheriffs' Education and Training Standards Commission can receive up to 16 credit hours toward the Associate in Applied Science degree in Criminal Justice Technology. Students must have successfully passed the Commissions' comprehensive certification examination. Students must have completed Basic Law Enforcement Training since 1985. This course is governed by the North Carolina Administrative Code, Title 12, VGCC's BLET Academy Rules and Regulations, in addition to the Student Code of Conduct in this catalog.

BIOPROCESS TECHNOLOGY

(A50440)

Associate in Applied Science Degree

The Bioprocess Technology curriculum is designed to prepare individuals to work as Process Operators in biological products manufacturing facilities. Students will combine basic science and communication skills, manufacturing technologies, and good manufacturing practices in the course of study.

Students will be expected to develop a strong basic science foundation with a sound understanding of the major technologies employed by the industry. They will also be expected to develop collaborative and disciplined work ethics while consistently practicing problem-solving skills.

Upon successful completion of the program, individuals should possess the necessary skills to qualify for employment in a variety of Bioprocessing industries.

BUSINESS ADMINISTRATION

(A25120)

Associate in Applied Science Degree

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today's global economy.

Course work includes business concepts such as accounting, business law, economics, management and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making.

Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in government agencies, financial institutions and large to small business or industry.

CARPENTRY

(D35180)

Diploma

This Carpentry curriculum is designed to train students to construct residential structures using standard building materials and hand and power tools. Carpentry skills and a general knowledge of residential construction will also be taught.

Course work includes footings and foundations, framing, interior and exterior trim, cabinetry, blueprint reading, residential planning and estimating and other related topics. Students will develop skills through hands-on participation.

Graduates should qualify for employment in the residential building construction field as rough carpenters, framing carpenters, roofers, maintenance carpenters, and other related job titles.

COMPUTER INFORMATION TECHNOLOGY

(A25260)

Associate in Applied Science Degree

The Computer Information Technology curriculum is designed to prepare graduates for employment with organizations that use computers to process, manage, and communicate information. This is a flexible curriculum that can be customized to meet community information systems needs.

Course work will develop a student's ability to communicate complex technical issues related to computer hardware, software, and networks in a manner that computer users can understand. Classes cover computer operations and terminology, operating systems, database, networking, security, and technical support.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to manage information. Graduates should be prepared to sit for industry-recognized certification exams.

COMPUTED TOMOGRAPHY & MAGNETIC RESONANCE IMAGING TECHNOLOGY

(D45200)

Diploma

The Computed Tomography and Magnetic Resonance Imaging Technology curriculum prepares the individual to use specialized equipment to visualize cross-sectional anatomical structures and aid physicians in the demonstration of pathologies and disease processes. Individuals entering this curriculum must be registered or registry-eligible radiologic technologist, radiation therapist, or nuclear medicine technologist.

Course work prepares the technologist to provide patient care and perform studies utilizing imaging equipment, professional communication, and quality assurance in scheduled and emergency procedures through academic and clinical studies.

Graduates may be eligible to sit for the American Registry of Radiologic Technologist Advanced-Level testing in Computed Tomography and/or Magnetic Resonance Imaging examinations. They may find employment in facilities which perform these imaging procedures.

This program is offered in collaboration with Edgecombe Community College, Johnston Community College, and Vance-Granville Community College.

COSMETOLOGY

(D55140)

Diploma

The Cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge and other selected topics.

Graduates should qualify to sit for the North Carolina Board of Cosmetic Art Examiners. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in beauty salons, and related businesses.

COSMETOLOGY INSTRUCTOR

(C55160)

Certificate

The Cosmetology Instructor curriculum provides a course of study for learning the skills needed to teach the theory and practice of cosmetology as required by the North Carolina Board of Cosmetic Art Examiners.

Course work includes requirements for becoming an instructor, introduction to teaching theory, methods and aids, practice teaching, and development of evaluation instruments.

Graduates of the program may be employed as cosmetology instructors in public or private education and business.

Enrollment in this program is restricted in accordance with regulations set forth by the North Carolina Board of Cosmetic Art Examiners.

CRIMINAL JUSTICE TECHNOLOGY

(A55180)

Associate in Applied Science Degree

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial processes, corrections and security services. The criminal justice system's role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics and community relations. Additional study may include issues and concepts of government, counseling, communications, computers and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

For employability reasons, the Criminal Justice Technology program recommends that students entering the Criminal Justice Technology program are U.S. citizens and have not committed or been convicted of any felony, and have not committed or been convicted of four or more crimes defined as Class A or B misdemeanors.

CULINARY ARTS

(A55150)

Associate in Applied Science Degree

The Culinary Arts curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of foodservice settings including full service restaurants, hotels, resorts, clubs, catering operations, contract foodservice, and health care facilities.

Students will be provided theoretical knowledge/practical applications that provide critical competencies to meet industry demands, including environmental stewardship, operational efficiencies and professionalism. Courses include sanitation/safety, baking, garde manger, culinary fundamentals/production skills, nutrition, customer service, purchasing/cost control, and human resource management.

Graduates should qualify for entry-level opportunities including prep cook, line cook, and station chef.

American Culinary Federation certification is available to graduates. With experience, graduates may advance to positions including sous chef, pastry chef, executive chef, or foodservice manager.

EARLY CHILDHOOD EDUCATION

(A55220)

Associate in Applied Science Degree

The Early Childhood Education curriculum prepares individuals to work with children from birth through eight in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs of children; care and guidance of children; and communication skills with families and children. Students will foster the cognitive/language, physical/motor, social/emotional and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs; preschools; public and private schools; recreational centers; Head Start Programs; and school-age programs.

ELECTRICAL/ELECTRONICS TECHNOLOGY

(D35220)

Diploma

The Electrical/Electronics Technology curriculum is designed to provide training for persons interested in the installation and maintenance of electrical/electronic systems found in residential, commercial, and industrial facilities.

Course work, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, electronics, programmable logic controllers, industrial motor controls, applications of the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical/electronic field as an on-the-job trainee or apprentice, assisting in the layout, installation and maintenance of electrical/electronic systems.

ELECTRONICS ENGINEERING TECHNOLOGY

(A40200)

Associate in Applied Science Degree

The Electronics Engineering Technology curriculum prepares individuals to become technicians who design, build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, communication systems, and power electronic systems.

A broad-based core of courses, including basic electricity, solid-state fundamentals, digital concepts, and microprocessors, ensures the student will develop the skills necessary to perform entry-level tasks. Emphasis is placed on developing the student's ability to analyze and troubleshoot electronic systems.

Graduates should qualify for employment as engineering assistants or electronic technicians with job titles such as electronics engineering technician, field service technician, instrumentation technician, maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.

ENTREPRENEURSHIP

(A25490)

Associate in Applied Science Degree

The Entrepreneurship curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth as self-employed business owners.

Course work includes developing a student's ability to make informed decisions as future business owners. Courses include entrepreneurial concepts learned in innovation and creativity, business funding, and marketing. Additional course work includes computers and economics.

Through these skills, students will have a sound education base in entrepreneurship for lifelong learning. Graduates are prepared to be self-employed and open their own businesses.

GENERAL OCCUPATIONAL TECHNOLOGY

(A55280)

Associate in Applied Science Degree

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade skills and to earn an associate degree, diploma, and/or certificate by taking courses suited for individual occupational interests and/or needs.

The curriculum content will be customized for students according to occupational interests and needs. A program of study for each student will be selected from any non-developmental level courses (100-189, or 200-289) offered by the College.

Graduates will become more effective workers, better qualified for advancements with their field of employment, and become qualified for a wide range of entry-level employment opportunities.

All courses must be taken from approved AAS programs and students interested in this program must see the Dean of Business and Applied Technologies for enrollment details.

GLOBAL LOGISTICS TECHNOLOGY

(A25170)

Associate in Applied Science Degree

The Global Logistics Technology curriculum prepares individuals for a multitude of career opportunities in distribution, transportation and manufacturing organizations. Classroom instruction, field of study experiences and practical laboratory applications of logistics management and global technology capabilities are included in the program of study.

Course work includes computer applications, accounting, business law, economics, management, industrial sciences, and international studies. Students will solve different levels of logistics-related problems through case study evaluations and supply chain projects utilizing logistical hardware and intelligent software tools.

Graduates should qualify for positions in a wide range of government agencies, manufacturing and service organizations. Employment opportunities include entry-level purchasing, material management, warehousing, inventory, transportation coordinators, and logistics analysts. Upon completion, graduates may be eligible for certification credentials through APICS and AST&L.

HUMAN SERVICES TECHNOLOGY

(A45380)

Associate in Applied Science Degree

The Human Services Technology Curriculum prepares students for entry-level positions in institutions and agencies which provide social, community, and educational services. Along with core courses, students take courses which prepare them for specialization in specific human service areas.

Students will take courses from a variety of disciplines. Emphasis in core courses is placed on development of relevant knowledge, skills, and attitudes in human services. Fieldwork experience will provide opportunities for application of knowledge and skills learned in the classroom.

Graduates should qualify for positions in mental health, child care, family services, social services, rehabilitation, correction, and educational agencies. Graduates choosing to continue their education may select from a variety of transfer programs at senior public and private institutions.

HUMAN SERVICES TECHNOLOGY/ MENTAL HEALTH

(A4538C)

Associate in Applied Science Degree

The Human Services Technology/Mental Health concentration prepares students for job opportunities in the mental health field. The curriculum enables students to understand culturally and emotionally handicapped, developmentally disabled, or addicted clients through a variety of models and diagnoses.

Course work includes a history of the mental health movement, current developments and future trends, and theoretical models affecting individual development and behavior in a diverse client population. Fieldwork experiences provide opportunities for application of knowledge in agency and institutional settings.

Graduates should qualify for employment in mental health treatment centers serving a diverse multicultural client population in public and private settings. Graduates will work with individuals, families, groups, organizations, and communities in providing a therapeutic arena of care.

HUMAN SERVICES TECHNOLOGY/ SUBSTANCE ABUSE

(A4538E)

Associate in Applied Science Degree

The Human Services Technology/Substance Abuse concentration prepares students to assist in drug and alcohol counseling, prevention-oriented educational activities, rehabilitation with recovering clients, managing community-based programs, counseling in residential facilities, and pursuit of four-year degrees.

Course work includes classroom and experiential activities oriented toward an overview of chemical dependency, psychological/sociological process, the twelve Core Functions, intervention techniques with individuals in groups, and follow-up activities with recovering clients.

Graduates should qualify for positions as substance abuse counselors, DUI counselors, halfway house workers, residential facility employees, and substance education specialists. With educational and clinical experiences, graduates can obtain certification by the North Carolina Substance Abuse Professional Practice Board.

INFANT/TODDLER CARE

(C55290)

Certificate

The curriculum prepares individuals to work with children from infancy to three years of age in diverse learning environments. Students will combine learned theories, competency-based knowledge, and practice in actual settings with infants and toddlers.

Course work includes infant/toddler growth and development; physical/nutritional needs of infants and toddlers; safety issues in the care of infants and toddlers; care and guidance; communication skills with families and children; design an implementation of appropriate curriculum; and other related topics.

Graduates should be prepared to plan and implement developmentally appropriate infant/toddler programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Early Head Start Programs, and other infant/toddler programs.

INFORMATION SYSTEMS SECURITY

(A25270)

Associate in Applied Science Degree

Information Systems Security covers a broad expanse of technology concepts. This curriculum provides individuals with the skills required to implement effective and comprehensive information security controls.

Course work includes networking technologies, operating systems administration, information policy, intrusion detection, security administration, and industry best practices to protect data communications.

Graduates should be prepared for employment as security administrators. Additionally, they will acquire the skills that allow them to pursue security certifications.

LATERAL ENTRY

(C55430)

Certificate

The Lateral Entry curriculum, provides a course of study leading to the development of the general pedagogy competencies needed to become certified to teach by the North Carolina Department of Public Instruction.

Course work includes human growth and development, learning theory, instructional technology, school policies and procedures, home, school, and community collaborations, and classroom organization and management to enhance learning. Courses offered by partnering senior institutions include instructional methods, literacy and diversity.

Graduates should meet the general pedagogy competencies within the first three years of teaching, including a minimum of six semester hours per school year. Additional requirements, such as pre-service training and passing the PRAXIS, are required for licensure.

For further information go to Regional Alternative Licensing Centers website at www.ralc.ccs.k12.nc.us.

MEDICAL ASSISTING

(A45400)

Associate in Applied Science Degree

The Medical Assisting curriculum prepares multi-skilled health care professionals qualified to perform administrative, clinical, and laboratory procedures.

Course work includes instruction in scheduling appointments, coding and processing insurance accounts, billing, collections, medical transcription, computer operations; assisting with examinations/treatments, performing routine laboratory procedures, electrocardiography, supervised medication administration; and ethical/legal issues associated with patient care.

Graduates of CAAHEP-accredited medical assisting programs may be eligible to sit for the American Association of Medical Assistants' Certification Examination to become Certified Medical Assistants. Employment opportunities include physicians' offices, health maintenance organizations, health departments, and hospitals.

NETWORKING TECHNOLOGY

(A25340)

Associate in Applied Science Degree

The Networking Technology curriculum prepares individuals for employment supporting network infrastructure environments. Students will learn how to use technologies to provide reliable transmission and delivery of data, voice, image, and video communications in business, industry, and education.

Course work includes design, installation, configuration, and management of network infrastructure technologies and network operating systems. Emphasis is placed on the implementation and management of network software and the implementation and management of hardware such as switches and routers.

Graduates may find employment in entry-level jobs as local area network managers, network operators, network analysts, and network technicians. Graduates may also be qualified to take certification examinations for various network industry certifications, depending on their local program.

OFFICE ADMINISTRATION

(A25370)

Associate in Applied Science Degree

The Office Administration curriculum prepares individuals for positions in administrative support careers. It equips office professionals to respond to the demands of a dynamic computerized workplace.

Students will complete courses designed to develop proficiency in the use of integrated software, oral and written communication, analysis and coordination of office duties and systems, and other support topics. Emphasis is placed on non-technical as well as technical skills.

Graduates should qualify for employment in a variety of positions in business, government, and industry. Job classifications range from entry-level to supervisor to middle management.

OFFICE ADMINISTRATION/ LEGAL

(A2537A)

Associate in Applied Science Degree

Legal is a concentration under the curriculum title of Office Administration. This curriculum prepares individuals for entry-level positions in legal or government-related offices and provides professional development for the currently employed.

Course work includes terminology, operational procedures, preparation and transcription of documents, computer software, and court-related functions as they relate to the legal office profession. Emphasis is placed on the development of accuracy, organizational skills, discretion, and professionalism.

Graduates should qualify for employment in corporate legal departments; private practices, including real estate and estate planning; and city, state, and federal government offices. With appropriate work experience, graduates may apply for certification as a Professional Legal Secretary (PLS).

PHARMACY TECHNOLOGY

(D45580)

Diploma

The Pharmacy Technology Program prepares individuals to assist the pharmacist in duties that a technician can legally perform and to function within the boundaries prescribed by the pharmacist and the employment agency.

Students will prepare prescription medications, mix intravenous solutions and other specialized medications, update patient profiles, maintain inventories, package medications in unit-dose or med-card form, and gather data used by pharmacists to monitor drug therapy.

Employment opportunities include retail, hospitals, nursing homes, research laboratories, wholesale drug companies, and pharmaceutical manufacturing facilities. Graduates from the program may be eligible to take the National Certification Examination to become a certified pharmacy technician.

PRACTICAL NURSING

(D45660)

Diploma

The Practical Nursing curriculum prepares individuals with the knowledge and skills to provide nursing care to children and adults.

Students will participate in assessment, planning, implementing, and evaluating nursing care.

Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-PN) which is required for practice as a Licensed Practical Nurse. Employment opportunities include hospitals, rehabilitation/long term care/home health facilities, clinics, and physicians' offices.

Mission Statement: The nursing faculty of Vance-Granville Community College, in support of the philosophy, purpose, and objectives of the College, believes that it is the purpose of this program to produce advanced beginning practitioners (Benner, 2001, p.22) for entry level practice in the practical nurse role. Practical Nursing education prepares graduates to assume the roles of provider of care and member within the discipline of nursing.

RADIOGRAPHY

(A45700)

Associate in Applied Science Degree

The Radiography curriculum prepares the graduate to be a radiographer, a skilled health care professional who uses radiation to produce images of the human body.

Course work includes clinical rotations to area health care facilities, radiographic exposure, image processing, radiographic procedures, physics, pathology, patient care and management, radiation protection, quality assurance, anatomy and physiology, and radiobiology.

Graduates of accredited programs are eligible to apply to take the American Registry of Radiologic Technologists' national examination for certification and registration as medical radiographers. Graduates may be employed in hospitals, clinics, physicians' offices, medical laboratories, government agencies, and industry.

Mission Statement: The Radiography Program at Vance-Granville Community College seeks to provide students with the knowledge necessary to make critical thinking decisions, to work together as a team member in the healthcare field, to present themselves in a professional manner, to pass the American Registry of Radiologic Technologist National examination, and to obtain entry-level employment in the field of Radiography through didactic and clinical experiences.

SCHOOL-AGE CARE

(C55450)

Certificate

The School-Age certificate curriculum prepares individuals to work with school-age children in diverse learning environments. The curriculum is specifically designed for students planning to work in public or private school-age care.

Course work includes child growth/development; physical/nutritional needs of school-age children; care and guidance of school-age children; and communication skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of school-age populations.

Graduates are prepared to plan and implement developmentally appropriate activities in school-age environments. Employment opportunities include school-age teaching or school-age administration positions in child care/development programs, group leaders, before and after school programs, recreational centers and other programs that work with school-age populations.

SCHOOL-AGE EDUCATION

(A55440)

Associate in Applied Science Degree

This curriculum prepares individuals to work with children in elementary through middle grades in diverse learning environments. Students will combine learned theories with practice in actual settings with school-age children under the supervision of qualified teachers.

Course work includes child growth/development; computer technology in education; physical/nutritional needs of school-age children; care and guidance of school-age children; and communication skills with families and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of school-age populations.

Graduates are prepared to plan and implement developmentally appropriate programs in school-aged environments. Employment opportunities include school-age teachers in child care programs, before/after-school programs, paraprofessional positions in public/private schools, recreational centers, and other programs that work with school-age populations.

SUSTAINABILITY TECHNOLOGIES

(C40370S)

Certificate

The Sustainability Technologies curriculum is designed to prepare individuals for employment in environmental, construction, alternative energy, manufacturing, or related industries, where key emphasis is placed on energy production and waste reduction along with sustainable technologies.

Course work may include alternative energy, environmental engineering technology, sustainable manufacturing, and green building technology. Additional topics may include sustainability, energy management, waste reduction, renewable energy, site assessment, and environmental responsibility.

Graduates should qualify for positions within the alternative energy, construction, environmental, and/or manufacturing industries. Employment opportunities exist in both the government and private industry sectors where graduates may function as manufacturing technicians, sustainability consultants, environmental technicians, or green building supervisors.

WEB TECHNOLOGIES

(A25290)

Associate in Applied Science Degree

The Web Technologies curriculum prepares graduates for careers in the information technology arena using computers and mobile devices to disseminate and collect information via the Internet.

Course work in this program covers the terminology and use of computers, Internet-ready devices, servers, databases, programming languages, as well as Internet applications, site development and design. Studies will provide opportunity for students to learn related industry standards.

Graduates should qualify for career opportunities as designers, administrators, or developers in the areas of Internet and mobile applications, websites, web services, and related areas of Internet technologies.

WELDING TECHNOLOGY

(D50420)

Diploma

The Welding Technology curriculum provides students a sound understanding of the science, technology, and applications essential for successful employment in the welding and metal industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses in math, blueprint reading, metallurgy, welding inspection, and destructive and non-destructive testing provides the student with industry-standard skills developed through classroom training and practical application.

Successful graduates of the Welding Technology curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self employment.

**CURRICULUM
COURSE DESCRIPTIONS**

The following section contains descriptions of courses offered by Vance-Granville Community College.

The following example explains each component of the course description.

<u>1</u>	ACC 120 Principles of Financial Accounting	3	<u>2</u>	2 0 4
3	Prerequisites: Local, Take 1 group: Group A: DMA-010;020;030, ENG-090, RED-090 Group B: DMA-010;020;030, ENG-095, ENG-095A Corequisites: None			

4 Course Offering Availability: Fall

5

This course introduces business decision-making accounting information systems. Emphasis is placed on analyzing, summarizing, reporting and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making and address ethical considerations. *This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).*

1 -- Course prefix, course number, course title

2 -- Number of hours in class, lab, work experience/clinical each week and the number of hours the course is worth upon successful completion.

3 -- Prerequisites: Course or courses that must be successfully completed prior to registering for this course.

Corequisites: Course or courses that must be completed before or taken at the same time of this course.

4 -- Course Offering Availability per semester:
 Ex. Fall, Spring,, Summer, or at discretion of Dean

5 -- Course description: What the course is about and what you can expect to learn from the course.

**NCCCS Crosswalk Between MAT-060, 070, and 080 and DMA 010 through DMA-080
 Standard Crosswalk:**

- MAT-060 = DMA 010, DMA 020, DMA 030
- MAT-070 = DMA 040, DMA 050
- MAT-080 = DMA 060, DMA 070, DMA 080

CAA: stands for Comprehensive Articulation Agreement

ICAA: stands for Independent Comprehensive Articulation Agreement

VLC: stands for Virtual Learning Community

Course No.	Title	Class	Lab	Work Exp/		Credit
				Clinical		
ACA 085	Improving Study Skills	0	2	0	1	
Prerequisites: None Corequisites: None Course Offering Availability: Fall, Spring, Summer This course is designed to improve academic study skills and introduce resources that will complement developmental courses and engender success in college-level courses . Topics include basic study skills, memory techniques, note-taking strategies, test-taking techniques, library skills, personal improvement strategies, goal-setting, and learning resources. Upon completion, students should be able to apply techniques learned to improve performance in college-level classes						
ACA 090	Study Skills	3	0	0	3	
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/ENG 095A Corequisites: None Course Offering Availability: Fall, Spring This course is intended for those who placed into credit-level course work but who are not maintaining satisfactory academic progress toward meeting program goals. Topics include study skills, note taking, learning styles and strategies, test taking, goal setting, and self-assessment skills. Upon completion, students should be able to manage their learning experiences to successfully meet educational goals. <i>This course is also available through the Virtual Learning Community (VLC).</i>						
ACA 111	College Student Success	1	0	0	1	
Prerequisites: None Corequisites: None Course Offering Availability: Fall, Spring, Summer This course introduces the college's physical, academic, and social environment and promotes the personal development essential for success. Topics include campus facilities and resources; policies, procedures, and programs; study skills; and life management issues such as health, self-esteem, motivation, goal-setting, diversity, and communication. Upon completion, students should be able to function effectively within the college environment to meet their educational objectives. <i>This course is also available through the Virtual Learning Community (VLC).</i>						
ACA 112	Intro to Distance Learning	0	2	0	1	
Prerequisites: None Corequisites: None Course Offering Availability: Fall, Spring This course introduces the college's distance learning virtual, physical, academic, and global environments and develops skills and knowledge for successful distance learning. Topics include distance FAQs, course enrollment, study resources, learning formats, study completion tips, vocabulary and terminology, useful forms and guides, student logins, and online tutorials. Upon completion, students should be able to function effectively as learners in community college distance education environments						

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ACA 115	Success & Study Skills	0	2	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course provides an orientation to the campus resources and academic skills necessary to achieve educational objectives. Emphasis is placed on an exploration of facilities and services, study skills, library skills, self-assessment, wellness, goal-setting, and critical thinking. Upon completion, students should be able to manage their learning experiences to successfully meet educational goals. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
ACA 122	College Transfer Success	1	0	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course provides information and strategies necessary to develop clear academic and professional goals beyond the community college experience. Topics include the CAA, college culture, career exploration, gathering information on senior institutions, strategic planning, critical thinking, and communications skills for a successful academic transition. Upon completion, students should be able to develop an academic plan to transition successfully to senior institutions. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
ACC 120	Principles of Financial Accounting	3	2	0	4
Prerequisites: Local, Take 1 group					
Group A: DMA 010;020;030, ENG 090, RED 090					
Group B: DMA 010;020;030, ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course introduces business decision-making accounting information systems. Emphasis is placed on analyzing, summarizing, reporting and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making and address ethical considerations. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					
ACC 121	Principles of Managerial Accounting	3	2	0	4
Prerequisites: State, ACC 120					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course includes a greater emphasis on managerial and cost accounting skills. Emphasis is placed on managerial accounting concepts for external and internal analysis, reporting and decision-making. Upon completion, students should be able to analyze and interpret transactions relating to managerial concepts, including product-costing systems. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ACC 129	Individual Income Taxes	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the relevant laws governing individual income taxation. Topics include tax law, electronic research and methodologies, and the use of technology for preparation of individual income tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various individual tax forms. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
ACC 130	Business Income Taxes	2	2	0	3
Prerequisites: Local, ACC 129					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the relevant laws governing business and fiduciary income taxes. Topics include tax law relating to business organizations, electronic research and methodologies, and the use of technology for the preparation of business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various business tax forms. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
ACC 140	Payroll Accounting	1	2	0	2
Prerequisites: State, ACC 120					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course covers federal and state laws pertaining to wages, payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income, and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computations, complete forms, and prepare accounting entries using appropriate technology. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
ACC 150	Accounting Software Application	1	2	0	2
Prerequisites: State, ACC 120					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course introduces microcomputer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting package to solve accounting problems. <i>This course is also available through the Virtual Learning Community (VLC).</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ACC 220	Intermediate Accounting I	3	2	0	4
Prerequisites: State, ACC 120; Local, ACC 121					
Corequisites: None					
Course Offering Availability: Fall					
This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and financial statements. Topics include generally accepted accounting principles and extensive analysis of balance sheet components. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
ACC 221	Intermediate Accounting II	3	2	0	4
Prerequisites: State, ACC 220					
Corequisites: None					
Course Offering Availability: Spring					
This course is a continuation of ACC 220. Emphasis is placed on special problems which may include leases, bonds, investments, ratio analyses, present value applications, accounting changes, and corrections. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.					
ACC 225	Cost Accounting	3	0	0	3
Prerequisites: State, ACC 121					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course introduces the nature and purposes of cost accounting as an information system for planning and control. Topics include direct materials, direct labor, factory overhead, process, job order, and standard cost systems. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
ACC 269	Audit & Assurance Services	3	0	0	3
Prerequisites: State, ACC 220					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces selected topics pertaining to the objectives, theory and practices in engagements providing auditing and other assurance services. Topics include planning, conducting and reporting, with emphasis on the related professional ethics and standards. Upon completion, students should be able to demonstrate an understanding of the types of professional services, the related professional standards, and engagement methodology.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
AHR 110	Introduction to Refrigeration	2	6	0	5
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade.					
AHR 111	HVACR Electricity	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.					
AHR 112	Heating Technology	2	4	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the fundamentals of heating including oil, gas, and electric heating systems. Topics include safety, tools and instrumentation, system operating characteristics, installation techniques, efficiency testing, electrical power, and control systems. Upon completion, students should be able to explain the basic oil, gas, and electrical heating systems and describe the major components of a heating system.					
AHR 113	Comfort Cooling	2	4	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the installation procedures, system operations, and maintenance of residential and light commercial comfort cooling systems. Topics include terminology, component operation, and testing and repair of equipment used to control and produce assured comfort levels. Upon completion, students should be able to use psychrometrics, manufacturer specifications, and test instruments to determine proper system operation.					
AHR 114	Heat Pump Technology	2	4	0	4
Prerequisites: State, AHR 110 or AHR 113					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the principles of air source and water source heat pumps. Emphasis is placed on safety, modes of operation, defrost systems, refrigerant charging, and system performance. Upon completion, students should be able to understand and analyze system performance and perform routine service procedures.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
AHR 115	Refrigeration Systems	1	3	0	2
Prerequisites: State, AHR 110					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces refrigeration systems and applications. Topics include defrost methods, safety and operational control, refrigerant piping, refrigerant recovery and charging, and leak testing. Upon completion, students should be able to assist in installing and testing refrigeration systems and perform simple repairs.					
AHR 130	HVAC Controls	2	2	0	3
Prerequisites: State, AHR 111					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the types of controls found in residential and commercial comfort systems. Topics include electrical and electronic controls, control schematics and diagrams, test instruments, and analysis and troubleshooting of electrical systems. Upon completion, students should be able to diagnose and repair common residential and commercial comfort system controls.					
AHR 133	HVAC Servicing	2	6	0	4
Prerequisites: None					
Corequisites: State, AHR 112 or AHR 113					
Course Offering Availability: Summer					
The course covers the maintenance and servicing of HVAC equipment. Topics include testing, adjusting, maintaining, and troubleshooting HVAC equipment and record keeping. Upon completion, students should be able to adjust, maintain, and service HVAC equipment.					
AHR 160	Refrigerant Certification	1	0	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the requirements for the EPA certification examinations. Topics include small appliances, high pressure systems, and low pressure systems. Upon completion, students should be able to demonstrate knowledge of refrigerants and be prepared for the EPA certification examinations.					
AHR 180	HVACR Customer Relations	1	0	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Summer					
This course introduces common business and customer relation practices that may be encountered in HVACR. Topics include business practices, appearance of self and vehicle, ways of handling customer complaints, invoices, telephone communications, and warranties. Upon completion, students should be able to present themselves to customers in a professional manner, understand how the business operates, complete invoices, and handle complaints.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
AHR 211	Residential System Design	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the principles and concepts of conventional residential heating and cooling system design. Topics include heating and cooling load estimating, basic psychrometrics, equipment selection, duct system selection, and system design. Upon completion, students should be able to design a basic residential heating and cooling system.					
ALT 120	Renewable Energy Tech	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course provides an introduction to multiple technologies that allow for the production and conservation of energy from renewable sources. Topics include hydro-electric, wind power, passive and active solar energy, tidal energy, appropriate building techniques, and energy conservation methods. Upon completion, students should be able to demonstrate an understanding of renewable energy production and its impact on humans and their environment.					
ALT 220	Photovoltaic Sys Tech	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the concepts, tools, techniques, and materials needed to understand systems that convert solar energy into electricity with photovoltaic (pv) technologies. Topics include site analysis for system integration, building codes, and advances in photovoltaic technology. Upon completion, students should be able to demonstrate an understanding of the principles of photovoltaic technology and current applications					
ANT 210	General Anthropology	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces the physical, archaeological, linguistic, and ethnological fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences. This course is also available through the Virtual Learning Community (VLC).</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ANT 220	Cultural Anthropology	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
This course introduces the nature of human culture. Emphasis is placed on cultural theory, methods of fieldwork, and cross-cultural comparisons in the areas of ethnology, language, and the cultural past. Upon completion, students should be able to demonstrate an understanding of basic cultural processes and how cultural data are collected and analyzed. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.</i>					
ART 111	Art Appreciation	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Fall, Spring				
This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts. This course is also available through the Virtual Learning Community (VLC).</i>					
ART 114	Art History Survey I	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts. This course is also available through the Virtual Learning Community (VLC).</i>					
ART 115	Art History Survey II	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts. This course is also available through the Virtual Learning Community (VLC).</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ART 131	Drawing I	0	6	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic form and various drawing processes. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					
ART 240	Painting I	0	6	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the language of painting and the use of various painting materials. Emphasis is placed on the understanding and use of various painting techniques, media, and color principles. Upon completion, students should be able to demonstrate competence in the use of creative processes directed toward the development of expressive form. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					
ATR 280	Robotic Fundamentals	3	2	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers application, programming, and maintenance fundamentals for robotic devices. Emphasis is placed on terminology, problem solving, robotic systems controls, and hands-on projects. Upon completion, students should be able to apply basic concepts in application, programming, and robotic control systems.					
AUT 110	Intro to Auto Technology	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers workplace safety, hazardous material and environmental regulations, use of hand tools, service information resources, basic concepts, systems, and terms of automotive technology. Topics include familiarization with vehicle systems along with identification and proper use of various automotive hand and power tools. Upon completion, students should be able to describe safety and environmental procedures, terms associated with automobiles, identify and use basic tools and shop equipment.					
AUT 114	Safety and Emissions	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the laws, procedures, and specifications needed to perform a North Carolina State Safety and Emissions inspection. Topics include brake, steering and suspension, lighting, horn, windshield wiper, tire, mirrors, and emission control devices inspection. Upon completion, students should be able to perform complete and thorough North Carolina State Safety and Emissions inspections.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
AUT 116	Engine Repair	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.					
AUT 116A	Engine Repair Lab	0	3	0	1
Prerequisites: None					
Corequisites: State, AUT 116					
Course Offering Availability: Fall					
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.					
AUT 123	Powertrain Diagn & Serv	1	3	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the diagnosis, repair and service of the vehicle powertrain and related systems. Topics include fundamental operating principles of engines and transmissions and use of proper service procedures for diagnosis, service and removal and replacement of major components. Upon completion, students should be able to perform basic service and diagnosis of the powertrain and related systems, and to perform in vehicle repairs and remove and replace components.					
AUT 141	Suspension & Steering Systems	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.					
AUT 141A	Suspension & Steering Lab	0	3	0	1
Prerequisites: None					
Corequisites: State, AUT 141					
Course Offering Availability: Spring					
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
AUT 151	Brake Systems	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum boost, hydra-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.					
AUT 151A	Brakes Systems Lab	0	3	0	1
Prerequisites: None					
Corequisites: State, AUT 151					
Course Offering Availability: Spring					
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydra-boost, electrically powered boost, and anti-lock, parking brake systems and emerging brake systems technologies. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.					
AUT 161	Basic Auto Electricity	4	3	0	5
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of batteries, starters, and alternators. Topics include Ohm's Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns.					
AUT 163	Adv Auto Electricity	2	3	0	3
Prerequisites: State, AUT 161					
Corequisites: None					
Course Offering Availability: Spring					
This course covers electronic theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of electronics, lighting, gauges, horn, wiper, accessories, and body modules. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, and troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.					
AUT 163A	Adv Auto Electricity Lab	0	3	0	1
Prerequisites: None					
Corequisites: State, AUT 163					
Course Offering Availability: Spring					
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, troubleshooting and emerging electrical/electronic systems technologies. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
AUT 171	Auto Climate Control	2	4	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Summer					
This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis/repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.					
AUT 181	Engine Performance 1	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the introduction, theory of operation, and basic diagnostic procedures required to restore engine performance to vehicles equipped with complex engine control systems. Topics include an overview of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/service information.					
AUT 181A	Engine Performance 1 Lab	0	3	0	1
Prerequisites: None					
Corequisites: State, AUT 181					
Course Offering Availability: Fall					
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include overviews of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices and emerging engine performance technologies. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/service information.					
AUT 183	Engine Performance 2	2	6	0	4
Prerequisites: State, AUT 181					
Corequisites: None					
Course Offering Availability: Fall					
This course covers study of the electronic engine control systems, the diagnostic process used to locate engine performance concerns, and procedures used to restore normal operation. Topics will include currently used fuels and fuel systems, exhaust gas analysis, emission control components and systems, OBD II (on-board diagnostics) and inter-related electrical/electronic systems. Upon completion, students should be able to diagnose and repair complex engine performance concerns using appropriate test equipment and service information.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
AUT 212	Auto Shop Management	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers the principles of management essential to decision-making, communication, authority, and leadership. Topics include shop supervision, shop organization, customer relations, cost effectiveness and work place ethics. Upon completion, students should be able to describe basic automotive shop operation from a management standpoint.					
AUT 221	Automatic Transm/Transaxles	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Summer					
This course covers operation, diagnosis, service, and repair of automatic transmissions/transaxles. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to explain operational theory and diagnose and repair automatic drive trains.					
AUT 221A	Auto Transm/Transax Lab	0	3	0	1
Prerequisites: None					
Corequisites: State, AUT 221					
Course Offering Availability: Summer					
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to diagnose and repair automatic drive trains.					
AUT 231	Man Trans/Axles/Drtrains	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the operation, diagnosis, and repair of manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Topics include theory of torque, power flow, and manual drive train service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair manual drive trains.					
AUT 231A	Man Trans/Ax/Drtrains Lab	0	3	0	1
Prerequisites: None					
Corequisites: State, AUT 231					
Course Offering Availability: Spring					
This course is an optional lab for the program that needs to meet NATEF hour standards but does not have a co-op component in the program. Topics include manual drive train diagnosis, service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to diagnose and repair manual drive trains.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
AUT 281	Adv Engine Performance	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course utilizes service information and specialized test equipment to diagnose and repair power train control systems. Topics include computerized ignition, fuel and emission systems, related diagnostic tools and equipment, data communication networks, and service information. Upon completion students should be able to perform diagnosis and repair.					
BIO 094	Concepts of Human Biology	3	2	0	4
Prerequisites: None					
Corequisites: State, ENG 095 or RED 090					
Course Offering Availability: Fall, Spring					
This course focuses on fundamental concepts of human biology. Topics include terminology, biochemistry, cell biology, tissues, body systems, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level anatomy and physiology courses.					
BIO 106	Intro to Anatomy/Physiology/Microbiology	2	2	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course covers the fundamental and principle concepts of human anatomy and physiology and microbiology. Topics include an introduction to the structure and function of cells, tissues, and human organ systems, and an overview of microbiology, epidemiology, and control of microorganisms. Upon completion, students should be able to identify structures and functions of the human body and describe microorganisms and their significance in health and disease.					
BIO 110	Principles of Biology	3	3	0	4
Prerequisites Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course provides a survey of fundamental biological principles for non-science majors. Emphasis is placed on basic chemistry, cell biology, metabolism, genetics, taxonomy, evolution, ecology, diversity, and other related topics. Upon completion, students should be able to demonstrate increased knowledge and better understanding of biology as it applies to everyday life. <i>Under the CAA and ICAA, this course satisfies the general education Natural Science requirement for the AA and AFA degrees. It does not satisfy the general education Natural Science requirement for the AS degree.</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
BIO 111	General Biology I	3	3	0	4
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Fall				
	This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, cell structure and function, metabolism and energy transformation, genetics, evolution, classification, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i>				
BIO 112	General Biology II	3	3	0	4
Prerequisites:	State, BIO 111				
Corequisites:	None				
Course Offering Availability:	Spring				
	This course is a continuation of BIO 111. Emphasis is placed on organisms, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i>				
BIO 120	Introductory Botany	3	3	0	4
Prerequisites:	State, BIO 110 or BIO 111				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course provides an introduction to the classification, relationships, structure, and function of plants. Topics include reproduction and development of seed and non-seed plants, levels of organization, form and function of systems, and a survey of major taxa. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i>				
BIO 130	Introductory Zoology	3	3	0	4
Prerequisites:	State, BIO 110 or BIO 111				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course provides an introduction to the classification, relationships, structure, and function of major animal phyla. Emphasis is placed on levels of organization, reproduction and development, comparative systems, and a survey of selected phyla. Upon completion, students should be able to demonstrate comprehension of animal form and function including comparative systems of selected groups. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i>				

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
BIO 140	Environmental Biology	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i>					
BIO 140A	Environmental Biology Lab	0	3	0	1
Prerequisites: None					
Corequisites: State, BIO 140					
Course Offering Availability: Fall, Spring, Summer					
This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i>					
BIO 150	Genetics in Human Affairs	3	0	0	3
Prerequisites: State, BIO 110 or BIO 111					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course describes the importance of genetics in everyday life. Topics include the role of genetics in human development, birth defects, cancer and chemical exposure, and current issues including genetic engineering and fertilization methods. Upon completion, students should be able to understand the relationship of genetics to society today and its possible influence on our future. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
BIO 155	Nutrition	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course covers the biochemistry of foods and nutrients with consideration of the physiological effects of specialized diets for specific biological needs. Topics include cultural, religious, and economic factors that influence a person's acceptance of food as well as nutrient requirements of the various life stages. Upon completion, students should be able to identify the functions and sources of nutrients, the mechanisms of digestion and the nutritional requirements of all age groups. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
BIO 163	Basic Anatomy & Physiology	4	2	0	5
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Fall, Spring				
This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
BIO 168	Anatomy and Physiology I	3	3	0	4
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Fall, Spring				
This course provides a comprehensive study of the anatomy and physiology of the human body. Topics include body organization, homeostasis, cytology, histology, and the integumentary, skeletal, muscular, and nervous systems and special senses. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
BIO 169	Anatomy and Physiology II	3	3	0	4
Prerequisites:	State, BIO 168				
Corequisites:	None				
Course Offering Availability:	Spring, Summer				
This course provides a continuation of the comprehensive study of the anatomy and physiology of the human body. Topics include the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems as well as metabolism, nutrition, acid-base balance, and fluid and electrolyte balance. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
BIO 175	General Microbiology	2	2	0	3
Prerequisites:	State, Take One: BIO 110, BIO 111, BIO 163, BIO 165, or BIO 168; Local, Students taking BIO 168, must also take BIO 169				
Corequisites:	None				
Course Offering Availability:	Fall, Summer				
This course covers principles of microbiology with emphasis on microorganisms and human disease. Topics include an overview of microbiology and aspects of medical microbiology, identification and control of pathogens, disease transmission, host resistance, and immunity. Upon completion, students should be able to demonstrate knowledge of microorganisms and the disease process as well as aseptic and sterile techniques. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
BIO 275	Microbiology	3	3	0	4
Prerequisites: State, Take One BIO 110, BIO 111, BIO 163, BIO 165, or BIO 168; Local, Students taking BIO 168, must also take BIO 169					
Corequisites: None					
Course Offering Availability: Spring					
This course covers principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					
BPM 110	Bioprocess Practices	3	4	0	5
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course provides a study of plant operations including various plant utility systems and detailed study of the varied plant environments in a bioprocessing facility. Emphasis is placed on quality mindset and principles of validation through applications of monitoring procedures. Upon completion, students should be able to demonstrate the rigors of industry regulation and its necessity. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
BPM 111	Bioprocess Measurements	3	3	0	4
Prerequisites: State, BIO 110 and BPM 110					
Corequisites: None					
Course Offering Availability: Spring					
This course covers a variety of physical measurements. Emphasis is placed on pH, temperature, pressure and flow rates, as well as spectrophotometry, and biochemical and chemical analytical methods. Upon completion, students should be able to demonstrate and perform many aspects of process monitoring.					
BPM 112	Upstream Bioprocessing	3	4	0	5
Prerequisites: State, BPM 111					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces techniques involved in cell growth and fractionation. Topics include fermentation theory and application, as well as cell harvesting, cell disruption, and fractionation methods. Upon completion, students should be able to grow cells as well as isolate and collect various fractions.					
BPM 113	Downstream Bioprocessing	3	3	0	4
Prerequisites: State, BPM 111, CHM 131 and CHM 131A					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces a variety of techniques involved in separation procedures. Topics include extraction and precipitation, concentration and molecular filtration methods as well as different types of chromatography. Upon completion, students should be able to perform most separation procedures with an understanding of industrial scale proportions.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
BPR 111	Blueprint Reading	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the basic principles of blueprint reading. Topics include line types, orthographic projections, dimensioning methods, and notes. Upon completion, students should be able to interpret basic blueprints and visualize the features of a part. <i>This course is also available through Virtual Learning Community (VLC).</i>					
BPR 130	Blueprint Reading/Construction	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the interpretation of blueprints and specifications that are associated with the construction trades. Emphasis is placed on interpretation of details for foundations, floor plans, elevations, and schedules. Upon completion, students should be able to read and interpret a set of construction blueprints.					
BUS 110	Introduction to Business	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course provides a survey of the business world. Topics include the basic principles and practices of contemporary business. Upon completion, students should be able to demonstrate an understanding of business concepts as a foundation for studying other business subjects. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					
BUS 115	Business Law I	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course introduces the ethics and legal framework of business. Emphasis is placed on contracts, negotiable instruments, Uniform Commercial Code, and the working of the court systems. Upon completion, students should be able to apply ethical issues and laws covered to selected business decision-making situations. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					
BUS 116	Business Law II	3	0	0	3
Prerequisites: State, BUS 115					
Corequisites: None					
Course Offering Availability: Spring					
This course continues the study of ethics and business law. Emphasis is placed on bailments, sales, risk-bearing, forms of business ownership, and copyrights. Upon completion, students should be able to apply ethical issues and laws covered to selected business decision-making situations. <i>This course is also available through the Virtual Learning Community (VLC).</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
BUS 121	Business Math	2	2	0	3
Prerequisites: Local, DMA 010;020;030					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course covers fundamental mathematical operations and their application to business problems. Topics include payroll, pricing, interest and discount, commission, taxes, and other pertinent uses of mathematics in the field of business. Upon completion, students should be able to apply mathematical concepts to business. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
BUS 137	Principles of Management	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					
BUS 153	Human Resource Management	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Summer					
This course introduces the functions of personnel/human resource management within an organization. Topics include equal opportunity and the legal environment, recruitment and selection, performance appraisal, employee development, compensation planning, and employee relations. Upon completion, students should be able to anticipate and resolve human resource concerns. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
BUS 217	Employment Law and Regulations	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, EEO, affirmative action, and employee rights and protections. Upon completion, students should be able to evaluate organization policy for compliance and assure that decisions are not contrary to law. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
BUS 225	Business Finance	2	2	0	3
Prerequisites: State, ACC 120					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management. <i>This course is also available through the Virtual Learning Community (VLC).</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
BUS 260	Business Communication	3	0	0	3
Prerequisites: State, ENG 111					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the work place. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
BUS 270	Professional Development	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course provides basic knowledge of self-improvement techniques as related to success in the professional world. Topics include positive human relations, job-seeking skills, and projecting positive self-image. Upon completion, students should be able to demonstrate competent personal and professional skills necessary to get and keep a job.					
BUS 280	REAL Small Business	4	0	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces hands-on techniques and procedures for planning and opening a small business, including the personal qualities needed for entrepreneurship. Emphasis is placed on market research, finance, time management, and day-to-day activities of owning/operating a small business. Upon completion, students should be able to write and implement a viable business plan and seek funding.					
CAR 110	Introduction to Carpentry	2	0	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the student to the carpentry trade. Topics include duties of a carpenter, hand and power tools, building materials, construction methods, and safety. Upon completion, students should be able to identify hand and power tools, common building materials, and basic construction methods.					
CAR 111	Carpentry I	3	15	0	8
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the theory and construction methods associated with the building industry, including framing, materials, tools, and equipment. Topics include safety, hand/power tool use, site preparation, measurement and layout, footings and foundations, construction framing, and other related topics. Upon completion, students should be able to safely lay out and perform basic framing skills with supervision.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
CAR 112	Carpentry II	3	15	0	8
Prerequisites: State, CAR 111					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the advanced theory and construction methods associated with the building industry including framing and exterior finishes. Topics include safety, hand/power tool use, measurement and layout, construction framing, exterior trim and finish, and other related topics. Upon completion, students should be able to safely frame and apply exterior finishes to a residential building with supervision.					
CAR 113	Carpentry III	3	9	0	6
Prerequisites: State, CAR 111					
Corequisites: None					
Course Offering Availability: Summer					
This course covers interior trim and finishes. Topics include safety, hand/power tool use, measurement and layout, specialty framing, interior trim and finishes, cabinetry, and other related topics. Upon completion, students should be able to safely install various interior trim and finishes in a residential building with supervision.					
CAR 114	Residential Building Codes	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers building codes and the requirements of state and local construction regulations. Emphasis is placed on the minimum requirements of the North Carolina building codes related to residential structures. Upon completion, students should be able to determine if a structure is in compliance with North Carolina building codes.					
CAR 115	Residential Planning/Estimating	3	0	0	3
Prerequisites: State, BPR 130					
Corequisites: None					
Course Offering Availability: Spring					
This course covers project planning, management, and estimating for residential or light commercial buildings. Topics include planning and scheduling, interpretation of working drawings and specifications, estimating practices, and other related topics. Upon completion, students should be able to perform quantity take-offs and cost estimates.					
CAT 210	CT Physics & Equipment	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers the system operations and components, image processing and display, image quality, and artifacts in computed tomography. Emphasis is placed on the data acquisition components, tissue attenuation conversions, image manipulation, and factors controlling image resolution. Upon completion, students should be able to understand the physics and instrumentation used in computed tomography.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
CAT 211	CT Procedures	4	0	0	4
Prerequisites: None					
Corequisites: State, CAT 210					
Course Offering Availability: Course offered at discretion of Dean					
This course is designed to cover specialized patient care, cross-sectional anatomy, contrast media, and scanning procedures in computed tomography. Emphasis is placed on patient assessment and monitoring, contrast agents' use, radiation safety, methods of data acquisition, and identification of cross-sectional anatomy. Upon completion, students should be able to integrate all facets of the imaging procedures in computed tomography.					
CAT 231	CT Clinical Practicum	0	0	33	11
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides the opportunity to apply knowledge gained from classroom instruction to the computed tomography clinical setting. Emphasis is placed on patient care and positioning, scanning procedures, and image production in computed tomography. Upon completion, students should be able to assume a variety of duties and responsibilities within the computed tomography clinical environment.					
CET 111	Computer Upgrade/Repair I	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers repairing, servicing, and upgrading computers and peripherals in preparation for industry certification. Topics include CPU/memory/bus identification, disk subsystems, hardware/software installation/configuration, common device drivers, data recovery, system maintenance and other related topics. Upon completion, students should be able to safely repair and/or upgrade computer systems to perform within specifications.					
CET 150	Computer Forensics I	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course is an introduction to computer forensic concepts, with emphasis on computer forensic methods and best practices. Topics include computer system analysis, physical and logical storage methods for different types of media, tools to recover and analyze data from storage media, system security. Upon completion, students should be able to use diagnostic and investigative techniques to identify and retrieve data from various types of computer media.					
CET 211	Computer Upgrade/Repair II	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers concepts of repair, service, and upgrade of computers and peripherals in preparation for industry certification. Topics may include resolving resource conflicts and system bus specifications, configuration and troubleshooting peripherals, operating system configuration and optimization, and other related topics. Upon completion, students should be able to identify and resolve system conflicts and optimize system performance.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
CET 250	Computer Forensics II	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course is a study in computer forensic practices with emphasis placed on methods used for prevention, detection, and apprehension of perpetrators of cyber-criminal activity. Topics include the roles of Chief Security Officers in the securing of system breaches, vulnerabilities, network and server security issues, OS and application security risks. Upon completion students should be able to identify and collect evidence to prove unauthorized and inappropriate access on computer systems and networks.					
CHM 090	Chemistry Concepts	4	0	0	4
Prerequisites: Local, DMA 040, DMA 050, ENG 085 or RED 080					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course provides a non-laboratory based introduction to basic concepts of chemistry. Topics include measurements, matter, energy, atomic theory, bonding, molecular structure, nomenclature, balancing equations, stoichiometry, solutions, acids and bases, gases, and basic organic chemistry. Upon completion, students should be able to understand and apply basic chemical concepts necessary for success in college-level science courses.					
CHM 131	Introductory to Chemistry	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: DMA 040, DMA 050, ENG 090, RED 090, MAT 070 Group B: DMA 040, DMA 050, ENG 095/095A, MAT 070					
Corequisites: Local, CHM-131A					
Course Offering Availability: Fall					
This course introduces the fundamental concepts of inorganic chemistry. Topics include measurement, matter and energy, atomic and molecular structure, nuclear chemistry, stoichiometry, chemical formulas and reactions, chemical bonding, gas laws, solutions, and acids and bases. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i>					
CHM 131A	Intro to Chemistry Lab	0	3	0	1
Prerequisites: Local, Take 1 group: Group A: DMA 040, DMA 050, ENG 090, RED 090, MAT 070 Group B: DMA 040, DMA 050, ENG 095/095A, MAT 070					
Corequisites: State, CHM 131					
Course Offering Availability: Fall					
This course is a laboratory to accompany CHM 131. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 131. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 131. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
CHM 132	Organic and Biochemistry	3	3	0	4
Prerequisites: State, Take one set: Set 1: CHM-131 and CHM-131A Set 2: CHM-151					
Corequisites: None					
Course Offering Availability: Spring					
This course provides a survey of major functional classes of compounds in organic and biochemistry. Topics include structure, properties, and reactions of the major organic and biological molecules and basic principles of metabolism. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts needed to pursue studies in related professional fields. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i>					
CHM 151	General Chemistry I	3	3	0	4
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: Local, MAT 161 or MAT 171 or MAT 271					
Course Offering Availability: Fall					
This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i>					
CHM 152	General Chemistry II	3	3	0	4
Prerequisites: State, CHM 151					
Corequisites: None					
Course Offering Availability: Spring					
This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i>					
CHM 251	Organic Chemistry I	3	3	0	4
Prerequisites: State, CHM 152					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochemistry, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
CHM 252	Organic Chemistry II	3	3	0	4
Prerequisites: State, CHM 251					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					
CIS 110	Introduction to Computers	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative). This course is also available through the Virtual Learning Community (VLC).</i>					
CIS 111	Basic PC Literacy	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
CIS 115	Intro. to Prog. & Logic	2	3	0	3
Prerequisites: State, Take One Set:					
Set 1: DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050					
Set 2: DMA 010, DMA 020, DMA 030, DMA 060, 070, DMA 080					
Set 3: MAT-121					
Set 4: MAT-161					
Set 5: MAT-171					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative). This course is also available through the Virtual Learning Community (VLC).</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
CIS 162	MM Presentation Software	2	2	0	3
Prerequisites: State, Take One: CIS-110 or CIS-111					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course is designed to integrate visual and audio resources using presentation software in a simple interactive multimedia project. Emphasis is placed upon design and audience considerations, general prototyping, and handling of media resources. Upon completion, students should be able to demonstrate an original interactive multimedia presentation implementing all of these resources in a professional manner.					
CJC 100	Basic Law Enforcement Training	9	30	0	19
Prerequisites: Local, Sponsorship from a Public Law Enforcement Agency					
Corequisites: None					
Course Offering Availability: Fall, Spring,					
This course covers the basic skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics are divided into general units of study: legal, patrol duties, law enforcement communications, investigations, practical application and sheriff-specific. Upon successful completion, the student will be able to demonstrate competence in the topics and areas required for the state comprehensive certification examination. <i>This is a certificate-level course.</i>					
CJC 111	Introduction to Criminal Justice	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					
CJC 112	Criminology	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
CJC 113	Juvenile Justice	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/defention of juveniles, and case disposition. <i>This course is also available through the Virtual Learning Community (VLC).</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
CJC-116	Intro to Info Security	3	0	0	3
Prerequisites: State, Take One: CIS-110 or CIS-111					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces the students to undercover techniques necessary to identify information security breaches and establish, maintain and monitor information security systems. Emphasis will be placed on the investigative tools used to collect evidence in cases of illegal activity. Upon completion students should be able to evaluate information systems, identify security problems and provide procedures to guard against security breaches.					
CJC 121	Law Enforcement Operations	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					
CJC 122	Community Policing	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers the historical, philosophical, and practical dimensions of community policing. Emphasis is placed on the empowerment of police and the community to find solutions to problems by forming partnerships. Upon completion, students should be able to define community policing, describe how community policing strategies solve problems, and compare community policing to traditional policing.					
CJC 131	Criminal Law	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
CJC 132	Court Procedure & Evidence	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence. <i>This course is also available through the Virtual Learning Community (VLC).</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
CJC 141	Corrections	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					
CJC 151	Introduction to Loss Prevention	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the concepts and methods related to commercial and private security systems. Topics include the historical, philosophical, and legal basis of security, with emphasis on security surveys, risk analysis, and associated functions. Upon completion, students should be able to demonstrate and understand security systems, risk management, and the laws relative to loss prevention.					
CJC 160	Terrorism Underlying Issues	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course identifies the fundamental reasons why America is a target for terrorists, covering various domestic/international terrorist groups and ideologies from a historical aspect. Emphasis is placed upon recognition of terrorist crime scene; weapons of mass destruction; chemical, biological, and nuclear terrorism; and planning considerations involving threat assessments. Upon completion, students should be able to identify and discuss the methods used in terrorists' activities and complete a threat assessment for terrorists' incidents.					
CJC 211	Counseling	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces the basic elements of counseling and specific techniques applicable to the criminal justice setting. Topics include observation, listening, recording, interviewing, and problem exploration necessary to form effective helping relationships. Upon completion, students should be able to discuss and demonstrate the basic techniques of counseling.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
CJC 212	Ethics & Community Relations	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Spring				
This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
CJC 213	Substance Abuse	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities.					
CJC 214	Victimology	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
This course introduces the study of victims. Emphasis is placed on roles/ characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims' roles, and current victim assistance programs.					
CJC 215	Organization & Administration	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
CJC 221	Investigative Principles	3	2	0	4
Prerequisites: Local, Take 1 group: Group A: ENG 090 , RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
CJC 223	Organized Crime	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces the evolution of traditional and non-traditional organized crime and its effect on society and the criminal justice system. Topics include identifying individuals and groups involved in organized crime, areas of criminal activity, legal and political responses to organized crime, and other related topics. Upon completion, students should be able to identify the groups and activities involved in organized crime and the responses of the criminal justice system.					
CJC 231	Constitutional Law	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall					
The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
CJC 241	Community-Based Corrections	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Spring					
This course covers programs for convicted offenders that are used both as alternatives to incarceration and in post-incarceration situations. Topics include offenders, diversion, house arrest, restitution, community service, probation and parole, including both public and private participation, and other related topics. Upon completion, students should be able to identify/discuss the various programs from the perspective of the criminal justice professional, the offender, and the community.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
CJC-250	Forensic Biology I	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers important biological principles that are applied in the crime laboratory. Topics include forensic toxicology, forensic serology, microscopy, and DNA typing analysis, with an overview of organic and inorganic analysis. Upon completion, students should be able to articulate how a crime laboratory processes physical evidence submitted by law enforcement agencies.					
COE 111	Cooperative Work Experience I	0	0	10	1
Prerequisites: Local, Program Head Approval					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. <i>This course is also available through the Virtual Learning Community (VLC).</i>

CTS 130	Spreadsheet	2	2	0	3
Prerequisites: State, Take One: CIS-110, CIS-111, or OST-137 Local, DMA 010, DMA 020, DMA 030					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
CTS 230	Advanced Spreadsheet	2	2	0	3
Prerequisites: State, CTS 130					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers advanced spreadsheet design and development. Topics include advanced functions and statistics, charting, macros, databases, and linking. Upon completion, students should be able to demonstrate competence in designing complex spreadsheets. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
CTS 285	Systems Analysis & Design	3	0	0	3
Prerequisites: State, CIS 115					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces established and evolving methodologies for the analysis, design and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques.					
CTS 289	System Support Project	1	4	0	3
Prerequisites: State, CTS 285; Local, CIS 162, CTS 130, DBA 110, NOS 110					
Corequisites: None					
Course Offering Availability: Spring					
This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation.					
CUL 110	Sanitation & Safety	2	0	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the basic principles of sanitation and safety relative to the hospitality industry. Topics include personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate an understanding of the content necessary for successful completion of a nationally recognized food/safety/sanitation exam.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
CUL 110A	Sanitation & Safety Lab	0	2	0	1
Prerequisites: None					
Corequisites: State, CUL 110					
Course Offering Availability: Fall					
This course provides a laboratory experience for enhancing student skills in the basic principles of sanitation and safety. Emphasis is placed on personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate practical applications of sanitation and safety procedures in the hospitality industry.					
CUL 112	Nutrition for Foodservice	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the principles of nutrition and its relationship to the foodservice industry. Topics include personal nutrition fundamentals, weight management, exercise, nutritional adaptation/analysis of recipes/menus, healthy cooking techniques and marketing nutrition in a foodservice operation. Upon completion, students should be able to apply basic nutritional concepts to food preparation and selection.					
CUL 120	Purchasing	2	0	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers purchasing for foodservice operations. Emphasis is placed on yield tests, procurement, negotiating, inventory control, product specification, purchasing ethics, vendor relationships, food product specifications and software applications. Upon completion, students should be able to apply effective purchasing techniques based on the end-use of the product.					
CUL 130	Menu Design	2	0	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Summer					
This course introduces menu design and its relationship to foodservice operations. Topics include layout, marketing, concept development, dietary concerns, product utilization, target consumers and trends. Upon completion, students should be able to design, create and produce menus for a variety of foodservice settings.					
CUL 135	Food & Beverage Service	2	0	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course is designed to cover the practical skills and knowledge necessary for effective food and beverage service in a variety of settings. Topics include greeting/service of guests, dining room set-up, profitability, menu sales, and merchandising, service styles and reservations. Upon completion, students should be able to demonstrate competence in human relations and the skills required in the service of foods and beverages.					

CURRICULUM COURSES

Prerequisites: Local, CIS 110 or CIS 111, OST 138					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
DBA 115	Database Applications	2	2	0	3
Prerequisites: State, DBA 110					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course applies concepts learned in DBA 110 to a specific DBMS. Topics include manipulating multiple tables, advanced queries, screens and reports, linking, and command files. Upon completion, students should be able to create multiple table systems that demonstrate updates, screens, and reports representative of industry requirements. <i>This course is also available through the Virtual Learning Community (VLC).</i>					

NCCCS Crosswalk Between MAT-060, 070, and 080 and DMA 010 through DMA-080

Standard Crosswalk:

MAT-060 = DMA 010, DMA 020, DMA 030

MAT-070 = DMA 040, DMA 050

MAT-080 = DMA 060, DMA 070, DMA 080

DMA-010 Operations With Integers 0.75 0.50 0 1

Prerequisites: None

Corequisites: None

Course Offering Availability: Fall, Spring, Summer

This course provides a conceptual study of integers and integer operations. Topics include integers, absolute value, exponents, square roots, perimeter and area of basic geometric figures, Pythagorean theorem, and use of the correct order of operations. Upon completion, students should be able to demonstrate an understanding of pertinent concepts and principles and apply this knowledge in the evaluation of expressions.

DMA-020 Fractions and Decimals 0.75 0.50 0 1

Prerequisites: State, Take DMA 010

Corequisites: None

Course Offering Availability: Fall, Spring, Summer

This course provides a conceptual study of the relationship between fractions and decimals and covers related problems. Topics include application of operations and solving contextual application problems, including determining the circumference and area of circles with the concept of pi. Upon completion, students should be able to demonstrate an understanding of the connections between fractions and decimals.

DMA-030 Propor/Ratio/Rate/Percent 0.75 0.50 0 1

Prerequisites: State, Take all DMA 010 and DMA 020

Corequisites: None

Course Offering Availability: Fall, Spring, Summer

This course provides a conceptual study of the problems that are represented by rates, ratios, percent, and proportions. Topics include rates, ratios, percent, proportion, conversion of English and metric units, and applications of the geometry of similar triangles. Upon completion, students should be able to use their understanding to solve conceptual application problems.

DMA-040 Express/Lin Equat/Inequal 0.75 0.50 0 1

Prerequisites: State, Take 1 group:

Group A: DMA 010, DMA 020 and DMA 030

Group B: MAT 060

Corequisites: None

Course Offering Availability: Fall, Spring, Summer

This course provides a conceptual study of problems involving linear expressions, equations, and inequalities. Emphasis is placed on solving contextual application problems. Upon completion, students should be able to distinguish between simplifying expressions and solving equations and apply this knowledge to problems involving linear expressions, equations, and inequalities.

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
DMA-050	Graphs/Equations of Lines	0.75	0.50	0	1
Prerequisites:	State, Take 1 group: Group A: DMA 010, DMA 020, DMA 030 and DMA 040 Group B: DMA 040 and MAT 060				
Corequisites:	None				
Course Offering Availability:	Fall, Spring, Summer				
This course provides a conceptual study of problems involving graphic and algebraic representations of lines. Topics include slope, equations of lines, interpretation of basic graphs, and linear modeling. Upon completion, students should be able to solve contextual application problems and represent real-world situations as linear equations in two variables.					
DMA-060	Polynomial/Quadratic Appl	0.75	0.50	0	1
Prerequisites:	State, Take 1 group: Group A: DMA 010, DMA 020, DMA 030, DMA 040 and DMA 050 Group B: DMA 040, DMA 050, and MAT 060 Group C: MAT 060 and MAT 070				
Corequisites:	None				
Course Offering Availability:	Fall, Spring, Summer				
This course provides a conceptual study of problems involving graphic and algebraic representations of quadratics. Topics include basic polynomial operations, factoring polynomials, and solving polynomial equations by means of factoring. Upon completion, students should be able to find algebraic solutions to contextual problems with quadratic applications.					
DMA-070	Rational Express/Equation	0.75	0.50	0	1
Prerequisites:	State, Take 1 group: Group A: DMA 010, DMA 020, DMA 030, DMA 040 DMA 050, and DMA 060 Group B: DMA 040, DMA 050, DMA 060 and MAT- 060 Group C: MAT 060, MAT 060 and MAT 070 Group D: DMA 010, DMA 020, DMA 030, DMA 060, and MAT 070				
Corequisites:	None				
Course Offering Availability:	Fall, Spring, Summer				
This course provides a conceptual study of problems involving graphic and algebraic representations of rational equations. Topics include simplifying and performing operations with rational expressions and equations, understanding the domain, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with rational applications.					
DMA-080	Radical Express/Equations	0.75	0.50	0	1
Prerequisites:	State, Take 1 group: Group A: DMA 010, DMA 020, DMA 030, DMA 040 DMA 050, DMA 060, and DMA 070 Group B: DMA 060, DMA 070, MAT 060 and MAT- 070 Group C: DMA 040, DMA 050, DMA 060, DMA 070, and MAT 060 Group D: DMA 010, DMA 020, DMA 030, DMA 060, DMA 070, and MAT 070				
Corequisites:	None				
Course Offering Availability:	Fall, Spring, Summer				
This course provides a conceptual study of the manipulation of radicals and the application of radical equations to real-world problems. Topics include simplifying and performing operations with radical expressions and rational exponents, solving equations, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with radical applications.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
DRA 111	Theatre Appreciation	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course provides a study of the art, craft, and business of the theatre. Emphasis is placed on the audience's appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theatre terms and to recognize the contributions of various theatre artists. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					
DRA 112	Literature of the Theatre	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall					
This course provides a survey of dramatic works from the classical Greek through the present. Emphasis is placed on the language of drama, critical theory, and background as well as on play reading and analysis. Upon completion, students should be able to articulate, orally and in writing, their appreciation and understanding of dramatic works. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					
DRA 122	Oral Interpretation	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the dramatic study of literature through performance. Emphasis is placed on analysis and performance of poetry, drama, and prose fiction. Upon completion, students should be able to embody and discuss critically the speakers inherent in literature. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					
DRA-130	Acting I	0	6	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course provides an applied study of the actor's craft. Topics include role analysis, training the voice, and body concentration, discipline, and self-evaluation. Upon completion, students should be able to explore their creativity in an acting ensemble. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
DRA-131	Acting II	0	6	0	3
Prerequisites: State, DRA 130					
Corequisites: None					
Course Offering Availability: Spring					
This course provides additional hands-on practice in the actor's craft. Emphasis is placed on further analysis, characterization, growth, and training for acting competence. Upon completion, students should be able to explore their creativity in an acting ensemble. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
DRA-145	Stage Make-Up	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the research, design, selection of materials, and application of stage make-up, prosthetics, wigs, and hairpieces. Emphasis is placed on the development of techniques, style, and presentation of the finished make-up. Upon completion, students should be able to create and apply make-up, prosthetics, and hairpieces. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
DRA-230	Acting III	0	6	0	3
Prerequisites: State, DRA 131					
Corequisites: None					
Course Offering Availability: Fall					
This course is designed to include an exploration of acting styles. Emphasis is placed on putting the actor's skills to work in a major theatrical form-musical, comedy, or drama. Upon completion, students should be able to explore their creativity in an acting ensemble. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
ECO 151	Survey of Economics	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: DMA 010, DMA 020, DMA 030, ENG 080, RED 090 Group B: DMA 010, DMA 020, DMA 030, ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course, for those who have not received credit for ECO 251 or 252, introduces basic concepts of micro- and macroeconomics. Topics include supply and demand, optimizing economic behavior, prices and wages, money, interest rates, banking system, unemployment, inflation, taxes, government spending, and international trade. Upon completion, students should be able to explain alternative solutions for economic problems faced by private and government sectors. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences. This course is also available through the Virtual Learning Community (VLC).</i>					
ECO 251	Principles of Microeconomics	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: DMA 010, DMA 020, DMA 030, ENG 080, RED 090 Group B: DMA 010, DMA 020, DMA 030, ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course introduces economic analysis of individual, business, and industry in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences. This course is also available through the Virtual Learning Community (VLC).</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ECO 252	Principles of Macroeconomics Local, Take 1 group: Group A: DMA 010, DMA 020, DMA 030, ENG 080, RED 090 Group B: DMA 010, DMA 020, DMA 030, ENG 095/095A	3	0	0	3
	Corequisites: None Course Offering Availability: Fall, Spring This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socio-economic goals. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences. This course is also available through the Virtual Learning Community (VLC).</i>				
EDU 114	Intro to Family Childcare Prerequisites: State, Take one set Set 1: DMA 010, DMA 020, DMA 030, ENG 080, RED 080 Set 2: DMA 010, DMA 020, DMA 030, ENG 085	3	0	0	3
	Corequisites: None Course Offering Availability: Course offered at discretion of Dean This course introduces the student to family child care home environments with emphasis on standards and developmentally effective approaches for supporting diverse children and families. Topics include standards for quality, curriculum for multiple age groups, authentic assessment methods, business practices, building positive family and community partnerships, and professionalism. Upon completion, students should be able to design a family child care handbook that reflects a healthy, respectful, supportive, and stimulating learning environment.				
EDU 119	Intro to Early Child Educ Prerequisites: None Corequisites: None Course Offering Availability: Fall, Spring, Summer	4	0	0	4
	This course covers the foundations of the education profession, the diverse educational settings for young children, professionalism and planning developmentally appropriate programs for all children. Topics include historical foundations, program types, career options, professionalism and creating inclusive environments and curriculum responsive to the needs of all children and families. Upon completion, students should be able to design career plans and develop schedules, environments and activity plans appropriate for all children. <i>This course is part of the NCCDA credential. This course is also available through the Virtual Learning Community (VLC).</i>				
EDU 125	Sign Lang. for Educators Prerequisites: State, Take one set Set 1: DMA 010, DMA 020, DMA 030, ENG 080, RED 080 Set 2: ENG 085	3	0	0	3
	Corequisites: None Course Offering Availability: Course offered at discretion of Dean This course introduces students to the sign language systems commonly used in educational environments. Topics include fingerspelling, receptive and expressive sign language usage, a comparison of sign language systems, and forms of relevant technology. Upon completion, students should be able to communicate at an introductory level using various English-based sign language systems including Manually Coded English.				

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
EDU 131	Child, Family, & Commun	3	0	0	3

Prerequisites: State, Take one set
Set 1: ENG 080 and RED 080
Set 2: ENG 085

Corequisites: None

Course Offering Availability: Fall, Spring, Summer

This course covers the development of partnerships between culturally and linguistically diverse families, children, schools and communities. Emphasis is placed on developing skills and identifying benefits for establishing, supporting, and maintaining respectful, collaborative relationships between diverse families, programs/schools, and community agencies/resources. Upon completion, students should be able to explain appropriate relationships between families, educators, and professionals that enhance development and educational experiences of all children. *This course is part of the NCCDA credential. This course is also available through the Virtual Learning Community (VLC).*

EDU 144	Child Development I	3	0	0	3
----------------	----------------------------	----------	----------	----------	----------

Prerequisites: State, Take one set
Set 1: ENG 080 and RED 080
Set 2: ENG 085

Corequisites: None

Course Offering Availability: Fall

This course includes the theories of child development, needs, milestones, and factors that influence development, from conception through approximately 36 months. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. *This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course is part of the NCCDA Infant credential. This course is also available through the Virtual Learning Community (VLC).*

EDU 145	Child Development II	3	0	0	3
----------------	-----------------------------	----------	----------	----------	----------

Prerequisites: State, Take one set
Set 1: ENG 080 and RED 080
Set 2: ENG 085

Corequisites: None

Course Offering Availability: Spring

This course includes the theories of child development, needs, milestones, and factors that influence development, from preschool through middle childhood. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. *This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course is part of the NCCDA Preschool credential. This course is also available through the Virtual Learning Community (VLC).*

EDU 146	Child Guidance	3	0	0	3
Prerequisites: State, Take one set Set 1: ENG 080 and RED 080 Set 2: ENG 085					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course introduces principles and practical techniques including the design of learning environments for providing developmentally appropriate guidance for all children, including those at risk. Emphasis is placed on observation skills, cultural influences, underlying causes of behavior, appropriate expectations, development of self control and the role of communication and guidance. Upon completion, students should be able to demonstrate direct/indirect strategies for preventing problem behaviors, teaching appropriate/acceptable behaviors, negotiation, setting limits and recognizing at risk behaviors. <i>This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course is part of the NCCDA Preschool credential. This course is also available through the Virtual Learning Community (VLC).</i>					
EDU 151	Creative Activities	3	0	0	3
Prerequisites: State, Take one set Set 1: ENG 080 and RED 080 Set 2: ENG 085					
Corequisites: None					
Course Offering Availability: Fall					
This course covers planning, creation and adaptation of developmentally supportive learning environments with attention to curriculum, interactions, teaching practices and learning materials. Emphasis is placed on creating and adapting integrated, meaningful, challenging and engaging developmentally supportive learning experiences in art, music, movement and dramatics for all children. Upon completion, students should be able to create, adapt, implement and evaluate developmentally supportive learning materials, experiences and environments. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
EDU 152	Music, Movement, & Lang	3	0	0	3
Prerequisites: State, Take one set Set 1: ENG 080 and RED 080 Set 2: ENG 085					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces a historical perspective of music and movement and integrates the whole language concept with emphasis on diversity. Emphasis is placed on designing an environment that emphasizes language development through developmentally and culturally appropriate music and movement. Upon completion, students should be able to design an environment that develops language through a music and movement curriculum that emphasizes diversity.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
EDU 153	Health, Safety & Nutrit	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 080 and RED 080 Set 2: ENG 085				
Corequisites:	None				
Course Offering Availability:	Spring				
This course covers promoting and maintaining the health and well-being of all children. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, recognition and reporting of abuse and neglect and state regulations. Upon completion, students should be able to demonstrate knowledge of health, safety, and nutritional needs, safe learning environments, and adhere to state regulations. <i>This course is part of the NCCDA credential. This course is also available through the Virtual Learning Community (VLC).</i>					
EDU 154	Social/Emotion/Behav Dev	3	0	0	3
Prerequisites:	State, Take ENG 080, RED 080, EDU 144 and EDU 145				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
This course covers the emotional/social development of children and the causes, expressions, prevention and management of challenging behaviors in all children. Emphasis is placed on caregiver/family/child relationships, positive emotional/social environments, developmental concerns, risk factors, and intervention strategies. Upon completion, students should be able to identify factors influencing emotional/social development, utilizing screening measures, and designing positive behavioral supports.					
EDU 158	Healthy Lifestyles - Youth	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 080 and RED 080 Set 2: ENG 085				
Corequisites:	None				
Course Offering Availability:	Fall				
This course introduces the topics of health, safety, nutrition, physical activities and environments for the school-age child/youth that promote development, fitness and healthy lifestyles. Topics include the use of physical and nutritional/cooking activities (indoor/outdoor, teacher-directed/youth-directed) appropriate for youth developing typically/atypically; safe/healthy menu planning; safe/healthy environmental design, assessment and supervision. Upon completion, students should be able to plan/facilitate safe/healthy physical and nutritional/cooking activities, discuss safety policies/regulations and identify health/safety/nutritional needs of youth.					
EDU 162	Observe & Assess in ECE	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 080 and RED 080 Set 2: ENG 085				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
This course introduces the research, benefits, goals, and ethical considerations associated with observation and assessment in Early Childhood environments. Emphasis is placed on the implementation of multiple observation/assessment strategies including anecdotal records, event samples, rating scales, and portfolios to create appropriate learning experiences. Upon completion, students should be able to practice responsible assessment and use assessments to enhance programming and collaboration for children and families.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
EDU 163	Classroom Mgt & Instruct	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 080 and RED 080 Set 2: ENG 085

Course Offering Availability:	Fall				
This course covers management and instructional techniques with school-age populations. Topics include classroom management and organization, teaching strategies, individual student differences and learning styles, and developmentally appropriate classroom guidance techniques. Upon completion, students should be able to utilize developmentally appropriate behavior management and instructional strategies that enhance the teaching/learning process and promote students' academic success.					
EDU 173	Becoming a Prof'l in ECE	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 080 and RED 080 Set 2: ENG 085				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
This course is an introduction to the early childhood profession. Emphasis is placed on the NAEYC Ethical Code, professional growth through involvement in professional organizations, and development of a professional portfolio. Upon completion, students should be able to identify professional resources and community partners in order to involve oneself in the early childhood field.					
EDU 184	Early Child Intro Pract	1	3	0	2
Prerequisites:	State, Take one set Set 1: ENG 080, RED 080 and EDU 119 Set 2: ENG 085 and EDU 119				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
This course introduces students to early childhood settings and applying skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on observing children and assisting in the implementation of developmentally appropriate activities/environments for all children; and modeling reflective/professional practices. Upon completion, students should be able to demonstrate developmentally appropriate interactions with children and ethical/professional behaviors as indicated by assignments and onsite faculty visits. <i>This course is part of the NCCDA credential.</i>					
EDU 216	Foundations of Education	4	0	0	4
Prerequisites:	Take one set Set 1: ENG 090, RED 090 Set 2: ENG 095				
Corequisites:	None				
Course Offering Availability:	Fall				
This course introduces the American educational system and the teaching profession. Topics include historical and philosophical foundations of education, contemporary educational, structural, legal, and financial issues, and experiences in public school classrooms. Upon completion, students should be able to relate classroom observations to the roles of teachers and schools and the process of teacher education. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement at select institutions. This course is also available through the Virtual Learning Community (VLC).</i>

Corequisites: None					
Course Offering Availability: Fall					
This course covers the unique needs and rapid changes that occur in the first three years of life and the inter-related factors that influence development. Emphasis is placed on recognizing and supporting developmental milestones through purposeful strategies, responsive care routines and identifying elements of quality, inclusive early care and education. Upon completion, students should be able to demonstrate respectful relationships that provide a foundation for healthy infant/toddler/twos development, plan/select activities/materials, and partner with diverse families. <i>This course is part of the NCCDA Infant credential.</i>					
EDU 235	School-Age Dev & Program	3	0	0	3
Prerequisites: State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095					
Corequisites: None					
Course Offering Availability: Spring, Summer					
This course includes developmentally appropriate practices in group settings for school-age children. Emphasis is placed on principles of development, environmental planning, and positive guidance techniques. Upon completion, students should be able to discuss developmental principles for all children ages five to twelve and plan and implement developmentally-appropriate activities. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
EDU 243	Learning Theory	3	0	0	3
Prerequisites: State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course provides lateral entry teachers an introduction to learning theory, various styles of learning, and motivational factors involved in the learning process. Emphasis is placed on the development of cognitive skills using the eight types of intelligence and applying these to practical classroom situations. Upon completion, students should be able to describe theories and styles of learning and discuss the relationship between different types of intelligence to learning motivation.					
EDU 244	Human Growth/Development	3	0	0	3
Prerequisites: State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course introduces lateral entry teachers to theories and ages and stages related to human growth and development from birth through adolescence. Emphasis is placed on development through the stages of a child's life in the areas of physical, emotional, social, intellectual, and moral development. Upon completion, students should be able to identify and describe milestones of each stage in all areas of development and discuss factors that influence growth.

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
EDU 245	Policies and Procedures	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095				
Corequisites:	None				
Course Offering Availability:	Spring				
This course is designed to introduce new lateral entry teachers to the policies and procedures established by the local education agency. Topics include emergency situation procedures, acceptable discipline, chain of command, role of mentors, evaluation procedures, employment requirements, dress codes, and other policies and procedures. Upon completion, students should be able to explain the policies and procedures to students, parents, or others and discuss the purpose of each policy category.					
EDU 247	Sensory & Physical Disab	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 090, RED 090, EDU 144 and EDU 145 Set 2: ENG 095, EDU 144 and EDU 145				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
This course covers characteristics, intervention strategies, assistive technologies, and inclusive practices for children with sensory and physical disabilities. Topics include inclusive placement options, utilization of support services, other health impairments and family involvement for children with sensory and physical disabilities. Upon completion, students should be able to identify and utilize intervention strategies and service delivery options for those specific disabilities. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
EDU 248	Developmental Delays	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 090, RED 090, EDU 144 and EDU 145 Set 2: ENG 095, EDU 144 and EDU 145				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
This course covers the causes and assessment of developmental delays and individualized instruction and curriculum for children with developmental delays. Emphasis is placed on definition, characteristics, assessment, educational strategies, inclusion, family involvement, and services for children with developmental delays. Upon completion, students should be able to identify, assess, and plan educational intervention strategies for children with developmental delays and their families. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
EDU 251	Exploration Activities	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095				
Corequisites:	None				
Course Offering Availability:	Spring				
This course covers discovery experiences in science, math, and social studies. Emphasis is placed on developing concepts for each area and encouraging young children to explore, discover, and construct concepts. Upon completion, students should be able to discuss the discovery approach to teaching, explain major concepts in each area, and plan appropriate experiences for children.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
EDU 256	Inst Strat/Social Studies	2	2	0	3
Prerequisites: State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095					
Corequisites: None					
Course Offering Availability: Spring					
This course covers objectives, content, materials, and instructional approaches to social studies. Topics include the integration of history, geography, economics, and government materials; research/study techniques; and critical thinking. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate experiences as it relates to the NC Standard Course of Study.					
EDU 257	Inst Strat/Math	2	2	0	3
Prerequisites: State, Take one set Set 1: DMA 010, DMA 020, DMA 030, ENG 090, RED 090 Set 2: DMA 010, DMA 020, DMA 030, ENG 095					
Corequisites: None					
Course Offering Availability: Fall					
This course covers concepts, activities, methods, and materials for teaching mathematics in elementary through middle school grades. Topics include individual instruction, developmental skill building, manipulatives, problem solving, critical thinking and numerical concepts. Upon completion, students should be able to assess, plan, implement and evaluate developmentally appropriate math experiences relating to the NC Standard Course of Study.					
EDU 258	Inst Strategies/Science	2	2	0	3
Prerequisites: State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095					
Corequisites: None					
Course Offering Availability: Spring, Summer					
This course covers objectives, content, materials, and instructional approaches to natural sciences for elementary through middle grades. Topics include classroom and laboratory science experiences, research/study techniques, and critical thinking. Upon completion, students should be able to assess/plan/implement/evaluate developmentally appropriate learning experiences in science as related to the North Carolina Standard Course of Study.					
EDU 259	Curriculum Planning	3	0	0	3
Prerequisites: State, Take one set Set 1: ENG 090, RED 090 and EDU 119 Set 2: ENG 095 and EDU 119					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course is designed to focus on curriculum planning for three to five year olds. Topics include philosophy, curriculum models, indoor and outdoor environments, scheduling, authentic assessment, and planning developmentally appropriate experiences. Upon completion, students should be able to evaluate children's development, critique curriculum, plan for individual and group needs, and assess and create quality environments.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
EDU 261	Early Childhood Admin I	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095				
Corequisites:	State, EDU 119				
Course Offering Availability:	Fall				
	This course introduces principles of basic programming and staffing, budgeting/financial management and marketing, and rules and regulations of diverse early childhood programs. Topics include program structure and philosophy, standards of NC child care programs, finance, funding resources, and staff and organizational management. Upon completion, students should be able to develop components of program/personnel handbooks, a program budget, and demonstrate knowledge of fundamental marketing strategies and NC standards. <i>This course is also available through the Virtual Learning Community (VLC).</i>				
EDU 262	Early Childhood Admin II	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 090, RED 090 and EDU 261 Set 2: ENG 095 and EDU 261				
Corequisites:	State, EDU 119				
Course Offering Availability:	Spring				
	This course focuses on advocacy/leadership, public relations/community outreach and program quality/evaluation for diverse early childhood programs. Topics include program evaluation/accreditation, involvement in early childhood professional organizations, leadership/mentoring, family, volunteer and community involvement and early childhood advocacy. Upon completion, students should be able to define and evaluate all components of early childhood programs, develop strategies for advocacy and integrate community into programs. <i>This course is also available through the Virtual Learning Community (VLC).</i>				
EDU 263	School-Age Program Admin	2	0	0	2
Prerequisites:	State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095				
Corequisites:	None				
Course Offering Availability:	Fall, Summer				
	This course introduces the methods and procedures for development and administration of school-age programs in the public or proprietary setting. Emphasis is placed on the construction and organization of the physical environment. Upon completion, students should be able to plan, develop and administer a quality school-age program.				
EDU 271	Educational Technology	2	2	0	3
Prerequisites:	State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095				
Corequisites:	None				
Course Offering Availability:	Fall, Spring				
	This course introduces the use of technology to enhance teaching and learning in all educational settings. Topics include technology concepts, instructional strategies, materials and adaptive technology for children with exceptionalities, facilitation of assessment/evaluation, and ethical issues surrounding the use of technology. Upon completion, students should be able to apply technology enhanced instructional strategies, use a variety of technology resources and demonstrate appropriate technology skills in educational environments. <i>This course is also available through the Virtual Learning Community (VLC).</i>				

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
EDU 280	Language & Literacy Exp	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095				
Corequisites:	None				
Course Offering Availability:	Fall, Spring				
	This course is designed to expand students' understanding of children's language and literacy development and provides strategies for enhancing language/literacy experiences in an enriched environment. Topics include selection of diverse literature and interactive media, the integration of literacy concepts throughout the curriculum, appropriate observations/assessments and inclusive practices. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate and diverse language/literacy experiences. <i>This course is also available through the Virtual Learning Community (VLC).</i>				
EDU 281	Instruc Strat/Read & Writ	2	2	0	3
Prerequisites:	State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095				
Corequisites:	None				
Course Offering Availability:	Fall				
	This course covers concepts, resources, and methods for teaching reading and writing to elementary through middle-grade children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches and instructional strategies. Upon completion, students should be able to assess, plan, implement and evaluate school-age literacy experiences as related to the North Carolina Standard Course of Study.				
EDU 282	Early Childhood Lit	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095				
Corequisites:	None				
Course Offering Availability:	Spring				
	This course covers the history, selection, and integration of literature and language in the early childhood curriculum. Topics include the history and selection of developmentally appropriate children's literature and the use of books and other media to enhance language and literacy in the classroom. Upon completion, students should be able to select appropriate books for storytelling, reading aloud, puppetry, flannel board use, and other techniques.				
EDU 284	Early Child Capstone Prac	1	9	0	4
Prerequisites:	State, Take one set Set 1: ENG 090, RED 090, EDU 119, EDU 144, EDU 145, EDU 146, EDU 151 Set 2: ENG 095, EDU 119, EDU 144, EDU 145, EDU 146, EDU 151				
Corequisites:	None				
Course Offering Availability:	Fall, Spring, Summer				
	This course is designed to allow students to apply skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors as indicated by assignments and onsite faculty visits.				

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
EDU 285	Internship Exp-School Age	1	9	0	4
Prerequisites:	State, Take one set Set 1: ENG 090, RED 090, EDU 144, EDU 145, EDU 163, EDU 216, Set 2: ENG 095, EDU 144, EDU 145, EDU 163, EDU 216				
Corequisites:	None				
Course Offering Availability:	Fall, Spring, Summer				
	This course is designed to allow students to apply skills in a quality public or private school environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate lesson plans/assessments, appropriate guidance techniques, ethical/professional behaviors as indicated by assignments and onsite faculty visits. <i>This course is also available through the Virtual Learning Community (VLC).</i>				
EDU 287	Leadership/Early Child Ed	3	0	0	3
Prerequisites:	State, Take one set Set 1: ENG 090, RED 090, EDU 119, EDU 131, EDU 144, EDU 145 Set 2: ENG 095, EDU 119, EDU 131, EDU 144, EDU 145				
Corequisites:	None				
Course Offering Availability:	Fall, Spring, Summer				
	This course is designed to facilitate and guide the development of early childhood professionals preparing for leadership roles in improving community early childhood services. Topics include principles of social change, characteristics of effective leaders, techniques of action research, childcare funding mechanisms, quality initiatives, and key issues in early care. Upon completion, students should be able to identify key issues; develop strategic plans; establish relationships with community leaders; and identify opportunities and barriers for advocacy.				
EDU 289	Adv Issues/School Age	2	0	0	2
Prerequisites:	State, Take one set Set 1: ENG 090 and RED 090 Set 2: ENG 095				
Corequisites:	None				
Course Offering Availability:	Spring				
	This course covers advanced topics and issues that relate to school-age programs. Emphasis is placed on current advocacy issues, emerging technology, professional growth, ethics, and organizations for providers/teachers working with school-age populations. Upon completion, students should be able to list, discuss, and explain advanced current topics and issues surrounding school-aged populations.				
EGR 131	Introduction To Electronics Technology	1	2	0	2
Prerequisites:	None				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course introduces the basic skills required for electrical/electronics technicians. Topics include soldering/desoldering, safety practices, test equipment, scientific calculators, AWG wire table, the resistor color code, electronic devices, problem solving, and use of hand tools. Upon completion, students should be able to solder/desolder, operate test equipment, apply problem-solving techniques, and use a scientific calculator.				

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ELC 112	DC/AC Electricity	3	6	0	5
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the fundamental concepts of and computations related to DC/AC electricity. Emphasis is placed on DC/AC circuits, components, operation of test equipment; and other related topics. Upon completion, students should be able to construct, verify, troubleshoot, and repair DC/AC circuits.					
ELC 113	Basic Wiring I	2	6	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the care/usage of tools and materials used in electrical installations and the requirements of the National Electrical Code. Topics include NEC, electrical safety, and electrical blueprint reading; planning, layout; and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion, students should be able to properly install conduits, wiring, and electrical distribution equipment associated with basic electrical installations.					
ELC 114	Basic Wiring II	2	6	0	4
Prerequisites: Local, ELC 113					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides instruction in the application of electrical tools, materials, and test equipment associated with electrical installations. Topics include the NEC; safety; electrical blueprints; planning, layout, and installation of equipment and conduits; and wiring devices such as panels and overcurrent devices. Upon completion, students should be able to properly install equipment and conduit associated with electrical installations.					
ELC 115	Industrial Wiring	2	6	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers layout, planning, and installation of wiring systems in industrial facilities. Emphasis is placed on industrial wiring methods and materials. Upon completion, students should be able to install industrial systems and equipment.					
ELC 117	Motors and Controls	2	6	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ELC 118	National Electrical Code	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the use of the current National Electrical Code. Topics include the NEC history, wiring methods, overcurrent protection, materials, and other related topics. Upon completion, students should be able to effectively use the NEC.					
ELC 119	NEC Calculations	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers branch circuit, feeder, and service calculations. Emphasis is placed on sections of the National Electrical Code related to calculations. Upon completion, students should be able to use appropriate code sections to size wire, conduit, and overcurrent devices for branch circuits, feeders, and service.					
ELC 125	Diagrams and Schematics	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the interpretation of electrical diagrams, schematics, and drawings common to electrical applications. Emphasis is placed on reading and interpreting electrical diagrams and schematics. Upon completion, students should be able to read and interpret electrical diagrams and schematics.					
ELC 127	Software for Technicians	1	3	0	2
Prerequisites: Local, ELN 131					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces computer software which can be used to solve electrical/electronics problems. Topics include electrical/electronics calculations and applications. Upon completion, students should be able to utilize a personal computer for electrical/electronics-related applications.					
ELC 128	Introduction to PLC	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Summer					
This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to install PLCs and create simple programs. <i>This course is also available through the Virtual Learning Community (VLC).</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ELC 131	DC/AC Circuit Analysis	4	3	0	5
Prerequisites: None					
Corequisites: Local, MAT 121					
Course Offering Availability: Fall					
This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.					
ELC 215	Electrical Maintenance	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the theory of maintenance and the skills necessary to maintain electrical equipment found in industrial and commercial facilities. Topics include maintenance theory, predictive and preventive maintenance, electrical equipment operation and maintenance, and maintenance documentation. Upon completion, students should be able to perform maintenance on electrical equipment in industrial and commercial facilities.					
ELC 228	PLC Applications	2	6	0	4
Prerequisites: Local, ELC 128					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers programming and applications of programmable logic controllers. Emphasis is placed on programming techniques, networking, specialty I/O modules, and system troubleshooting. Upon completion, students should be able to specify, implement, and maintain complex PLC controlled systems.					
ELN 131	Semiconductor Applications	3	3	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the characteristics and applications of semiconductor devices and circuits. Emphasis is placed on analysis, selection, biasing, and applications. Upon completion, students should be able to construct, analyze, verify, and troubleshoot discrete component circuits using appropriate techniques and test equipment.					
ELN 132	Linear IC Applications	3	3	0	4
Prerequisites: Local, ELN 131					
Corequisites: None					
Course Offering Availability: Summer					
This course introduces the characteristics and applications of linear integrated circuits. Topics include op-amp circuits, waveform generators, active filters, IC voltage regulators, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot linear integrated circuits using appropriate techniques and test equipment.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ELN 133	Digital Electronics	3	3	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, MSI and LSI circuits, AD/DA conversion, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
ELN 150	CAD for Electronics	1	3	0	2
Prerequisites: Local, CIS 110, CIS 111, or ELC 127					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces computer-aided drafting (CAD) with an emphasis on applications in the electronics field. Topics include electronics industry standards (symbols, schematic diagrams, layouts); drawing electronic circuit diagrams; and specialized electronic drafting practices and components such as resistors, capacitors, and ICs. Upon completion, students should be able to prepare electronic drawings with CAD software.					
ELN 229	Industrial Electronics	3	3	0	4
Prerequisites: Local, ELC 112					
Corequisites: None					
Course Offering Availability: Spring					
This course covers semiconductor devices used in industrial applications. Topics include the basic theory, application, and operating characteristics of semiconductor devices. Upon completion, students should be able to install and/or troubleshoot these devices for proper operation in an industrial electronic circuit.					
ELN 232	Introduction to Microprocessors	3	3	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include low-level language programming, bus architecture, I/O systems, memory systems, interrupts, and other related topics. Upon completion, students should be able to interpret, analyze, verify, and troubleshoot fundamental microprocessor circuits and programs using appropriate techniques and test equipment.					
ELN 234	Communication Systems	3	3	0	4
Prerequisites: Local, ELN 132					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the fundamentals of electronic communication systems. Topics include the frequency spectrum, electrical noise, modulation techniques, characteristics of transmitters and receivers, and digital communications. Upon completion, students should be able to interpret analog and digital communication circuit diagrams, analyze transmitter and receiver circuits, and use appropriate communication test equipment.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ENG 080	Writing Foundations	3	2	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course introduces the writing process and stresses effective sentences. Emphasis is placed on applying the conventions of written English, reflecting standard usage and mechanics in structuring a variety of sentences. Upon completion, students should be able to write correct sentences and a unified, coherent paragraph. <i>This course is also available through the Virtual Learning Community (VLC). This course does not satisfy the developmental reading and writing prerequisite for ENG 111 or ENG 111A.</i>					
ENG 085	Reading & Writing Found	5	0	0	5
Prerequisites: None					
Corequisites: Local, ENG 085A					
Course Offering Availability: Fall, Spring, Summer					
This course uses whole language to develop proficiency in reading and writing for college. Emphasis is placed on applying analytical and critical reading skills to a variety of texts and on introducing the writing process. Upon completion, students should be able to recognize and use various patterns of text organization and compose effective paragraphs. <i>This course integrates ENG 080 and RED 080. This course does not satisfy the developmental reading and writing prerequisites for ENG 111 and ENG 111A.</i>					
ENG 085A	Reading & Writing Found Lab	0	2	0	1
Prerequisites: None					
Corequisites: State, ENG 085					
Course Offering Availability: Fall, Spring, Summer					
This laboratory provides the opportunity to practice the skills introduced in ENG 085. Emphasis is placed on practical skills for applying analytical and critical reading skills to a variety of texts and on the writing process. Upon completion, students should be able to apply those skills in the production of effective paragraphs.					
ENG 090	Composition Strategies	3	0	0	3
Prerequisites: State, ENG 080 or ENG 085					
Corequisites: Local, ENG 090A					
Course Offering Availability: Fall, Spring, Summer					
This course provides practice in the writing process and stresses effective paragraphs. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay. <i>This course satisfies the developmental writing requirement for ENG 111 and ENG 111A.</i>					
ENG 090A	Composition Strategies Lab	0	2	0	1
Prerequisites: State, ENG 080 or ENG 085					
Corequisites: State, ENG 090					
Course Offering Availability: Fall, Spring, Summer					
This writing lab is designed to practice the skills introduced in ENG 090. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ENG 095	Reading & Comp Strategies	5	0	0	5
Prerequisites: State, Take 1 set: Set 1: ENG 080 and RED 080 Set 2: ENG 085/085A					
Corequisites: Local ENG 095A					
Course Offering Availability: Fall, Spring, Summer					
This course uses whole language to strengthen proficiency in reading and writing for college. Emphasis is placed on applying critical reading skills to narrative and expository texts and on using the writing process. Upon completion, students should be able to comprehend, analyze, and evaluate college texts and to compose essays in preparation for college writing. <i>This course integrates ENG 090 and RED 090. This course satisfies the developmental reading and writing prerequisites for ENG 111 and ENG 111A.</i>					
ENG 095A	Reading & Comp Strat Lab	0	2	0	1
Prerequisites: State, Take 1 set: Set 1: ENG 080 and RED 080 Set 2: ENG 085/085A					
Corequisites: State, ENG 095					
Course Offering Availability: Fall, Spring, Summer					
This laboratory provides the opportunity to practice the skills introduced in ENG 095. Emphasis is placed on practical skills for applying critical reading skills to narrative and expository texts and on the writing process. Upon completion, students should be able to apply those skills in the production of effective essays in preparation for college writing.					
ENG 102	Applied Communications II	3	0	0	3
Prerequisites: Local, ENG 085 or RED 080					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course is designed to enhance writing and speaking skills for the workplace. Emphasis is placed on generating short writings such as job application documents, memoranda, and reports and developing interpersonal communication skills with employees and the public. Upon completion, students should be able to prepare effective, short, and job-related written and oral communications. <i>This is a diploma-level course.</i>					
ENG 110	Freshman Composition	3	0	0	3
Prerequisites: State, Take All: ENG-090 and RED-080; Local, ENG 095 or RED 090					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course is designed to develop informative and business writing skills. Emphasis is placed on logical organization of writing, including effective introductions and conclusions, precise use of grammar, and appropriate selection and use of sources. Upon completion, students should be able to produce clear, concise, well-organized short papers.					
ENG 111	Expository Writing	3	0	0	3
Prerequisites: State, ENG 090 and RED 090 or ENG 095					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course is the required first course in a series of two designed to develop the ability to produce clear expository prose. Emphasis is placed on the writing process including audience analysis, topic selection, thesis support and development, editing, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition. This course is also available through the Virtual Learning Community (VLC).</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
ENG 112	Argument-Based Research	3	0	0	3
Prerequisites: State, ENG 111					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course, the second in a series of two, introduces research techniques, documentation styles, and argumentative strategies. Emphasis is placed on analyzing data and incorporating research findings into documented argumentative essays and research projects. Upon completion, students should be able to summarize, paraphrase, interpret, and synthesize information from primary and secondary sources using standard research format and style. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition. This course is also available through the Virtual Learning Community (VLC).</i>					
ENG 114	Professional Research & Reporting	3	0	0	3
Prerequisites: State, ENG 111					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition. This course is also available through the Virtual Learning Community (VLC).</i>					
ENG 116	Technical Report Writing	3	0	0	3
Prerequisites: State, ENG 110 or ENG 111					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course, the second in a series of two, introduces layout and design of technical reports used in business and industry. Emphasis is placed on audience analysis, data collection and analysis, technical writing style and organization, oral presentation of technical data, and the appropriate use of graphics in written and oral presentations. Upon completion, students should be able to produce written and oral reports using a variety of technical communication models.					
ENG 125	Creative Writing I	3	0	0	3
Prerequisites: State, ENG 111					
Corequisites: None					
Course Offering Availability: Spring					
This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
ENG 131	Introduction to Literature	3	0	0	3
Prerequisites: State, ENG 111					
Corequisites: State, ENG 112 or ENG 114

Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course is a continuation of ITA 111 focusing on the fundamental elements of the Italian language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Italian and demonstrate further cultural awareness. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					
LOG 110	Introduction to Logistics	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall and Spring					
This course provides an overview of logistics. Topics include traffic management, warehousing, inventory control, material handling, global logistics, and the movement and storage of goods from raw materials sources to end consumers. Upon completion, students should be able to identify the different segments of logistics and use the terminology of the industry. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
LOG 125	Transportation Logistics	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the role and importance of the transportation industry. This is an overview of transportation emphasizing its environmental and sociological aspects, economic impact, services, regulatory guidelines, policies, and its future. Upon completion, students should be able to identify modes of transportation, interpret governing regulations, and describe the principles and terminology used in the transportation industry.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
LOG 211	Distribution Management	2	2	0	3
Prerequisites: State, LOG 110					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers the functions, techniques, and tools utilized in warehousing and distribution centers and their role in business and logistics. Emphasis is placed on warehouse and distribution center management, operations, productivity, software systems, picking, automation, cross docking, safety, security, material handling, benchmarking, and cost. Upon completion, students should be able to describe the role of warehouses and distribution centers, apply industry principles and terminology, and understand distribution productivity measures.					
LOG 215	Supply Chain Management	3	0	0	3
Prerequisites: State, LOG 110					
Corequisites: None					
Course Offering Availability: Spring					
This course covers all activities involved in the flow of products and information between the suppliers, customers, producers, and service providers. Topics include acquiring, purchasing, manufacturing, assembling, and distributing goods and services throughout the supply chain organizations. Upon completion, students should be able to identify the supply chain units, describe the materials management processes, and prepare for the APICS CPIM examination.					
LOG 225	Logistics Systems	3	2	0	4
Prerequisites: State, LOG 215					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the design, implementation, and application of logistics software systems utilized by businesses to improve accountability, and capabilities of their logistics processes. Emphasis is placed on an in-depth understanding of logistical software applications, optimization models, automated data collection, electronic data interchange, and other logistics software tools. Upon completion, students should be able to identify the various logistics software applications and explain how they are utilized to improve business and logistics processes.					
LOG 235	Import/Export Management	3	0	0	3
Prerequisites: State, LOG 125					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the elements of import and export operations, from transportation to documentation, finance, and security and the effects on the global supply chain. Emphasis is placed on existing import/export regulations, customs documentation, intermodal transportation, foreign freight forwarders, global technology, and homeland security initiatives. Upon completion, students should be able to perform import/export operations, channels of distribution, implemented technologies, and associate with operating a secure supply chain.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
LOG 240	Purchasing Logistics	3	0	0	3
Prerequisites: State, LOG 110					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the various aspects of purchasing, and their impact on materials management, supply chain, transportation, and global logistics processes. Emphasis is placed on the different methods of electronic sourcing, negotiating and pricing principles, and on the internal and external considerations associated with international logistics. Upon completion, students should be able to describe and apply the principles and terminology used in procurement including electronic data interchange services, purchasing and logistics systems.					
LOG 245	Logistics Security	3	0	0	3
Prerequisites: State, LOG 110					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers the role and importance of securing the domestic and global transportation and supply chain networks. Emphasis is placed on Customs and Border Protection, Department of Homeland Security, the Transportation Security Agency and how they affect businesses, logistics and transportation processes. Upon completion, students should be able to apply the principles and terminologies used in securing the logistics and transportation networks and identify potential threats.					
LOG 250	Advanced Global Logistics	3	2	0	4
Prerequisites: State, LOG 125					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the advanced application of global operations and logistics strategies, planning, technology, risk, and management necessary to cope with the global business environment. Emphasis is placed on an in-depth understanding of global sourcing, shipping, tracking, and e-logistics systems necessary to operate inbound/outbound logistics in a global market. Upon completion, students should be able to identify the different global markets and logistics technology available to process international inbound/outbound logistics transactions.					
MAS 140	Introduction to Masonry	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces basic principles and practices of masonry. Topics include standard tools, materials, and practices used in basic masonry and other related topics. Upon completion, students should be able to demonstrate an understanding of masonry and be able to use basic masonry techniques.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
NCCCS Crosswalk Between MAT-060, 070, and 080 and DMA 010 through DMA-080					
Standard Crosswalk:					
MAT-060 = DMA 010, DMA 020, DMA 030					
MAT-070 = DMA 040, DMA 050					
MAT-080 = DMA 060, DMA 070, DMA 080					
MAT 060	Essential Mathematics	3	2	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course is a comprehensive study of mathematical skills which should provide a strong mathematical foundation to pursue further study. Topics include principles and applications of decimals, fractions, percents, ratio and proportion, order of operations, geometry, measurement, and elements of algebra and statistics. Upon completion, students should be able to perform basic computations and solve relevant, multi-step mathematical problems using technology where appropriate. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
MAT 070	Introductory Algebra	3	2	0	4
Prerequisites: State, MAT 060 (DMA 010, DMA 020, DMA 030)					
Corequisites: State, Take One: RED-080 or ENG-085					
Course Offering Availability: Fall, Spring, Summer					
This course establishes a foundation in algebraic concepts and problem solving. Topics include signed numbers, exponents, order of operations, simplifying expressions, solving linear equations and inequalities, graphing, formulas, polynomials, factoring, and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
MAT 080	Intermediate Algebra	3	2	0	4
Prerequisites: State, Take All: MAT 060 (DMA 010, DMA 020, DMA 030) and MAT 070 (DMA 040, DMA 050)					
Corequisites: State, Take One: RED-080 or ENG-085					
Course Offering Availability: Fall, Spring, Summer					
This course continues the study of algebraic concepts with emphasis on applications. Topics include factoring; rational expressions; rational exponents; rational, radical, and quadratic equations; systems of equations; inequalities; graphing; functions; variations; complex numbers; and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology.					
MAT 101	Applied Mathematics I	2	2	0	3
Prerequisites: State, Take One: MAT 060 (DMA 010, DMA 020, DMA 030) MAT 070 (DMA 040, 050); MAT 080 (DMA 060, 070, 080)					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course is a comprehensive review of arithmetic with basic algebra designed to meet the needs of certificate and diploma programs. Topics include arithmetic and geometric skills used in measurement, ratio and proportion, exponents and roots, applications of percent, linear equations, formulas, and statistics. Upon completion, students should be able to solve practical problems in their specific areas of study. <i>This course is intended for diploma programs.</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MAT 115	Mathematical Models	2	2	0	3

Prerequisites: State, Take One Set:
Set 1: MAT 060 (DMA 010, DMA 020, DMA 030)
and MAT 070 (DMA 040, DMA 050)
Set 2: MAT 060 (DMA 010, DMA 020, DMA 030)
and MAT 080 (DMA 060, 070, 080)
Set 3: MAT 121
Set 4: MAT 161
Set 5: MAT 171

Corequisites: None

Course Offering Availability: Fall, Spring

This course develops the ability to utilize mathematical skills and technology to solve problems at a level found in non-mathematics-intensive programs. Topics include applications to percent, ratio and proportion, formulas, statistics, function notation, linear functions, probability, sampling techniques, scatter plots, and modeling. Upon completion, students should be able to solve practical problems, reason and communicate with mathematics, and work confidently, collaboratively, and independently. *This course is also available through the Virtual Learning Community (VLC).*

MAT 121	Algebra/Trigonometry I	2	2	0	3
----------------	-------------------------------	----------	----------	----------	----------

Prerequisites: State, Take One Set:
Set 1: MAT 060 (DMA 010, DMA 020, DMA 030)
and MAT 070 (DMA 040, DMA 050)
Set 2: MAT 060 (DMA 010, DMA 020, DMA 030)
and MAT 080 (DMA 060, 070, 080)
Local, Take 1 group:
Group A: ENG 090, RED 090
Group B: ENG 095/095A

Corequisites: None

Course Offering Availability: Fall

This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include simplification, evaluation, and solving of algebraic, and radical functions; complex numbers; right triangle trigonometry; systems of equations; and the use of technology. Upon completion, students should be able to demonstrate an understanding of the use of mathematics and technology to solve problems and analyze and communicate results.

MAT 122	Algebra/Trigonometry II	2	2	0	3
----------------	--------------------------------	----------	----------	----------	----------

Prerequisites: State, Take One: MAT 121, MAT 161, MAT 171

Corequisites: None

Course Offering Availability: Spring

This course extends the concepts covered in MAT 121 to include additional topics in algebra, function analysis, and trigonometry. Topics include exponential and logarithmic functions, translation and scaling of functions, Sine Law, Cosine Law, vectors and statistics. Upon completion, students should be able to demonstrate an understanding of the use of technology to solve problems and to analyze and communicate results.

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MAT 140	Survey of Mathematics	3	0	0	3
Prerequisites:	State, Take One Set: Set 1: MAT 060 (DMA 010, DMA 020, DMA 030) and MAT 070 (DMA 040, DMA 050) Set 2: MAT 060 (DMA 010, DMA 020, DMA 030) and MAT 080 (DMA 060, 070, 080) Set 3: MAT-121 Set 4: MAT-161 Set 5: MAT-171 Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Spring				
	This course provides an introduction in a non-technical setting to selected topics in mathematics. Topics may include, but are not limited to, sets, logic, probability, statistics, matrices, mathematical systems, geometry, topology, mathematics of finance, and modeling. Upon completion, students should be able to understand a variety of mathematical applications, think logically, and be able to work collaboratively and independently. <i>Under the CAA and ICAA, this course satisfies the general education Mathematics requirement for the AA and AFA degrees. It does not satisfy the general education Mathematics requirement for the AS degree. This course is also available through the Virtual Learning Community (VLC).</i>				
MAT 151	Statistics I	3	0	0	3
Prerequisites:	State, Take One Set: Set 1: MAT 060 (DMA 010, DMA 020, DMA 030) and MAT 080 (DMA 060, 070, 080) Set 2: MAT-121 Set 3: MAT-140 Set 4: MAT-161 Set 5: MAT-171 Set 6: MAT-175 Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	Local, MAT 151A				
Course Offering Availability:	Fall, Spring, Summer				
	This course provides a project-based approach to the study of basic probability, descriptive and inferential statistics, and decision making. Emphasis is placed on measures of central tendency and dispersion, correlation, regression, discrete and continuous probability distributions, quality control, population parameter estimation, and hypothesis testing. Upon completion, students should be able to describe important characteristics of a set of data and draw inferences about a population from sample data. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics (Quantitative).</i>				

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MAT 151A	Statistics I Lab	0	2	0	1
Prerequisites:	State, Take One Set: Set 1: MAT 060 (DMA 010, DMA 020, DMA 030) and MAT 080 (DMA 060, 070, 080) Set 2: MAT-121 Set 3: MAT-140 Set 4: MAT-161 Set 5: MAT-171 Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	State, MAT 151				
Course Offering Availability:	Fall, Spring, Summer				
	This course is a laboratory for MAT 151. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>				
MAT 161	College Algebra	3	0	0	3
Prerequisites:	State, Take One Set: Set 1: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, DMA 060, DMA 070, DMA 080 Set 2: MAT 060 (DMA 010, DMA 020, DMA 030) and MAT 080 (DMA 060, 070, 080) Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Fall, Spring, Summer				
	This course provides an integrated technological approach to algebraic topics used in problem solving. Emphasis is placed on applications involving equations and inequalities; polynomial, rational, exponential and logarithmic functions; and graphing and data analysis/modeling. Upon completion, students should be able to choose an appropriate model to fit a data set and use the model for analysis and prediction. <i>Under the CAA and ICAA, this course satisfies the general education Mathematics requirement for the AA and AFA degrees. It does not satisfy the general education Mathematics requirement for the AS degree. This course is also available through the Virtual Learning Community (VLC).</i>				
MAT 161A	College Algebra Lab	0	2	0	1
Prerequisites:	State, Take One Set: Set 1: MAT 060 (DMA 010, DMA 020, DMA 030) and MAT 080 (DMA 060, 070, 080) Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	State, MAT 161				
Course Offering Availability:	Fall, Spring,				
	This course is a laboratory for MAT 161. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>				

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MAT 165	Finite Mathematics	3	0	0	3
Prerequisites: State, Take One: MAT-161 or MAT-171					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides topics used to formulate models and to solve and interpret solutions using an algorithmic approach. Topics include linear algebra, linear programming, simplex method, sets and counting, probability, mathematics of finance, and logic. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts of finite mathematics and the ability to solve related problems. <i>Under the CAA and ICAA, this course satisfies the general education Mathematics requirement for the AA and AFA degrees. It does not satisfy the general education Mathematics requirement for the AS degree.</i>					
MAT 171	Precalculus Algebra	3	0	0	3
Prerequisites: State, Take One Set: Set 1: MAT-060 and MAT-080 Set 2: MAT-161 Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: Local, MAT 171A					
Course Offering Availability: Fall, Spring					
This is the first of two courses designed to emphasize topics which are fundamental to the study of calculus. Emphasis is placed on equations and inequalities, functions (linear, polynomial, rational), systems of equations and inequalities, and parametric equations. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and predictions. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics.</i>					
MAT 171A	Precalculus Algebra Lab	0	2	0	1
Prerequisites: State, Take One Set: Set 1: MAT-060 and MAT-080 Set 2: MAT-161 Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: State, MAT 171					
Course Offering Availability: Fall, Spring					
This course is a laboratory for MAT 171. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
MAT 172	Precalculus Trigonometry	3	0	0	3
Prerequisites: State, Take MAT 171 Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: Local, MAT 172A					
Course Offering Availability: Spring, Summer					
This is the second of two courses designed to emphasize topics which are fundamental to the study of calculus. Emphasis is placed on properties and applications of transcendental functions and their graphs, right and oblique triangle trigonometry, conic sections, and vectors, and polar coordinates. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and prediction. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics.</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MAT 172A	Precalculus Trigonometry Lab	0	2	0	1
Prerequisites:	State, MAT 171 Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	State, MAT 172				
Course Offering Availability:	Spring, Summer				
This course is a laboratory for MAT 172. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
MAT 263	Brief Calculus	3	0	0	3
Prerequisites:	State, Take One: MAT-161, MAT-171 Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Spring				
This course is designed for students needing only one semester of calculus. Topics include functions, graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics.</i>					
MAT 271	Calculus I	3	2	0	4
Prerequisites:	State, MAT 172 Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Fall				
This course covers in depth the differential calculus portion of a three-course calculus sequence. Topics include limits, continuity, derivatives, and integrals of algebraic and transcendental functions of one variable, with applications. Upon completion, students should be able to apply differentiation and integration techniques to algebraic and transcendental functions. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics. This course is also available through the Virtual Learning Community (VLC).</i>					
MAT 272	Calculus II	3	2	0	4
Prerequisites:	State, MAT 271				
Corequisites:	None				
Course Offering Availability:	Spring				
This course provides a rigorous treatment of integration and is the second calculus course in a three-course sequence. Topics include applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to use integration and approximation techniques to solve application problems. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics. This course is also available through the Virtual Learning Community (VLC).</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MAT 273	Calculus III	3	2	0	4
Prerequisites: State, MAT 272					
Corequisites: None					
Course Offering Availability: Summer					
This course covers the calculus of several variables and is third calculus course in a three-course sequence. Topics include functions of several variables, partial derivatives, multiple integrals, solid analytical geometry, vector-valued functions, and line and surface integrals. Upon completion, students should be able to solve problems involving vectors and functions of several variables. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics. This course is also available through the Virtual Learning Community (VLC).</i>					
MED 110	Orientation to Medical Assisting	1	0	0	1
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the history of medicine and the role of the medical assistant in the health care setting. Emphasis is placed on professionalism, communication, attitude, behaviors, and duties in the medical environment. Upon completion, students should be able to project a positive attitude and promote the profession of medical assisting.					
MED 118	Medical Law and Ethics	2	0	0	2
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall					
This course covers legal relationships of physicians and patients, contractual agreements, professional liability, malpractice, medical practice acts, informed consent, and bioethical issues. Emphasis is placed on legal terms, professional attitudes, and the principles and basic concepts of ethics and laws involved in providing medical services. Upon completion, students should be able to meet the legal and ethical responsibilities of a multi-skilled health professional. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
MED 121	Medical Terminology I	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces prefixes, suffixes, and word roots used in the language of medicine. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders. <i>This course is also available through the Virtual Learning Community (VLC).</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MED 122	Medical Terminology II	3	0	0	3
Prerequisites: State, MED 121					
Corequisites: None					
Course Offering Availability: Spring					
This course is the second in a series of medical terminology courses. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
MED 130	Administrative Office Procedures I	1	2	0	2
Prerequisites: Local, Enrollment in the Medical Assisting Program					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces medical office administrative procedures. Topics include appointment processing, written and oral communications, medical records, patient orientation, and safety. Upon completion, students should be able to perform basic administrative skills within the medical environment.					
MED 131	Administrative Office Procedures II	1	2	0	2
Prerequisites: Local, MED 130					
Corequisites: None					
Course Offering Availability: Spring					
This course provides medical office procedures in both economic and management skills. Topics include physical plant maintenance, equipment and supplies, liability coverage, medical economics, and introductory insurance procedures. Upon completion, students should be able to manage the economics of the medical office and supervise personnel.					
MED 134	Medical Transcription	2	2	0	3
Prerequisites: State, MED 121; Local, OST 131					
Corequisites: Local, MED 122					
Course Offering Availability: Course offered at discretion of Dean					
This course provides the basic knowledge, understanding, and skills required to complete medical reports and transcribe medical dictation. Emphasis is placed on correct punctuation, capitalization, and spelling. Upon completion, students should be able to demonstrate competence in medical transcription.					
MED 140	Exam Room Procedures I	3	4	0	5
Prerequisites: Local, BIO 163, Enrollment in the Medical Assisting Program					
Corequisites: None					
Course Offering Availability: Spring					
This course provides instruction in clinical examining room procedures. Topics include asepsis, infection control, assisting with exams and treatment, patient education, preparation and administration of medications, EKG, vital signs, and medical emergencies. Upon completion, students should be able to demonstrate competence in exam room procedures.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MED 150	Laboratory Procedures I	3	4	0	5
Prerequisites: Local, Enrollment in the Medical Assisting Program					
Corequisites: None					
Course Offering Availability: Spring					
This course provides instruction in basic lab techniques used by the medical assistant. Topics include lab safety, quality control, collecting and processing specimens, performing selective tests, phlebotomy, screening and follow-up of test results, and OSHA/CLIA regulations. Upon completion, students should be able to perform basic lab tests/skills based on course topics.					
MED 232	Medical Insurance Coding	1	3	0	2
Prerequisites: Local, BIO 163, MED 122					
Corequisites: None					
Course Offering Availability: Fall					
This course is designed to develop coding skills. Emphasis is placed on advanced diagnostic and procedural coding in the outpatient facility. Upon completion, students should be able to demonstrate proficiency in coding for reimbursement.					
MED 260	MED Clinical Practicum	0	0	15	5
Prerequisites: Local, Take All, MED 110, MED 118, MED 121, MED 122, MED 130, MED 131, MED 140, MED 150, and MED 272					
Corequisites: None					
Course Offering Availability: Summer					
This course provides the opportunity to apply clinical, laboratory, and administrative skills in a medical facility. Emphasis is placed on enhancing competence in clinical and administrative skills necessary for comprehensive patient care and strengthening professional communications and interactions. Upon completion, students should be able to function as an entry-level health care professional.					
MED 262	Clinical Perspectives	1	0	0	1
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: Local, MED 260					
Course Offering Availability: Summer					
This course is designed to explore personal and occupational responsibilities of the practicing medical assistant. Emphasis is placed on problems encountered during externships and development of problem-solving skills. Upon completion, students should be able to demonstrate courteous and diplomatic behavior when solving problems in the medical facility.					
MED 264	MED Assisting Overview	2	0	0	2
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall					
This course provides an overview of the complete medical assisting curriculum. Emphasis is placed on all facets of medical assisting pertinent to administrative, laboratory, and clinical procedures performed in the medical environment. Upon completion, students should be able to demonstrate competence in the areas covered on the national certification examination for medical assistants.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MED 270	Symptomatology	2	2	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the study of disease symptoms and the appropriate actions taken by medical assistants in a medical facility in relation to these symptoms. Emphasis is placed on interviewing skills and appropriate triage, preparing patients for procedures, and screening test results. Upon completion, students should be able to recognize how certain symptoms relate to specific diseases, recognize emergency situations, and take appropriate actions.					
MED 272	Drug Therapy	3	0	0	3
Prerequisites: Enrollment in the Medical Assisting Program					
Corequisites: None					
Course Offering Availability: Spring					
This course focuses on major drug groups, including their side effects, interactions, methods of administration, and proper documentation. Emphasis is placed on the theory of drug administration. Upon completion, students should be able to identify, spell, recognize side effects of, and document the most commonly used medications in a physician's office.					
MHA 150	Mental Health Systems	3	0	0	3
Prerequisites: State, HSE 110					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces the treatment and services available at both public and private mental health facilities. Topics include intake procedures, admission criteria, history, and structure of mental health facilities. Upon completion, students should be able to demonstrate competence in articulating both the theory and practice of mental health services delivery.					
MHA 155	Psychological Assessment	3	0	0	3
Prerequisites: State, PSY 150					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers psychological assessment. Emphasis is placed on different types of psychological tests. Upon completion, students should be able to recognize and understand the purpose of various psychological tests.					
MHA 240	Advocacy	2	0	0	2
Prerequisites: State, HSE 110					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers the roles and duties of the client advocate. Topics include treatment planning, needs assessment, referral procedures, and follow-up and integration of services. Upon completion, students should be able to effectively manage the care of the whole person from contact initiation to termination.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MKT 120	Principles of Marketing	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
MNT 110	Introduction to Maintenance Procedures	1	3	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers basic maintenance fundamentals for power transmission equipment. Topics include equipment inspection, lubrication, alignment, and other scheduled maintenance procedures. Upon completion, students should be able to demonstrate knowledge of accepted maintenance procedures and practices according to current industry standards.					
MNT 165	Mechanical Industrial Systems	1	3	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers mechanical components used in industrial machine operation. Emphasis is placed on mechanical drives, belts, gears, couplings, electrical drives, and other related topics. Upon completion, students should be able to demonstrate an understanding of industrial machines and be able to maintain this equipment.					
MRI 210	MRI Physics and Equipment	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers the physical principles of image formation, data acquisition, and image processing in magnetic resonance imaging. Emphasis is placed on instrumentation, fundamentals, pulse sequences, data manipulation, imaging parameters, options, and their effects on image quality. Upon completion, students should be able to understand the principles behind image formation, data acquisition, and image processing in magnetic resonance imaging.					
MRI 211	MRI Procedures	4	0	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers patient care, magnetic field safety, cross-sectional anatomy, contrast media, and scanning procedures in magnetic resonance imaging. Emphasis is placed on patient assessment and monitoring, safety precautions, contrast agents' use, methods of data acquisition, and identification of cross-sectional anatomy. Upon completion, students should be able to integrate all facets of imaging procedures in magnetic resonance imaging.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MRI 231	MRI Clinical Practicum	0	0	33	11
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides experience in the computed tomography clinical setting. Emphasis is placed on patient care and positioning, scanning procedures, and image production in magnetic resonance imaging. Upon completion, students should be able to assume a variety of duties and responsibilities within the magnetic resonance clinical environment.					
MUS 110	Music Appreciation	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts. This course is also available through the Virtual Learning Community (VLC).</i>					
MUS 111	Fundamentals of Music	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course is an introductory course for students with little or no music background. Emphasis is placed on music notation, rhythmic patterns, scales, key signatures, intervals, and chords. Upon completion, students should be able to demonstrate an understanding of the rudiments of music. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					
MUS 113	American Music	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces various musical styles, influences, and composers of the United States from pre-Colonial times to the present. Emphasis is placed on the broad variety of music particular to American culture. Upon completion, students should be able to demonstrate skills in basic listening and understanding of American music. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MUS 121	Music Theory I	3	2	0	4
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides an in-depth introduction to melody, rhythm, and harmony. Emphasis is placed on fundamental melodic, rhythmic, and harmonic analysis, introduction to part writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
MUS 131	Chorus I	0	2	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides an opportunity to gain experience singing in a chorus. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
MUS 132	Chorus II	0	2	0	1
Prerequisites: State, MUS 131					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides a continuation of studies begun in MUS 131. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
MUS 133	Band I	0	2	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course provides an opportunity for those who play a band instrument to gain experience playing in an ensemble. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
MUS 134	Band II	0	2	0	1
Prerequisites: State, MUS 133					
Corequisites: None					
Course Offering Availability: Spring					
This course is a continuation of MUS 133. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MUS 135	Jazz Ensemble I	0	2	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides an opportunity for those who play an appropriate instrument to gain experience playing in a jazz ensemble. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
MUS 136	Jazz Ensemble II	0	2	0	1
Prerequisites: State, MUS 135					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course is a continuation of MUS 135. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
MUS 141	Ensemble I	0	2	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course provides an opportunity to perform in any combination of instrumental, vocal, or keyboard groups of two or more. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
MUS 142	Ensemble II	0	2	0	1
Prerequisites: State, MUS 141					
Corequisites: None					
Course Offering Availability: Fall					
This course is a continuation of MUS 141. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
MUS 210	History of Rock Music	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall					
This course is a survey of Rock music from the early 1950's to the present. Emphasis is placed on musical groups, soloists, and styles related to the evolution of this idiom and on related historical and social events. Upon completion, students should be able to identify specific styles and to explain the influence of selected performers within their respective eras. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
MUS 211	History of Country Music	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces the varied origins of country music and the commercialization of this art form. Emphasis is placed on historical, sociocultural, and stylistic factors related to country music and musicians. Upon completion, students should be able to identify specific styles and explain the influence of pop culture on the development of country music. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					
MUS 212	American Musical Theatre	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers the origins and development of the musical from Show Boat to the present. Emphasis is placed on the investigation of the structure of the musical and its components through listening and analysis. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					
NET 125	Networking Basics	1	4	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the networking field. Emphasis is placed on network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols.					
NET 126	Routing Basics	1	4	0	3
Prerequisites: State, NET 125					
Corequisites: None					
Course Offering Availability: Spring					
This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs.					
NET 175	Wireless Technology	2	2	0	3
Prerequisites: State, NET 110 or NET 125					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the student to wireless technology and interoperability with different communication protocols. Topics include Wireless Application Protocol (WAP), Wireless Mark-up language (WML), link manager, service discovery protocol, transport layer and frequency band. Upon completion, students should be able to discuss in written and oral form protocols and procedures required for different wireless applications.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
NET 225	Routing & Switching I	1	4	0	3
Prerequisites: State, NET 126					
Corequisites: None					
Course Offering Availability: Fall					
This course focuses on advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches., Ethernet switching, VLANs, STP, and VTP. Emphasis will be placed on application and demonstration of skills acquired in prerequisite courses. Upon completion, students should be able to perform tasks related to VLSM, routing protocols, switching concepts and configuration, STP, VLANs, and VTP.					
NET 226	Routing & Switching II	1	4	0	3
Prerequisites: State, NET 225					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces WAN theory and design, WAN technology, PPP, Frame Relay, ISDN, and additional case studies. Topics include network congestion problems, TCP/IP transport and network layer protocols, advanced routing and switching configuration, ISDN protocols, PPP encapsulation operations on a router. Upon completion, students should be able to provide solutions for network routing problems, identify ISDN protocols, and describe the Spanning Tree protocol.					
NET 289	Networking Project	1	4	0	3
Prerequisites: None					
Corequisites: State, NET 226					
Course Offering Availability: Spring					
This course provides an opportunity to complete a significant networking project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation.					
NOS 110	Operating System Concepts	2	3	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces students to a broad range of operating system concepts, including installation and maintenance. Emphasis is placed on operating system concepts, management, maintenance, and resources required. Upon completion of this course, students will have an understanding of OS concepts, installation, management, maintenance, using a variety of operating systems. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
NOS 120	Linux/UNIX Single User	2	2	0	3
Prerequisites: State, NOS 110 or CET 211					
Corequisites: None					
Course Offering Availability: Fall					
This course develops the necessary skills for students to develop both GUI and command line skills for using and customizing a Linux workstation. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to customize and use Linux systems for command line requirements and desktop productivity roles.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
NOS 130	Windows Single User	2	2	0	3
Prerequisites: State, NOS 110 or CET 211					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/ optimization, and utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment.					
NOS 220	Linux/UNIX Admin 1	2	2	0	3
Prerequisites: State, NOS 120					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the Linux file system, group administration, and system hardware controls. Topics include installation, creation and maintaining file systems, NIS client and DHCP client configuration, NFS, SMB/Samba, Configure X. Gnome, KDE, basic memory, processes, and security. Upon completion, students should be able to perform system administration tasks including installation, configuring and attaching a new Linux workstation to an existing network.					
NOS 230	Windows Admin I	2	2	0	3
Prerequisites: State, NOS 130					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the installation and administration of a Windows Server network operating system. Topics include managing and maintaining physical and logical devices, access to resources, the server environment, managing users, computers, and groups, and Managing/Implementing Disaster Recovery. Upon completion, students should be able to manage and maintain a Windows Server environment. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
NUR 101	Practical Nursing I	7	6	6	11
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, legal/ethical/professional issues, wellness/illness patterns, and basic nursing skills. Upon completion, students should be able to demonstrate beginning understanding of nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. <i>This is a diploma-level course.</i>					
NUR 102	Practical Nursing II	8	0	12	12
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course includes more advanced concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, delegation, cost effectiveness, legal/ethical/professional issues, and wellness/illness patterns. Upon completion, students should be able to begin participating in the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. <i>This is a diploma-level course.</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
NUR 103	Practical Nursing III	6	0	12	10

Prerequisites: None

Corequisites: None

Course Offering Availability: Summer

This course focuses on use of nursing/related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. Emphasis is placed on the nursing process, wellness/illness patterns, entry-level issues, accountability, advocacy, professional development, evolving technology, and changing health care delivery systems. Upon completion, students should be able to use the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. *This is a diploma-level course.*

NUR 111	Intro to Health Concepts	4	6	6	8
----------------	---------------------------------	----------	----------	----------	----------

Prerequisites: None

Corequisites: None

Course Offering Availability: Fall

This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including medication administration, assessment, nutrition, ethics, interdisciplinary teams, informatics, evidence-based practice, individual-centered care, and quality improvement. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 112	Health-Illness Concepts	3	0	6	5
----------------	--------------------------------	----------	----------	----------	----------

Prerequisites: State, NUR 111

Corequisites: None

Course Offering Availability: Spring

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of acid-base, metabolism, cellular regulation, oxygenation, infection, stress/coping, health-wellness-illness, communication, caring interventions, managing care, safety, quality improvement, and informatics. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 113	Family Health Concepts	3	0	6	5
----------------	-------------------------------	----------	----------	----------	----------

Prerequisites: State, NUR 111

Corequisites: None

Course Offering Availability: Spring

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of oxygenation, sexuality, reproduction, grief/loss, mood/affect, behaviors, development, family, health-wellness-illness, communication, caring interventions, managing care, safety, and advocacy. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 114	Holistic Health Concepts	3	0	6	5
----------------	---------------------------------	----------	----------	----------	----------

Prerequisites: State, NUR 111

Corequisites: None

Course Offering Availability: Fall

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, inflammation, sensory perception, stress/coping, mood/affect, cognition, self, violence, health-wellness-illness, professional behaviors, caring interventions, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
NUR 117	Pharmacology	1	3	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces information concerning sources, effects, legalities, and the safe use of medications as therapeutic agents. Emphasis is placed on nursing responsibility, accountability, pharmacokinetics, routes of medication administration, contraindications, and side effects. Upon completion, students should be able to compute dosages and administer medication safely.					
NUR 211	Health Care Concepts	3	0	6	5
Prerequisites: State, NUR 111					
Corequisites: None					
Course Offering Availability: Fall					
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, health-wellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.					
NUR 212	Health System Concepts	3	0	6	5
Prerequisites: State, NUR 111					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of grief/loss, violence, health-wellness-illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, and evidence-based practice. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.					
NUR 212AB	Health System Concepts Part A	1.5	0	3	2.5
Prerequisites: State, NUR 111					
Corequisites: None					
Course Offering Availability: Spring					
This course is designed to further develop the concepts within the three domains of the individual and nursing, and healthcare. Emphasis is placed on the concepts of grief/loss, mood, affect, violence, managing care, caring interventions, and ethics.					
NUR 212BB	Health System Concepts Part B	1.5	0	3	2.5
Prerequisites: State, NUR 111					
Corequisites: None					
Course Offering Availability: Fall					
This course is designed to further develop the concepts within the three domains of the individual and nursing, and healthcare. Emphasis is placed on the concepts of accountability, advocacy, collaboration, ethics, evidence-based practice, health care systems, health policy, legal issues, safety, managing care, caring interventions, and health, wellness and illness.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
NUR 213	Complex Health Concepts	4	3	15	10

Prerequisites: State, Take NUR 111

Corequisites: State, Take All: NUR 112, NUR 113, NUR 114, NUR 211, and NUR 212

Course Offering Availability: Spring

This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, perfusion, mobility, stress/coping, violence, health-wellness-illness, professional behaviors, caring interventions, managing care, healthcare systems, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry level nursing care.

NUR 214	Nsg Transition Concepts	3	0	3	4
----------------	--------------------------------	----------	----------	----------	----------

Prerequisites: None

Corequisites: None

Course Offering Availability: Summer

This course is designed to introduce concepts within the three domains of the individual, healthcare, and nursing as the LPN transitions to the ADN role. Emphasis is placed on the concepts within each domain including evidenced-based practice, quality improvement, communication, safety, interdisciplinary team, clinical decision-making, informatics, assessment, caring, and health-wellness-illness. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 221	LPN to ADN Concepts I	6	0	9	9
----------------	------------------------------	----------	----------	----------	----------

Prerequisites: None

Corequisites: None

Course Offering Availability: Fall

This course is designed for the LPN to ADN student to explore the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of safety, perfusion, inflammation, oxygenation, mood/affect, behavior, development, family, health-wellness-illness, sensory perception, stress/coping, cognition, self, violence, and professional behaviors. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 223	LPN to ADN Concepts II	6	0	9	9
----------------	-------------------------------	----------	----------	----------	----------

Prerequisites: State, NUR 221

Corequisites: None

Course Offering Availability: Spring

This course is designed for the LPN to ADN student to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, thermoregulation, oxygenation, tissue integrity, infection, perfusion, mobility, reproduction, sexuality, health-wellness-illness, professional behaviors, accountability, advocacy, and collaboration. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry-level nursing care.

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
NUT 110	Nutrition	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers basic principles of nutrition and their relationship to human health. Topics include meeting nutritional needs of healthy people, menu modification based on special dietary needs, food habits, and contemporary problems associated with food selection. Upon completion, students should be able to apply basic nutritional concepts as they relate to health and well-being. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
OST 131	Keyboarding	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course covers basic keyboarding skills. Emphasis is placed on the touch system, correct techniques, and development of speed and accuracy. Upon completion, students should be able to key at an acceptable speed and accuracy level using the touch system.					
OST 132	Keyboard Skill Building	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course is designed to increase speed and improve accuracy in keyboarding. Emphasis is placed on diagnostic tests to identify accuracy and speed deficiencies followed by corrective drills. Upon completion, students should be able to keyboard rhythmically with greater accuracy and speed.					
OST 134	Text Entry & Formatting	2	2	0	3
Prerequisites: Local, OST 131 or Equivalent					
Corequisites: None					
Course Offering Availability: Spring					
This course is designed to provide the skills needed to increase speed, improve accuracy, and format documents. Topics include letters, memos, tables, and business reports. Upon completion, students should be able to produce documents and key timed writings at speeds commensurate with employability. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
OST 135	Advanced Text Entry & Formatting	3	2	0	4
Prerequisites: State, OST 134					
Corequisites: None					
Course Offering Availability: Fall					
This course is designed to incorporate computer application skills in the generation of office documents. Emphasis is placed on advanced document production. Upon completion, students should be able to make independent decisions regarding planning, style, and method of presentation.					
OST 136	Word Processing	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course is designed to introduce word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized software functions. Upon completion, students should be able to work effectively in a computerized word processing environment. <i>This course is also available through the Virtual Learning Community (VLC).</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
OST 137	Office Software Applications	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the concepts and functions of software that meets the changing needs of the community. Emphasis is placed on the terminology and use of software through a hands-on approach. Upon completion, students should be able to use software in a business environment. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
OST 138	Advanced Software Applications	2	2	0	3
Prerequisites: State, Take One: OST-137, CIS-110, or CIS-111					
Corequisites: None					
Course Offering Availability: Spring					
This course is designed to improve the proficiency in the utilization of software applications used in business offices through a hands-on approach. Emphasis is placed on in-depth usage of software to create a variety of documents applicable to current business environments. Upon completion, students should be able to master the skills required to design documents that can be customized using the latest software applications. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
OST 140	Internet Comm/Research	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course provides a working knowledge of Internet usage and research for the modern office. Emphasis is placed on using search engines, email, Web sites, Web servers, communication services, and e-business to obtain information vital to the current office environment. Upon completion, students should be able to use the Internet to research any office topics required for employment.					
OST 141	Medical Terms I-Medical Office	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course uses a language-structure approach to present the terminology and vocabulary that will be encountered in medical office settings. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in approximately one-half of the systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.					
OST 142	Medical Terms II-Medical Office	3	0	0	3
Prerequisites: State, OST 141					
Corequisites: None					
Course Offering Availability: Spring					
This course is a continuation of OST 141 and continues the study, using a language-structure approach, of medical office terminology and vocabulary. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in the remaining systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
OST 148	Medical Coding Billing & Insurance	3	0	0	3
Prerequisites: Local, OST 141					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces fundamentals of medical coding, billing, and insurance. Emphasis is placed on the medical billing cycle to include third party payers, coding concepts, and form preparation. Upon completion, students should be able to explain the life cycle of and accurately complete a medical insurance claim. <i>This course is also available through the Virtual Learning Community (VLC).</i>

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
OST 159	Legal Office Ethics	2	0	0	2
Prerequisites: Local, OST 136 or Equivalent					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces the complex legal and ethical issues involved in the role of administrative support personnel in a variety of law-related offices. Topics include conduct compatible with the professional obligations of the employer, legally protected relationships, and the professional responsibilities of the employee. Upon completion, students should be able to conduct themselves in an ethical manner appropriate to a variety of law-related workplaces.					
OST 162	Executive Terminology	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Summer					
This course is designed to increase and improve proficiency in word usage. Topics include root words, prefixes, suffixes, homonyms, synonyms, and specialized vocabularies. Upon completion, students should be able to use acquired vocabulary skills in the global workplace.					
OST 164	Text Editing Applications	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
OST 181	Intro to Office Systems	2	2	0	3
Prerequisites: Local, OST 136					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the skills and abilities needed in today's office. Topics include effectively interacting with co-workers and the public, processing simple financial and informational documents, and performing functions typical of today's offices. Upon completion, students should be able to display skills and decision-making abilities essential for functioning in the total office context.					
OST 184	Records Management	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system. <i>This course is also available through the Virtual Learning Community (VLC).</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
OST 223	Admin Office Transcript I	2	2	0	3
Prerequisites: State, Take One Set: Set 1: OST-134 and OST-164 Set 2: OST-136 and OST-164					
Corequisites: None					
Course Offering Availability: Spring					
This course provides experience in transcribing documents. Emphasis is placed on appropriate formatting, advanced text editing skills, and transcription techniques. Upon completion, students should be able to transcribe office documents.					
OST 224	Admin. Ofc Transcript II	1	2	0	2
Prerequisites: State, OST 223					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides instruction and practice in advanced transcription skills. Emphasis is placed on specialized transcription features. Upon completion, students should be able to transcribe complex business documents.					
OST 233	Office Publications Design	2	2	0	3
Prerequisites: State, OST 136					
Corequisites: None					
Course Offering Availability: Spring					
This course provides entry-level skills in using software with desktop publishing capabilities. Topics include principles of page layout, desktop publishing terminology and applications, and legal and ethical considerations of software use. Upon completion, students should be able to design and produce professional business documents and publications.					
OST 236	Adv Word/Information Processing	2	2	0	3
Prerequisites: State, OST 136					
Corequisites: None					
Course Offering Availability: Fall					
This course develops proficiency in the utilization of advanced word/information processing functions. Emphasis is placed on advanced word processing features. Upon completion, students should be able to produce a variety of complex business documents. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
OST 241	Medical Office Transcription I	1	2	0	2
Prerequisites: State, Take One: MED-121 or OST-141 Local, OST 136					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces machine transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription, proofreading, and use of reference materials as well as vocabulary building. Upon completion, students should be able to prepare accurate and usable transcripts of voice recordings in the covered specialties.					
OST 242	Medical Office Transcription II	1	2	0	2
Prerequisites: State, OST 241					
Corequisites: None					
Course Offering Availability: Summer					
This course continues building transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription and text editing, efficient use of reference materials, increasing transcription speed and accuracy, and improving understanding of medical terminology. Upon completion, students should be able to display competency in accurately transcribing medical documents.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
OST 243	Medical Office Simulation	2	2	0	3
Prerequisites: State, OST 148					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections.					
OST 247	Procedure Coding	1	2	0	2
Prerequisites: State, Take MED 121 or OST 141					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides in-depth coverage of procedural coding. Emphasis is placed on CPT and HCPCS coding systems. Upon completion, students should be able to properly code procedures and services performed in a medical facility.					
OST 248	Diagnostic Coding	1	2	0	2
Prerequisites: State, Take MED 121 or OST 141					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides an in-depth study of diagnostic coding. Emphasis is placed on ICD coding system. Upon completion, students should be able to properly code diagnoses in a medical facility.					
OST 249	CPC Certification	3	2	0	4
Prerequisites: State, Take OST 247 and OST 248					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides instruction that will prepare students to sit for the American Association of Professional Coders (AAPC) CPC Exam. Topics include diagnostic and procedural coding. Upon completion, students should be able to sit for the AAPC CPC Exam.					
OST 252	Legal Transcription I	2	2	0	3
Prerequisites: State, Take One Set: Set 1: OST-155 and OST-134 Set 2: OST-155 and OST-136					
Corequisites: None					
Course Offering Availability: Fall					
This course provides experience in transcribing legal correspondence, forms, and documents. Emphasis is placed on developing listening skills to transcribe documents. Upon completion, students should be able to transcribe documents with accuracy. <i>This course is a unique concentration requirement in the Legal Office Systems Technology concentration in the Office Systems Technology program.</i>					
OST 281	Emer Issues in Med Ofc	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course provides a comprehensive discussion of topics familiar to the health care setting. Topics include emerging issues in the health care setting. Upon completion, students should be able to demonstrate an understanding of current medical office procedures and treatments.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
OST 284	Emerging Technologies	1	2	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides opportunities to explore emerging technologies. Emphasis is placed on identifying, researching, and presenting current technological topics for class consideration and discussion. Upon completion, students should be able to understand the importance of keeping abreast of technological changes that affect the office professional.					
OST 286	Professional Development	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance, attitude, personal and professional growth, multicultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
PED 110	Fit and Well for Life	1	2	0	2
Prerequisites: Local, ENG 085 or RED 080					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course is designed to investigate and apply the basic concepts and principles of lifetime physical fitness and other health-related factors. Emphasis is placed on wellness through the study of nutrition, weight control, stress management, and consumer facts on exercise and fitness. Upon completion, students should be able to plan a personal, lifelong fitness program based on individual needs, abilities, and interests. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
PED 115	Step Aerobics I	0	3	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces the fundamentals of step aerobics. Emphasis is placed on basic stepping up and down on an adjustable platform; cardiovascular fitness; and upper body, floor, and abdominal exercises. Upon completion, students should be able to participate in basic step aerobics. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
PED 117	Weight Training I	0	3	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the basics of weight training. Emphasis is placed on developing muscular strength, muscular endurance, and muscle tone. Upon completion, students should be able to establish and implement a personal weight training program. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
PED 119	Circuit Training	0	3	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers the skills necessary to participate in a developmental fitness program. Emphasis is placed on the circuit training method which involves a series of conditioning times stations arranged for maximum benefit and variety. Upon completion, students should be able to understand and appreciate the role of circuit training as a means to develop fitness. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
PED 120	Walking for Fitness	0	3	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces fitness through walking. Emphasis is placed on stretching, conditioning exercises, proper clothing, fluid needs, and injury prevention. Upon completion, students should be able to participate in a recreational walking program. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
PED 121	Walk, Jog, Run	0	3	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers the basic concepts involved in safely and effectively improving cardiovascular fitness. Emphasis is placed on walking, jogging, or running as a means of achieving fitness. Upon completion, students should be able to understand and appreciate the benefits derived from these activities. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
PED 124	Run, Swim, Cycle	0	3	0	1
Prerequisites: Local, YMCA membership fee of \$120.00, per semester. (Proof of Membership)					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces the sport of the triathlon. Topics include the rules, equipment, and skills necessary for the triathlon. Upon completion, students should be able to participate in a triathlon competition. Students must pay a reduced membership fee of \$120.00 in order to utilize the YMCA facilities during the semester, in which they are enrolled in the course. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
PED 125	Self-Defense-Beginning	0	2	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course is designed to aid students in developing rudimentary skills in self-defense. Emphasis is placed on stances, blocks, punches, and kicks as well as non-physical means of self-defense. Upon completion, students should be able to demonstrate basic self-defense techniques of a physical and non-physical nature. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
PED 128	Golf-Beginning	0	2	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course emphasizes the fundamentals of golf. Topics include the proper grips, stance, alignment, swings for the short and long game, putting, and the rules and etiquette of golf. Upon completion, students should be able to perform the basic golf shots and demonstrate a knowledge of the rules and etiquette of golf. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
PED 129	Golf-Intermediate	0	2	0	1
Prerequisites: State, PED 128					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers the more advanced phases of golf. Emphasis is placed on refining the fundamental skills and learning more advanced phases of the games such as club selection, trouble shots, and course management. Upon completion, students should be able demonstrate the knowledge and ability to play a recreational round of golf. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
PED 130	Tennis-Beginning	0	2	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course emphasizes the fundamentals of tennis. Topics include basic strokes, rules, etiquette, and court play. Upon completion, students should be able to play recreational tennis. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
PED 139	Bowling-Beginning	0	2	0	1
Prerequisites: Local, (A fee charge is required, per game)					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces the fundamentals of bowling. Emphasis is placed on ball selection, grips, stance, and delivery along with rules and etiquette. Upon completion, students should be able to participate in recreational bowling. Students will be required to pay a reduced bowling fee per game, in order to use the local bowling facility. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					
PED 142	Lifetime Sports	0	2	0	1
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course is designed to give an overview of a variety of sports activities. Emphasis is placed on the skills and rules necessary to participate in a variety of lifetime sports. Upon completion, students should be able to demonstrate an awareness of the importance of participating in lifetime sports activities. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit

Course Offering Availability: Fall, Spring, Summer					
This course covers the major issues, trends, and concepts in contemporary pharmacy practice. Topics include professional ethics, continuing education, job placement, and the latest developments in pharmacy technician practice. Upon completion, students should be able to demonstrate a basic knowledge of the topics discussed.					
PHM 165	Pharmacy Prof Practice	2	0	0	2
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090, MAT 070 (DMA 040, DMA 050) Group B: ENG 095/095A, MAT 070 (DMA 040, DMA 050)					
Corequisites: None					
Course Offering Availability: Fall					
This course provides a general overview of all aspects of pharmacy technician practice. Emphasis is placed on pharmacy law, calculations, compounding, pharmacology, and pharmacy operations. Upon completion, students should be able to demonstrate competence in the areas required for the Pharmacy Technician Certification Examination.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
PHY 101	Fundamentals of Physics I	3	2	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces fundamental physical concepts with emphasis on applications. Topics include systems of units, problem-solving methods, graphical analyses, vectors, motion, forces, Newton's laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied to their specific programs. <i>This course is intended for diploma programs.</i>					
PHY 110	Conceptual Physics	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: Local PHY 110A					
Course Offering Availability: Fall, Spring					
This course provides a conceptually-based exposure to the fundamental principles and processes of the physical world. Topics include basic concepts of motion, forces, energy, heat, electricity, magnetism, and the structure of matter and the universe. Upon completion, students should be able to describe examples and applications of the principles studied. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i>					
PHY 110A	Conceptual Physics Lab	0	2	0	1
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: State, PHY 110					
Course Offering Availability: Fall, Spring					
This course is a laboratory for PHY 110. Emphasis is placed on laboratory experiences that enhance materials presented in PHY 110. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in PHY 110. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science.</i>					
PHY 131	Physics-Mechanics	3	2	0	4
Prerequisites: State, Take One: MAT-121, MAT-161, MAT-171					
Corequisites: None					
Course Offering Availability: Spring					
This algebra/trigonometry-based course introduces fundamental physical concepts as applied to engineering technology fields. Topics include systems of units, problem-solving methods, graphical analysis, vectors, motion, forces, Newton's laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to apply the principles studied to applications in engineering technology fields.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
PHY 151	College Physics I	3	2	0	4
Prerequisites:	State, Take One: MAT-161, MAT-171 Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Spring				
<p>This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i></p>					
PHY 152	College Physics II	3	2	0	4
Prerequisites:	State, PHY 151				
Corequisites:	None				
Course Offering Availability:	Summer				
<p>This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i></p>					
PHY 251	General Physics I	3	3	0	4
Prerequisites:	State, MAT 271; Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	State, MAT 272				
Course Offering Availability:	Spring				
<p>This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vector operations, linear kinematics and dynamics, energy, power, momentum, rotational mechanics, periodic motion, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).</i></p>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
PHY 252	General Physics II	3	3	0	4

Prerequisites: State, MAT 272 and PHY 251

Corequisites: None

Course Offering Availability: Course offered at discretion of Dean

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This course is also available through the Virtual Learning Community (VLC).*

POL 120	American Government	3	0	0	3
----------------	----------------------------	----------	----------	----------	----------

Prerequisites: Local, Take 1 group:
Group A: ENG 090, RED 090
Group B: ENG 095/095A

Corequisites: None

Course Offering Availability: Course offered at discretion of Dean

This course is a study of the origins, development, structure, and functions of American national government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy formation. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. *This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences. This course is also available through the Virtual Learning Community (VLC).*

POL 210	Comparative Government	3	0	0	3
----------------	-------------------------------	----------	----------	----------	----------

Prerequisites: Local, Take 1 group:
Group A: ENG 090, RED 090
Group B: ENG 095/095A

Corequisites: None

Course Offering Availability: Course offered at discretion of Dean

This course provides a cross-national perspective on the government and politics of contemporary nations such as Great Britain, France, Germany, and Russia. Topics include each country's historical uniqueness, key institutions, attitudes and ideologies, patterns of interaction, and current political problems. Upon completion, students should be able to identify and compare various nations' governmental structures, processes, ideologies, and capacity to resolve major problems. *This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.*

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
POL 220	International Relations	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course provides a study of ideologies, trade, armaments, and alliances on relations among nation-states. Emphasis is placed on regional and global cooperation and conflict, economic development, trade, non-governmental organizations, and international institutions such as the World Court and UN. Upon completion, students should be able to identify and discuss major international relationships, institutions, and problems. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.</i>				
PSY 101	Applied Psychology	3	0	0	3
Prerequisites:	None				
Corequisites:	None				
Course Offering Availability:	Spring				
	This course introduces the basic principles of psychology as they apply to daily life. Topics include perception, emotions, motivation, adjustment, behavior management, communication, and related topics that promote growth and development on the job and in one's personal life. Upon completion, students should be able to apply the principles learned in this class to everyday living. <i>This course is intended for diploma programs.</i>				
PSY 110	Life Span Development	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Spring				
	This course provides an introduction to the study of human growth and development. Emphasis is placed on the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span and apply this knowledge to their specific field of study.				
PSY 118	Interpersonal Psychology	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Spring				
	This course introduces the basic principles of psychology as they relate to personal and professional development. Emphasis is placed on personality traits, communication/leadership styles, effective problem solving, and cultural diversity as they apply to personal and work environments. Upon completion, students should be able to demonstrate an understanding of these principles of psychology as they apply to personal and professional development.				

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
PSY 150	General Psychology	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Fall, Spring, Summer				
	This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences. This course is also available through the Virtual Learning Community (VLC).</i>				
PSY 237	Social Psychology	3	0	0	3
Prerequisites:	State, Take One PSY 150 or SOC 210				
Corequisites:	None				
Course Offering Availability:	Spring				
	This course introduces the study of individual behavior within social contexts. Topics include affiliation, attitude formation and change, conformity, altruism, aggression, attribution, interpersonal attraction, and group behavior. Upon completion, students should be able to demonstrate an understanding of the basic principles of social influences on behavior. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.</i>				
PSY 239	Psychology of Personality	3	0	0	3
Prerequisites:	State, PSY 150				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course covers major personality theories and personality research methods. Topics include psychoanalytic, behavioristic, social learning, cognitive, humanistic, and trait theories including supporting research. Upon completion, students should be able to compare and contrast traditional and contemporary approaches to the understanding of individual differences in human behavior. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences.</i>				
PSY 241	Developmental Psychology	3	0	0	3
Prerequisites:	State, PSY 150				
Corequisites:	None				
Course Offering Availability:	Fall, Spring, Summer				
	This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences. This course is also available through the Virtual Learning Community (VLC).</i>				

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
PSY 265	Behavioral Modification	3	0	0	3
Prerequisites: State, PSY 150					
Corequisites: None					
Course Offering Availability: Summer					
This course is an applied study of factors influencing human behavior and strategies for behavioral change. Emphasis is placed on cognitive-behavioral theory, behavioral assessment, practical applications of conditioning techniques, and maintenance of adaptive behavior patterns. Upon completion, students should be able to implement basic learning principles to effect behavioral changes in self and others.					
PSY 281	Abnormal Psychology	3	0	0	3
Prerequisites: State, PSY 150					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences. This course is also available through the Virtual Learning Community (VLC).</i>					
PTC 110	Industrial Environment	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course provides the pharmaceutical industry, including a broad overview of work in this field. Emphasis is placed on good manufacturing practices (GMP), work conduct, company organization, job expectations, personal safety, hygiene, and company rules and regulations. Upon completion, students should be able to follow good manufacturing practice regulations and inspect a pharmaceutical manufacturing facility for compliance with GMP. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
RAD 110	Radiography Introduction & Patient Care	2	3	0	3
Prerequisites: Local, Enrollment in the Radiography Program					
Corequisites: State, Take All: RAD-111 and RAD-151					
Course Offering Availability: Fall					
This course provides an overview of the radiography profession and student responsibilities. Emphasis is placed on basic principles of patient care, radiation protection, technical factors, and medical terminology. Upon completion, students should be able to demonstrate basic skills in these areas.					
RAD 111	RAD Procedures I	3	3	0	4
Prerequisites: Local, Enrollment in the Radiography Program					
Corequisites: State, Take All: RAD-110 and RAD-151					
Course Offering Availability: Fall					
This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the chest, abdomen, extremities, spine, and pelvis. Upon completion, students should be able to demonstrate competence in these areas.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
RAD 112	RAD Procedures II	3	3	0	4
Prerequisites: State, Take All: RAD-110, RAD-111, and RAD-151 Local, BIO-163					
Corequisites: Local, RAD 121 and RAD 161					
Course Offering Availability: Spring					
This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the skull, bony thorax, and gastrointestinal, biliary, and urinary systems. Upon completion, students should be able to demonstrate competence in these areas.					
RAD 121	Radiographic Imaging I	2	3	0	3
Prerequisites: State, Take All: RAD-110, RAD-111, and RAD-151					
Corequisites: Local, RAD 112 and RAD 161					
Course Offering Availability: Spring					
This course provides the principles of conventional film-screen radiography. Emphasis is placed on the factors that impact density, contrast, recorded detail, and distortion. Upon completion, students should be able to demonstrate an understanding of conventional film-screen radiographic imaging.					
RAD 122	Radiographic Imaging II	1	3	0	2
Prerequisites: State, Take All: RAD-112, RAD-121, and RAD-161 Local, BIO 163 or BIO 168 and BIO 169					
Corequisites: State, Take All: RAD-131, and RAD-171					
Course Offering Availability: Summer					
This course provides advanced principles of imaging including digital radiography. Emphasis is placed on the factors that impact brightness, contrast, recorded detail, and distortion. Upon completion, students should be able to demonstrate an understanding of advanced principles of imaging.					
RAD 131	Radiographic Physics I	1	3	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Summer					
This course introduces the principles of radiation characteristics and production. Emphasis is placed on imaging equipment. Upon completion, students should be able to demonstrate a basic understanding of radiation characteristics and production.					
RAD 151	RAD Clinical Ed I	0	0	6	2
Prerequisites: Local, Enrollment in the Radiography Program					
Corequisites: State, Take All: RAD-110 and RAD-111					
Course Offering Availability: Fall					
This course introduces patient management and basic radiographic procedures in the clinical setting. Emphasis is placed on mastering positioning of the chest and extremities, manipulating equipment, and applying principles of ALARA. Upon completion, students should be able to demonstrate successful completion of clinical objectives.					
RAD 161	RAD Clinical Ed II	0	0	15	5
Prerequisites: State, Take All: RAD-110, RAD-111, and RAD-151					
Corequisites: State, Take All: RAD-112 and RAD-121					
Course Offering Availability: Spring					
This course provides additional experience in patient management and in more complex radiographic procedures. Emphasis is placed on mastering positioning of the spine, pelvis, head and neck, and thorax and adapting procedures to meet patient variations. Upon completion, students should be able to demonstrate successful completion of clinical objectives.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
RAD 171	RAD Clinical Ed III	0	0	12	4
Prerequisites: State, Take All: RAD-112, RAD-121, and RAD-161					
Corequisites: State, Take All: RAD-122 and RAD-131; Local, RAD 241					
Course Offering Availability: Summer					
This course provides experience in patient management specific to fluoroscopic and advanced radiographic procedures. Emphasis is placed on applying appropriate technical factors to all studies and mastering positioning of gastrointestinal and urological studies. Upon completion, students should be able to demonstrate successful completion of clinical objectives.					
RAD 211	RAD Procedures III	2	3	0	3
Prerequisites: State, RAD 122					
Corequisites: State, Take All: RAD-231, RAD-241, and RAD-251					
Course Offering Availability: Fall					
This course provides the knowledge and skills necessary to perform standard and specialty radiographic procedures. Emphasis is placed on radiographic specialty procedures, sectional anatomy, and advanced imaging. Upon completion, students should be able to demonstrate an understanding of these areas.					
RAD 231	Radiographic Physics II	1	3	0	2
Prerequisites: State, Take One: RAD-131 or RAD-171					
Corequisites: Local, RAD 211, RAD 241 RAD 251					
Course Offering Availability: Fall					
This course provides advanced principles of radiation characteristics and production including digital imaging and Computed Tomography (CT). Emphasis is placed on imaging equipment. Upon completion, students should be able to demonstrate an understanding of radiation characteristics and production.					
RAD 241	Radiobiology/Protection	2	0	0	2
Prerequisites: State, Take All: RAD-122, RAD-131, and RAD-171					
Corequisites: State, Take All: RAD-211, RAD-231, and RAD-251					
Course Offering Availability: Fall					
This course covers the principles of radiation protection and radiobiology. Topics include the effects of ionizing radiation on body tissues, protective measures for limiting exposure to the patient and personnel, and radiation monitoring devices. Upon completion, students should be able to demonstrate an understanding of the effects and uses of radiation in diagnostic radiology.					
RAD 245	Image Analysis	1	3	0	2
Prerequisites: State, Take All: RAD-211, RAD-231, RAD-241, and RAD-251					
Corequisites: State, RAD 261					
Course Offering Availability: Spring					
This course provides an overview of image analysis and introduces methods of quality management. Topics include image evaluation, pathology, quality control, and quality assurance. Upon completion, students should be able to demonstrate a basic knowledge of image analysis and quality management.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
RAD 251	RAD Clinical Ed IV	0	0	21	7
Prerequisites: State, Take All: RAD-122, RAD-131, and RAD-171					
Corequisites: State, Take All: RAD-211, RAD-231, and RAD-241					
Course Offering Availability: Fall					
This course provides the opportunity to continue mastering all basic radiographic procedures and to attain experience in advanced areas. Emphasis is placed on equipment operation, pathological recognition, pediatric and geriatric variations, and a further awareness of radiation protection requirements. Upon completion, students should be able to demonstrate successful completion of clinical objectives.					
RAD 261	RAD Clinical Ed V	0	0	21	7
Prerequisites: State, RAD 251					
Corequisites: State, RAD 245					
Course Offering Availability: Spring					
This course is designed to enhance expertise in all radiographic procedures, patient management, radiation protection, and image production and evaluation. Emphasis is placed on developing an autonomous approach to the diversity of clinical situations and successfully adapting to those procedures. Upon completion, students should be able to demonstrate successful completion of clinical objectives.					
RAD 271	Radiography Capstone	0	3	0	1
Prerequisites: State, Take All: RAD-211, RAD-231, RAD-241, and RAD-251					
Corequisites: State, Take All: RAD-245, and RAD-261					
Course Offering Availability: Spring					
This course provides an opportunity to exhibit problem-solving skills required for certification. Emphasis is placed on critical thinking and integration of didactic and clinical components. Upon completion, students should be able to demonstrate the knowledge required of any entry-level radiographer.					
RED 080	Introduction to College Reading	3	2	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course introduces effective reading and inferential thinking skills in preparation for RED 090. Emphasis is placed on vocabulary, comprehension, and reading strategies. Upon completion, students should be able to determine main ideas and supporting details, recognize basic patterns of organization, draw conclusions, and understand vocabulary in context. <i>This course does not satisfy the developmental reading prerequisite for ENG 111 or ENG 111A.</i>					
RED 090	Improved College Reading	3	2	0	4
Prerequisites: State, RED 080 or ENG 085					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course is designed to improve reading and critical thinking skills. Topics include vocabulary enhancement; extracting implied meaning; analyzing author's purpose, tone, and style; and drawing conclusions and responding to written material. Upon completion, students should be able to comprehend and analyze college-level reading material. <i>This course satisfies the developmental reading prerequisite for ENG 111 or ENG 111A.</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
REL 110	World Religions	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course introduces the world's major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts. This course is also available through the Virtual Learning Community (VLC).</i>				
REL 211	Introduction to Old Testament	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>				
REL 212	Introduction to New Testament	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>				
SAB 110	Substance Abuse Overview	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course provides an overview of the core concepts in substance abuse and dependence. Topics include the history of drug use/abuse, effects on societal members, treatment of addiction, and preventive measures. Upon completion, students should be able to demonstrate knowledge of the etiology of drug abuse, addiction, prevention, and treatment.				

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
SAB 120	Intake and Assessment	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course develops processes for establishment of client rapport, elicitation of client information on which therapeutic activities are based, and stimulation of client introspection. Topics include diagnostic criteria, functions of counseling, nonverbal behavior, collaterals and significant others, dual diagnosis, client strengths and weakness, uncooperative clients, and crisis interventions. Upon completion, students should be able to establish communication with clients, recognize disorders, obtain information for counseling, and terminate the counseling process. <i>This course is a unique concentration requirement of the Substance Abuse concentration in the Human Services Technology program.</i>				
SAB 125	SAB Case Management	2	2	0	3
Prerequisites:	State, SAB 120				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course provides case management activities, including record keeping, recovery issues, community resources, and continuum of care. Emphasis is placed on establishing a systematic approach to monitor the treatment plan and maintain quality of life. Upon completion, students should be able to assist clients in the continuum of care as an ongoing recovery process and develop agency networking. <i>This course is a unique concentration requirement of the Substance Abuse concentration in the Human Services Technology program.</i>				
SAB 135	Addictive Process	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course explores the physical, emotional, psychological, and cultural aspects of the addictive process. Emphasis is placed on addictions to food, sex, alcohol, drugs, work, gambling, and relationships. Upon completion, students should be able to identify the effects, prevention strategies, and treatment methods associated with addictive disorders.				
SAB 210	Substance Abuse Counseling	2	2	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course provides theory and skills acquisition by utilizing intervention strategies designed to obtain therapeutic information, support recovery, and prevent relapse. Topics include counseling individuals and dysfunctional families, screening instruments, counseling techniques and approaches, recovery and relapse, and special populations. Upon completion, students should be able to discuss issues critical to recovery, identify intervention models, and initiate a procedure culminating in cognitive/behavioral change.				

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
SAB 240	SAB Issues in Client Services	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course introduces systems of professional standards, values, and issues in substance abuse counseling. Topics include confidentiality, assessment of personal values, professional responsibilities, competencies, and ethics relative to multicultural counseling and research. Upon completion, students should be able to understand and discuss multiple ethical issues applicable to counseling and apply various decision-making models to current issues. <i>This course is a unique concentration requirement of the Substance Abuse concentration in the Human Services Technology program.</i>				
SEC 110	Security Concepts	3	0	0	3
Prerequisites:	None				
Corequisites:	None				
Course Offering Availability:	Course offered at discretion of Dean				
	This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy. <i>This course is also available through the Virtual Learning Community (VLC).</i>				
SEC 150	Security Communications	2	2	0	3
Prerequisites:	State, Take One Set: Set 1: SEC-110 and NET-110 Set 2: SEC-110 and NET-125				
Corequisites:	None				
Course Offering Availability:	Fall				
	This course provides an overview of current technologies used to provide secure transport of information across networks. Topics include data integrity through encryption, Virtual Private Networks, SSL, SSH, and IP-Sec. Upon completion, students should be able to implement secure data transmission technologies. <i>This course is also available through the Virtual Learning Community (VLC).</i>				

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
SEC 160	Secure Admin I	2	2	0	3

Prerequisites: State, Take One Set:
Set 1: SEC-110 and NET-110
Set 2: SEC-110 and NET-125

Corequisites: None

Course Offering Availability: Spring

This course provides an overview of security administration and fundamentals of designing security architectures. Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses. *This course is also available through the Virtual Learning Community (VLC).*

SEC 210	Intrusion Detection	2	2	0	3
----------------	----------------------------	----------	----------	----------	----------

Prerequisites: State, SEC 160

Corequisites: None

Course Offering Availability: Spring

This course introduces the student to intrusion detection methods in use today. Topics include the types of intrusion detection products, traffic analysis, and planning and placement of intrusion detection solutions. Upon completion, students should be able to plan and implement intrusion detection solution for networks and host-based systems.

SEC 220	Defense-In-Depth	2	2	0	3
----------------	-------------------------	----------	----------	----------	----------

Prerequisites: None

Corequisites: State, SEC 160

Course Offering Availability: Fall

This course introduces students to the concepts of defense-in-depth, a security industry best practice. Topics include firewalls, backup systems, redundant systems, disaster recovery, and incident handling. Upon completion, students should be able to plan effective information security defenses, backup systems, and disaster recovery procedures.

SEC 240	Wireless Security	2	2	0	3
----------------	--------------------------	----------	----------	----------	----------

Prerequisites: State, Take All: SEC-110 and NET-175

Corequisites: None

Course Offering Availability: Spring

This course introduces security principles and topics related to the wireless networking environment. Topics include network topologies, network protocols, security issues, and best practices for wireless environments. Upon completion, students should be able to design, setup, manage, and secure a wireless network.

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
SEC 289	Security Capstone Project	1	4	0	3
Prerequisites: State, SEC 220					
Corequisites: None					
Course Offering Availability: Spring					
This course provides the student the opportunity to put into practice all the skills learned to this point. Emphasis is placed on security policy, process planning, procedure definition, business continuity, and systems security architecture. Upon completion, students should be able to design and implement comprehensive information security architecture from the planning and design phase through implementation.					
SOC 210	Introduction to Sociology	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences. This course is also available through the Virtual Learning Community (VLC).</i>					
SOC 213	Sociology of the Family	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences. This course is also available through the Virtual Learning Community (VLC).</i>					
SOC 220	Social Problems	3	0	0	3
Prerequisites: Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A					
Corequisites: None					
Course Offering Availability: Fall, Spring, Summer					
This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences. This course is also available through the Virtual Learning Community (VLC).</i>					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
SOC 225	Social Diversity	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Fall, Spring				
	This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic differences evolve and how they affect personality development, values, and tolerance. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Social/Behavioral Sciences. This course is also available through the Virtual Learning Community (VLC).</i>				
SOC 242	Sociology of Deviance	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Fall				
	This course provides an overview of deviant behavior and the processes involved in its definition, causation, prevention, control, and treatment. Topics include theories of causation, social control, delinquency, victimization, criminality, the criminal justice system, punishment, rehabilitation, and restitution. Upon completion, students should be able to identify and analyze issues surrounding the nature and development of social responses to deviance. <i>This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.</i>				
SPA 111	Elementary Spanish I	3	0	0	3
Prerequisites:	Local, Take 1 group: Group A: ENG 090, RED 090 Group B: ENG 095/095A				
Corequisites:	None				
Course Offering Availability:	Fall				
	This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts. This course is also available through the Virtual Learning Community (VLC).</i>				
SPA 112	Elementary Spanish II	3	0	0	3
Prerequisites:	State, SPA 111				
Corequisites:	None				
Course Offering Availability:	Spring				
	This course is a continuation of SPA 111 focusing on the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate further cultural awareness. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>				

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
SPA 120	Spanish for the Workplace	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course offers applied Spanish for the workplace to facilitate basic communication with people whose native language is Spanish. Emphasis is placed on oral communication and career-specific vocabulary that targets health, business, and/or public service professions. Upon completion, students should be able to communicate at a functional level with native speakers and demonstrate cultural sensitivity.					
SPA 211	Intermediate Spanish I	3	0	0	3
Prerequisites: State, SPA 112					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides a review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					
SPA 212	Intermediate Spanish II	3	0	0	3
Prerequisites: State, SPA 211					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course provides a continuation of SPA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. <i>This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts.</i>					
SST 110	Intro to Sustainability	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces sustainability issues and individual contributions toward environmental sustainability. Topics include management processes needed to maximize renewable/non-renewable energy resources, economics of sustainability, and reduction of environmental impacts. Upon completion, students should be able to discuss sustainability practices and demonstrate an understanding of their effectiveness and impacts.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
SST 120	Energy Use Analysis	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the principles of analyzing energy use, energy auditing tools and techniques, conservation techniques, and calculating energy savings. Topics include building system control theory, calibrating digital controls, energy loss calculations, and applicable conservation techniques. Upon completion, students should be able to demonstrate an understanding of energy use, audits, and controls in the analysis of energy consumption.					
SWK 113	Working with Diversity	3	0	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course examines and promotes understanding, sensitivity, awareness, and knowledge of human diversity. Emphasis is placed on professional responsibilities, duties, and skills critical to multicultural human services practice. Upon completion, students should be able to integrate and expand knowledge, skills, and cultural awareness relevant to diverse populations.					
WEB 110	Internet/Web Fundamentals	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces World Wide Web Consortium (W3C) standard markup language and services of the Internet. Topics include creating web pages, search engines, FTP, and other related topics. Upon completion, students should be able to deploy a hand-coded website created with mark-up language, and effectively use and understand the function of search engines. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
WEB 111	Intro to Web Graphics	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces the creation of web graphics, and addressing problems peculiar to WWW display using appropriate software. Topics include web graphics file types, optimization, RGB color, web typography, elementary special effects, transparency, animation, slicing, basic photo manipulation, and other related topics. Upon completion, students should be able to create graphics, such as animated banners, buttons, backgrounds, logos, and manipulate photographic images for Web delivery.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
WEB 115	Web Markup and Scripting	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces Worldwide Web Consortium (W3C) standard client-side Internet programming using industry-established practices. Topics include JavaScript, markup elements, stylesheets, validation, accessibility, standards, and browsers. Upon completion, students should be able to develop hand-coded web pages using current markup standards. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
WEB 120	Intro Internet Multimedia	2	2	0	3
Prerequisites: Local, WEB 110					
Corequisites: None					
Course Offering Availability: Fall					
This is the first of two courses covering the creation of Internet Multimedia. Topics include Internet multimedia file types, file type conversion, acquisition of digital audio/video, streaming audio/video and graphics animation plug-in programs and other related topics. Upon completion, students should be able to create Internet multimedia presentations utilizing a variety of methods and applications.					
WEB 125	Mobile Web Design	2	2	0	3
Prerequisites: State, WEB 110					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces students to web design for mobile devices. Topics include planning an effective mobile Web site, industry standard Mobile Markup Language, CSS3, multimedia, m-commerce, social media, testing and publishing. Upon completion, students should be able to plan, develop, test, and publish Web content designed for mobile devices.					
WEB 140	Web Development Tools	2	2	0	3
Prerequisites: Local, WEB 110					
Corequisites: None					
Course Offering Availability: Spring					
This course provides an introduction to web development software suites. Topics include the creation of web sites and applets using web development software. Upon completion, students should be able to create entire websites and supporting applets. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
WEB 141	Mobile Interface Design	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers current design standards and emerging approaches related to the design and development of user interfaces for mobile devices. Emphasis is placed on research and evaluation of standard and emerging practices for effective interface and user experience design. Upon completion, students should be able to design effective and usable interfaces for mobile devices.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
WEB 180	Active Server Pages	2	2	0	3
Prerequisites: State, CIS 115; Local, WEB 115					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces active server programming. Topics include HTML forms processing and other issues related to developing active web applications. Upon completion, students should be able to create and maintain a dynamic website.					
WEB 182	PHP Programming	2	2	0	3
Prerequisites: State, CIS 115; Local, WEB 115					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces students to the server-side, HTML-embedded scripting language PHP. Emphasis is placed on programming techniques required to create dynamic web pages using PHP scripting language features. Upon completion, students should be able to design, code, test, debug, and create a dynamic web site using the PHP scripting language.					
WEB 185	ColdFusion Programming	2	2	0	3
Prerequisites: State, CIS 115; Local, WEB 115					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course introduces ColdFusion Programming. Topics include installing a ColdFusion development environment, using CFQUERY tags to send and receive database information, creating and displaying a form, and other related topics. Upon completion, students should be able to design, code, test, and debug using a ColdFusion environment.					
WEB 186	XML Technology	2	2	0	3
Prerequisites: State, CIS 115; Local, WEB 115					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course is designed to introduce students to XML and related internet technologies. Topics include extendible style language (XSL,) document object model (DOM), extendible style sheet language transformation (XSLT), and simple object access protocol (SOAP). Upon completion, students should be able to create a complex XML document.					
WEB 210	Web Design	2	2	0	3
Prerequisites: Local, WEB 115					
Corequisites: None					
Course Offering Availability: Spring					
This course introduces intermediate to advanced web design techniques. Topics include customer expectations, advanced markup language, multimedia technologies, usability and accessibility practices, and techniques for the evaluation of web design. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional web sites. <i>This course is also available through the Virtual Learning Community (VLC).</i>					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
WEB 211	Advanced Web Graphics	2	2	0	3
Prerequisites: State, WEB 111					
Corequisites: None					
Course Offering Availability: Spring					
This course covers the advanced concepts related to the creation and manipulation of graphic images for web delivery. Topics include graphics acquisition, use of masks and channels, advanced special effects, advanced photo manipulation, and other related topics. Upon completion, students should be able to create, manipulate, and optimize web graphics with advanced techniques and maintain an online coursework portfolio.					
WEB 220	Advanced Multimedia	2	2	0	3
Prerequisites: State, WEB 120					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This is the second of two courses covering Internet multimedia. Topics include use of advanced Internet multimedia applications. Upon completion, students should be able to create interactive Internet multimedia presentations.					
WEB 230	Implementing Web Services	2	2	0	3
Prerequisites: State, NET 110 or NET 125					
Corequisites: None					
Course Offering Availability: Course offered at discretion of Dean					
This course covers website and web server architecture. Topics include installation, configuration, administration, and security of web servers, services and sites. Upon completion, students should be able to effectively manage the web services deployment lifecycle according to industry standards. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
WEB 250	Database Driven Websites	2	2	0	3
Prerequisites: State, DBA 110; Local, WEB 115					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces dynamic (database-driven) website development. Topics include the use of basic database CRUD statements (create, read, update and delete) incorporated into web applications, as well as in software architecture principles. Upon completion, students should be able to design and develop database driven web applications according to industry standards.					
WEB 289	Internet Technologies Project	1	4	0	3
Prerequisites: State, Take All: WEB-230 and WEB-250					
Corequisites: None					
Course Offering Availability: Spring					
This course provides an opportunity to complete a significant Web technologies project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete an Internet project from the definition phase through implementation.					

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
WLD 110	Cutting Processes	1	3	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxy-fuel and plasma-arc cut metals of varying thickness.					
WLD 112	Basic Welding Processes	1	3	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes.					
WLD 115	SMAW (Stick) Plate	2	9	0	5
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes.					
WLD 116	SMAW (Stick) Plate/Pipe	1	9	0	4
Prerequisites: State, WLD 115					
Corequisites: None					
Course Offering Availability: Spring, Summer					
This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical, and overhead positions.					
WLD 121	GMAW (MIG) FCAW/Plate	2	6	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions.					

CURRICULUM COURSES

Course No.	Title	Class	Lab	Work Exp/ Clinical	Credit
WLD 131	GTAW (TIG) Plate	2	6	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.					
WLD 141	Symbols & Specifications	2	2	0	3
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall, Spring					
This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.					
WLD 151	Fabrication I	2	6	0	4
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Spring, Summer					
This course introduces the basic principles of fabrication. Emphasis is placed on safety, measurement, layout techniques, cutting, joining techniques, and the use of fabrication tools and equipment. Upon completion, students should be able to perform layout activities and operate various fabrication and material handling equipment.					
WLD 212	Inert Gas Welding	1	3	0	2
Prerequisites: None					
Corequisites: None					
Course Offering Availability: Fall					
This course introduces inert gas-shielded welding methods (MIG/TIG). Topics include correct selection of consumable and non-consumable electrodes, equipment setup, safety, and welding techniques. Upon completion, students should be able to perform inert gas welding in flat, horizontal, and overhead positions.					
WLD 261	Certification Practices	1	3	0	2
Prerequisites: State, Take All: WLD-115, WLD-121, and WLD-131					
Corequisites: None					
Course Offering Availability: Summer					
This course covers certification requirements for industrial welding processes. Topics include techniques and certification requirements for prequalified joint geometry. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.

Environmental Savings

Savings derived through the use of recycled paper for this catalog:

7 trees preserved for the future
24.5 lbs. of water-borne waste not created
3,507 gal. wastewater flow saved
388.5 lbs. of solid waste not generated
763 lbs. net greenhouse gases prevented
5,849,088 BTUs energy not consumed
